GENERAL INFORMATION

- Internships are crucial in obtaining experience, building relationships, and reality testing career choices. Utilize your alumni network to make contacts.
- Begin cultivating creative talents as soon as possible. Develop a portfolio of creative materials related to career goals.
- Demonstrate enthusiasm, interpersonal skills, team work, integrity, good judgment, and intelligence.
- Experience with campus publications is a must.
- Develop excellent writing and grammar skills. Choose the most writing intensive coursework possible. Become familiar with Associated Press style and standard proof reading marks.
- Read extensively in areas of interest.
- The print publishing industry has declined significantly in recent years as many consumers turn toward other media outlets including television, radio, and Internet. Seek skills and experiences in these areas to qualify for a wider range of opportunities. For example, start a blog to hone computer skills.
- Be prepared to begin a journalism career in a small market, performing entry-level tasks, before moving to larger markets and positions with more creative freedom and responsibility.
- As the industry is tightening, applicants who have experience in a niche market, e.g. religious publishing, or outstanding technical skills, will be more competitive.
- Minoring in business administration, political science, technical communication, natural or social sciences, sport management, cinema studies, or art media may provide greater job opportunities and complement the major.
- Journalism is good preparation for graduate programs in communication, law, political science, and other fields that require strong writing skills.
- Pick electives in a variety of subjects as you may be asked to cover stories on many topics.
- Take classes in computers, graphic design, and website management.
- Develop a strong background in photography, as that component is becoming more prevalent in reporting.
- Familiarize yourself with the on-the-go mobile video and audio applications to effectively communicate live updates.
- Stay up to date with current events.
