DEGREE ROADMAP
MAJOR: PHILOSOPHY, B.A.
CLASS (College of Letters, Arts, and Social Sciences)

Offered by the Department of Philosophy.  **Total units required for the Major:**  60 units.

The following is a general roadmap for how to complete your philosophy major. There are no prerequisites for upper division Philosophy courses, so you may take courses in any order. Please meet regularly with your faculty advisor to develop your own particular plan and to check on your progress toward graduation. This roadmap is NOT a substitute for consultation with your faculty advisor.

You need 15 courses (at least 14 Upper Division), totalling 60 units (32 units of core courses, 20-28 units of option courses, and 0-12 units of electives (only is the total is less than 60 units after the core and option courses), so think in terms of taking Philosophy courses in a pattern like this to complete the major within 4 years.

For your **Freshman and Sophomore** years, complete your Lower Division General Education Requirements whether you are a native CSUEB student or a transfer student.

Plan for 6 quarters to finish the major requirements. In 3 of these quarters you will take 3 PHIL courses, and in 3 of these quarters you will take 2 PHIL courses. At the end of your 4th year (or 2nd year after transfer), you should have a total of 60 units and have taken 15 Philosophy courses. Philosophy Majors may count one lower division course towards the major, taken at CSUEB or from another institution, but not PHIL 1000 or PHIL 1001 or another course that satisfies the A3 Critical Thinking GE requirement.
