Area of focus.
Dance concentration.

Describe your career, especially what you are doing now.
Professionally I work as a Physical Therapist. I also dance for Nina Haft and Company and teach and produce dance for James Logan High School Colorguard program in Union City.

How has your Cal State experience helped you career-wise?
Having a relatively small department in both theatre and dance meant there were plenty of opportunities to be in a lot of productions. There wasn’t a competitive vibe that’s often felt in larger departments. Being a small department made it feel like we were more of a family. The dance curriculum included movement analysis which helped me tremendously during my doctoral studies in physical therapy.
