VI. UNFINISHED ITEMS:

A. DISCUSSION ITEM- ASI Executive Taskforce

The Executive Committee discussed the Executive Taskforce. M. Watkins spoke to E. Pinlac on how they could go forward by paying the taskforce as the board of directors believed the taskforce should be paid. M. Watkins and E. Pinlac will work on the budget to create a job description and provide any information that would be needed for the positions. This would need to be passed through personnel prior to the board of directors approving the job description. D. Maxion would like to know if the compensation form should be brought up to the board. M. Watkins believes it should go up to the board, what they will be working on will just answer the question they had. M. Fugfugosh would like to know if it is possible to give them priority registration or certain perks instead of being paid. E. Pinlac states that they cannot just give out priority registration to anyone and by making them staff they answer to him so if they do not show up to work they can always be written up. E. Pinlac states they will also have more authority as an employee of ASI. The people could be reappointed if they did a great job. E. Pinlac suggests that there won’t be enough funds so they will have to reallocate...
funds. They will be working 10 hours a week per student. M. Watkins believes the interns will be able to create a training PowerPoint in order to train the appointed taskforce. E. Pinlac believes the interns will not be able to do the projects as they still have to focus on the rotations. E. Pinlac states on boarding falls under the responsibility of EVP and it would be too much for the FYI. M. Watkins asked K. Dhillon if he believes it is something the FYI’s can accomplish since he was one last year. K. Dhillon states it is something they can help with but not something they should fully take on. K. Dhillon states the Internal Committee can take on this project. M. Watkins was planning on writing down everything that needs to be done and each FYI would pick two things they would like to do themselves. E. Pinlac states it sounds reasonable; he would like someone to update the information that will be presented and to edit the video. M. Fugfugosh does not believe they should have staff in case they do not get funding in the future they will need the funding they will be bothering. M. Watkins believes in the future it wouldn’t be a problem because this task force would be valuable to the board as they would be there to assist them.

B. DISCUSSION ITEM- ASI Volunteer Program
The Executive Committee discussed the ASI Volunteer Program. K. Dhillon believes this should be advertised so they could be aware of the different events they could possibly be a part of. E. Pinlac states they should submit marketing request forms. M. Watkins will be notifying the committees to start using the program and send out advertisements. K. Dhillon would like at least 50 volunteers by the end of the year and D. Maxion would like 20 by the first round of advertisements. M.
