CSUH Assessment Responsibilities

Assessment is not the sole responsibility of one office or one person but rather is a shared responsibility between administrators, faculty, and a variety of units. Assessment follows a coordinated model that emphasizes the importance of faculty and degree programs. A decentralize model embeds assessment in normal operating and decision-making processes in the university making it a standard way of doing business as opposed to an external top down requirement to be met.

Responsibility for assessment is shared within the university infrastructure as follows:

**Policy-Making**
- Provost
- Deans
- Academic Senate

**Coordination**
- Institutional Research and Assessment

**Faculty Training**
- Office of Faculty Development

**Assessment Plans** (SLOs, Indicators, etc.)
- College

**Data Collection**
- Departments
- Institutional Research and Assessment

**Actual Assessment**
- Departments (with support from College, Faculty Development, IRA)

**Use of Results**
- Departments and College
- CAPR and Academic Senate
- Provost

**External Reporting Requirements**
- Institutional Research and Assessment

**Institutional Portfolio** (on web)
- Institutional Research and Assessment
