  To regulate the industry, the SEC requires public companies to disclose meaningful financial and other information, including description of properties, business, and security to be offered for sale; information about management; and financial statements certified by independent accountants. Companies with more than $10 million in assets whose securities are held by more than 500 owners must file annual and other periodic reports, which are available to the public through the SEC's Electronic Data Gathering, Analysis, and Retrieval database (EDGAR).
