Our degree programs are designed to meet the needs of scientists and technical professionals taking leadership roles within the National Security environment. Programs available range from basic to advanced and are accredited by the National Security Agency and provided through one of the leading universities in National Security Systems, meeting National Training Standards with reference to the Department of Defense. The American National Security University offers the following degree programs:

・ MS National Security and Homeland Security
・ MS National Security with a Concentration in Information Protection and Security
・ MS Forensic Science—Advanced Investigation

Who should attend?
・ Law enforcement, military, and intelligence personnel
・ Corporate security personnel and in-house investigators
・ Engineering and technical professionals
・ Graduate students preparing for intelligence community careers
