

**Cal State East Bay
Multiple Subject, Single Subject, Special Education Credential Interns**

Intern App/My Internship Journal Introduction

Multiple Subject, Single Subject, and Special Education Interns track their support hours through an app called My Internship Journal by Time2Track. Candidates track their support hours and send them for approval to either their University Supervisor or District mentor.

Although the majority of candidates begin internship positions in August, some start mid-year in January or April. Internships can be full time or part time. Support hours are prorated based on workload and start date.
