A. DISCUSSION ITEM – Board of Directors Winter Quarter Goals
R. Finazzo informs the board that his main priority is to get more funding out because last quarter they didn’t get out as much as he would hope for. R. Finazzo states that this is because the process isn’t as efficient as he would like it to be. With that being said, R. Finazzo wants to make that process more efficient as far as club funding goes. R. Finazzo is also training the Finance committee on travel funding and seed funding in order for that process to be a lot quicker.

T. Patterson wants to be more active in tabling as well as getting the senate out there and involved in what’s going on around campus. T. Patterson also informs the board that they will have three “Hey be Nice” events that will stretch out to the spring.
C. Segura is focused on figuring out what the giveaways will be for the quarter. Reason being is that due to the ASI office being relocated during its renovation process they were unable to have giveaways for the previous quarter. C. Segura is also working on a couple more events so he is trying to seat his committee in order to have them start working with ASI.

J. Ching is trying to seat all of her committee members she is just waiting on one more person. J. Ching states that she is really hopeful because all of her committee members have really great ideas for Earth Week. J. Ching also wants to continue being active and communicating with the RAW of Sustainability committee as well as attending the Earth Week committee meetings.

N. Albanna wants to make sure she is consistent with her tabling, as well as working with the science department on getting more internships and jobs out for science majors. N. Albanna also wants to interact more with the non-academic senate and work with them on their events with T. Patterson. Another one of N. Albanna’s goals is to connect with the chairs of the Science Department.

D. Gray wants to work on branding himself in order to get his self out there. D. Gray feels as if a lot of people don’t even know he is a senator; so he is hoping that more tabling hours will give people an idea of his position here at ASI. D. Gray also wants to create an event that will help students distress during finals week, and teaming up with the RAW, Health Center, and the SCAA will be beneficial for this event. D. Gray also aims to be more involved in his department.

H. Rangel wants to work on improving his tabling hours as well as communicate with the campus. H. Rangel is also working with N. Albanna in order to throw a nice event.

Y. Ortega-Huerta wants to stay consistent with her tabling hours. Y. Ortega-Huerta brings up a few events that are in the works such as a couple of tailgates, Homecoming, and Farmer’s Market.

P. Rugeley-Valle wants to be more active in general, as well as plan and execute CHESS. P. Rugeley-Valle also wants to work on a plan for this tuition increase. A resolution has already been made, but it needs more finishing touches before it can be brought to the board. P. Rugeley-Valle wants to work with other Chair’s and VP’s in order to create more resolutions on other topics that would be a great asset to the university. P. B. DISCUSSION ITEM –CSU Proposed Tuition Increase 2018

J. Peckham states that with this in plan it is ideal to start incorporating it into their tabling in order to give others the stats of what they will start paying. P. Rugeley-Valle states that last year the Board of Trustees approved the 5% tuition increase so this increase is being stacked on top of that 5%. Therefore this increase is a lot bigger than what it initially was before. P. Rugeley-Valle states that this 5% increase is roughly $270 a year added on to tuition for the CSU system.
C. Ng thanks P. Rugeley-Valle for introducing that information and for social media she encourages P. Rugeley-Valle to encourage students to check it out because she will be posting today or tomorrow asking for student feedback about their financial issues.

With this in mind, they are able to collect this data and S. Quiambao can use this information at next week’s meeting. N. Albanna wants to know what exactly they can tell students while tabling tomorrow. Since they already have some of the statistics J. Peckham suggest that they make quick print outs and hand them to students.

E. Pinlac reminds the committee that S. Quiambao will be going to the Board of Trustees so any feedback from students on how potential tuition increase will affect them can be beneficial to help her present during public comment. C. Segura wants to know if a specific increase amount has been released or is it just presented as a 5% increase. P. Rugeley-Valle confirms that it is roughly $300. C. Ng likes J. Peckham’s idea of making print outs, but she wants to know if anyone will follow through with that. T. Patterson doesn’t mind compiling something she just needs to know where to get accurate information/facts.
