

CLARK D SMITH

EDUCATION

Cal State University Hayward (East Bay) Secondary Single Subject Teaching Credential	1994
Cal State University Hayward BS Honors in Biological Sciences	1994
Cal State University Hayward BA Honors in Anthropology	1989

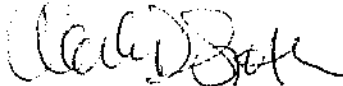

TEACHING EXPERIENCE

Alhambra High School Developed and delivered curriculum in Anatomy and Physiology, AP Biology, Honors Chemistry Created a partnership with The National Park Service and community interests to remove invasive flora and replant Californian natives	2001-2017
Piedmont High School Developed and delivered curriculum in Biology, Honors Physics, Earth Science, and Ecology Created a partnership with community interests for students to monitor local riparian habitat	1994-2001
Hayward High School Developed and delivered curriculum in Biology and Integrated Science	1993-1994
Cal State Hayward Developed and delivered curriculum in lab class for Biology 1302	1993

STATEMENT OF INTEREST

I have been a high school science teacher for over 23 years. I also have succeeded in attaining a BA in Anthropology and a BS in Biology. In that time I also have taught many subjects including very rigorous curricula in AP Biology, Honors Chemistry and Honors Physics. I am currently enrolled in a Masters program in Sustainable Resources through Oregon State University. My eventual goal is to teach at the JC level. I have also been involved as a common core facilitator and attended several workshops on NGSS. I have been implementing the Next Gen standards for a few years and, as a school, we have been developing a completely new science curriculum to facilitate the dissemination of NGSS. As a supervisor with Cal State, I look forward to working with students to develop their curricula and implementation of it as well as working within the college setting with other teaching professionals.
