Shira-
Please find the Preliminary Report of Findings from the second review of the Education Specialist document with feedback and the standards' status. The readers were unable to identify the new information in standard 5. In the resubmission, please emphasize the new information so that it may easily be found by reviewers.

Review PSA 10-12 for the **required method** of submitting new information by amending the original document. Resubmissions are to be emailed to programassessment@ctc.ca.gov. This information will be forwarded to the original readers for their review.

Documents requiring more than three reviews will now be assessed a $1,000 fee. The attached feedback is the second review. Please respond to feedback by June 10, 2016.

It is expected that all Preliminary Reports of Findings will be finalized at least six months before the scheduled site visit. Programs that have not been completed may result in an in-depth site visit review, rather than program sampling and will incur a cost recovery fee of $3,000 per program.
