NURSING

CAL STATE EAST BAY

STUDENT HANDBOOK

2014-2015
August 15, 2014

Dear Class of 2017 Nursing Students,

Welcome to the Nursing Program at California State University, East Bay, Department of Nursing and Health Science. We are pleased to have you join us for this exciting step in your education. Those of you who are enrolled in the pre-licensure nursing program have been selected from a large group of well qualified applicants because of your outstanding academic achievements and personal qualities that are essential to becoming an effective nurse. Those of you enrolled in the ADN-RN/BSN program bring many different experiences to this step of your education. You all have worked very hard to meet the requirements and gain entry to this program. I commend you on your efforts. Congratulations on all you have achieved.

The years ahead in the Department of Nursing and Health Sciences will be challenging yet exciting. The profession of nursing offers many rewards but requires hard work. Likewise, your experience in the nursing program will require vigorous effort but you will be rewarded. You will work alongside your classmates, some of whom may become your lifelong friends. You will learn and practice new skills and procedures. You will hear the amazing stories of your patients in the hospital and the community. You will learn to communicate in new ways. You will develop the skills and knowledge and attitudes of a professional nurse, which will give you many opportunities to contribute to others in your career ahead. To reach this goal, you will have the support of your family and friends, your student peers and the nursing faculty. Do remember, the nursing faculty are always ready to help you.

Welcome to CSUEB Nursing Program! We look forward to your time here with us.

Sincerely,

[Signature]

Lynn Van Hofwegen, RN, DNP, APRN
Professor and Interim Chair
Department of Nursing and Health Sciences
STUDENT AFFIRMATION FORM

I understand that as a nursing student I am a member of a profession which places me in a position of confidence requiring the utmost discretion and professionalism to protect those with and for whom I work. I acknowledge that as a member of the nursing profession I have a responsibility to act in a manner consistent with the essential attributes of the profession. In this regard:

_______ I agree to protect the privacy of faculty, peers, patients and family members of patients by not inappropriately disclosing confidential information about faculty, peers, patients or their family members that is disclosed to me in my capacity as a CSUEB nursing student. In addition, I agree not to inappropriately disclose confidential information about my agency or institution that is disclosed to me in my capacity as a CSUEB nursing student. I will adhere to HIPAA guidelines.

_______ I have been informed that information contained in the Nursing Student Handbook covers my rights and responsibilities as a nursing student at California State University, East Bay. I have been informed that it is incumbent on me to read and apprise myself of the information contained in the Handbook.

_______ I have read the Nursing Student Handbook. I am aware that it contains information on topics including (but not limited to) program description, program requirements, and policies on student conduct, appearance, and academic performance. I am aware that it describes communication procedures for student concerns and describes resources available to me in my student role.

_______ I agree that I will conduct myself in a manner that exhibits professional values and in accordance with the American Nurses Association (ANA) Code of Ethics for Nurses.

_______ I will maintain and uphold the academic integrity policy of the Department of Nursing and will not condone or participate in any activities of academic dishonesty including, but not limited to, plagiarism, cheating, stealing or copying another’s assigned work, or lying about any situation.

_______ I will not recreate any items or portions of any exam for my own use, or for use by others during my enrollment in the Department of Nursing.

_______ I will not accept or access any unauthorized information related to any exam administered during my enrollment in the Department of Nursing.

_______ I will sign my own papers and other documents and will not sign any other student’s name to anything, including class rolls.

_______ I will not allow any student access to any of my paperwork for the purpose of copying.

_______ I will not discuss or post any information about faculty, peers, patients, family members, or any clinical facility on any electronic venue (i.e., My Space, Facebook, Twitter, cell phones, etc.) without prior written consent. Nor will I leave/save any patient, family, faculty, clinical facility or student information on any open access desktop or hard-drive.

_______ I have read and agree to abide by the American Nurses Association (ANA) Principles for Social Networking.

GENERAL INFORMATION
CSUEB Nursing Program Mission

The mission of the baccalaureate nursing program at CSUEB is to prepare professional nurse generalists who are committed to the practice of nursing and responsive to the ever changing needs of the communities we serve. The program therefore seeks to provide an inclusive community of learning focused primarily on undergraduate nursing education and the development of lifelong learners.

The nursing program supports and reflects the University mission of quality education for a diverse society. We value a diverse workforce, a diverse nursing student body, and culturally inclusive practitioners of nursing who are equipped to provide high quality care and have a transformative influence on nursing practice, healthcare environments, and the health of our community.

May 2013
The CSUEB Nursing Program embraces these Core Values:

I. CARING: We believe Caring is essential to the practice of nursing and seek to treat those we serve with sensitivity, respect, and empathy. We embrace the provision of holistic care through therapeutic relationships directed towards health, comfort and well-being.

II. COMMUNICATION AND COLLABORATION: We believe that open Communication and Collaboration require accountability, honesty, integrity, and respect for all participants. We seek to practice shared decision-making with our fellow nurses as well as inter-professionally.

III. CULTURAL INCLUSIVITY: We believe in the practice of Cultural Inclusivity, recognizing the rich diversity of humanity. We endeavor to honor that diversity by continually broadening our scope of care to include all members of our community and by modeling respect, sensitivity and equality for all.

IV. CRITICAL THINKING: We believe Critical Thinking is essential to nursing as a self-reflective and purposeful approach to thinking. We value the ability to make connections between patient data and acquired knowledge, leading to appropriate clinical interventions for our patients.

V. EVIDENCE BASED PRACTICE: We believe in the use of Evidence Based Practice to guide our Nursing practice. We foster the integration of current research, clinical expertise, and the rigorous evaluation of the effectiveness of nursing interventions to make sound decisions in the care of our clients.

VI. PROFESSIONAL BEHAVIORS: We believe that Professional Behaviors encompass the knowledge, skills, and attitudes described by the Quality and Safety Education for Nurses (QSEN) and the American Nurses Association (ANA) Code of Ethics for Nurses. As professional, we model altruism, integrity, respect, accountability, responsibility, and ethical conduct. We promote lifelong learning for the advancement of professional Nursing.

VII. SAFETY: We believe Safety is of utmost importance to the practice of nursing and strive above all to prevent harm to our patients and ourselves while delivering quality healthcare. We promote theoretical and clinical preparation that encourages personal responsibility, open reporting of adverse events, and a system-wide approaches to error prevention.

VIII. SOCIAL JUSTICE: We believe Social Justice in nursing embodies the principles of fairness, equity, dignity and equal opportunity for health for all. We embrace a moral mandate to improve access to quality health care for the marginalized and under-served and to attend to those who are suffering inequities.

November 2013
CSUEB Nursing Program Objectives

Students graduating with a B.S. in Nursing from Cal State East Bay will:

Synthesize knowledge from the natural, behavioral sciences and the humanities with current nursing knowledge and theory to deliver nursing care;

Provide safe, compassionate nursing care to a diverse client population;

Use critical thinking and communication skills to develop partnerships with clients and other health care professionals;

Demonstrate responsibility and accountability for design, delivery, and evaluation of client care;

Demonstrate professional behaviors in interactions with clients, families, colleagues, and the community.

May 2014
STUDENT AFFAIRS

The East Bay Student Nurses Association (EBSNA) contributes to the student's professional identity and professional involvement.

Goals of the organization are to:

1. establish a professional network among students, faculty, and alumni.
2. reduce fragmentation and provide consistency for student concerns.
3. integrate the theories and processes of professional nursing into extracurricular activities.

EBSNA is part of the California Nursing Students' Association (CNSA). Students will be oriented to CNSA and invited to participate during orientation to the clinical nursing program.

There are two EBSNA Chapters, one active on each campus: Hayward & Concord. They each have their own set of officers and run their own campuses club.

Nurse’s Christian Fellowship (NCF) exists to encourage nurses as they study and grow in their professional capacity. Our goal is to explore how our faith interacts with our practice and to be a support to one another during this time of intense learning. All nursing students are welcome to join. Watch for flyers posted near the Nursing Office announcing location, days and times of meetings.

Career Development Center:
In addition to providing service for preparation of resumes and helping students prepare a professional file, jobs are listed for professional nursing students. Further information can be obtained at WA 509, ext. 53621.

Associated Students:
Associated Students serves the students and CSUEB community: through the operation and sponsorship of programs and services established to meet the needs of students, in conjunction and cooperation with other agencies and operations on campus; through expression of on-campus interests, and expression of student political opinion regarding actions and positions taken on the campus, local, state, federal and international levels that affect students. A.S. provides an opportunity for students to develop leadership and career skills through involvement in campus affairs that develop the university community; and by encouraging healthy civic and campus involvement.

Speech, Hearing and Language Clinic:
The speech, hearing, and language clinic offers a group for students who wish to soften or remove a foreign accent or an American dialect. The clinic provides this community service to anyone who is interested, whether a CSUEB student or not. For further information, contact Dr. Simrin at 885-4762.

Student Center for Academic Achievement:
The goal of the SCAA is to help students develop their academic skills by providing a wide variety of free services, e.g., peer tutoring in English, writing and learning skills, and workshops in test taking and time management. See the following pages for specific information.

Student Disability Resources Center (SDRC):
SDRC offers services to regularly enrolled students with temporary or permanent disabilities. Nursing students most often consult the SDRC because of a learning disability which requires academic support services and/or alternative test-taking arrangements. See the following pages for specific information.
At the Student Center for Academic Achievement, our mission is to help you achieve excellence by improving your academic skills (including writing, math, statistics and critical thinking). We provide free tutoring, workshops, and other programs. The Center can help any student develop skills that will lead to greater academic success. Come visit us and check these out:

- Writing, math and statistics help from knowledgeable tutors
- Flexible tutoring hours
- Appointments (as needed or weekly), drop-ins, study groups
- Workshops for the Writing Skill Test, academic success, and other great programs

Phone Number: (510) 885-3674

Hours of Operation:
Monday through Thursday, 10 - 6 pm
Friday: 10:00 am to 3:00 pm
We are located in Li 2550, across from the Library

Drop-in Hours for English and Math (No appointment necessary):

Please note our new policy: Students wishing to meet with a tutor must sign in at least 30 minutes before the end of drop-in hours: 3:30 on Monday through Thursday, 2:30 on Friday, and 5:30 Monday through Thursday for Statistics. Please note that signing in will not guarantee you a tutoring session. In spite of our best efforts to predict usage patterns, at times we simply do not have enough tutors available to assist students.

Monday - Thursday from 11:00 am to 4 pm
Friday 10 - 3 pm

Drop-in Hours for Statistics:
Monday - Thursday 3:00 pm to 6:00 pm

Please check back each quarter for any changes in hours.

http://wwwsa.csuhayward.edu/~lecweb/
The Department of Nursing follows the CSUEB nondiscrimination policy, and students requesting accommodations in the classroom or in clinical internship placements must be registered with the Accessibility Services office. It is to the student’s advantage to meet with their Accessibility Services counselor prior to the start of quarter in order for AS and the Nursing Program to collaborate on reasonable accommodations. Students requesting accommodations must demonstrate their ability to meet the Essential Functions. For more information see the Accessibility Services web page at:
http://www20.csueastbay.edu/af/departments/as/

If, after admission to the nursing program, a student develops a physical or mental disability that limits his/her ability to meet the Essential Functions, it is the student’s responsibility to bring this information to the attention of the clinical faculty before he or she begins the clinical course. If unable to meet the clinical course objectives, the student will not be allowed to participate in clinical activities. The student must provide documentation from his or her physician prior to returning to clinical which states that the student is able to meet the Essential Functions. See sample – Physician’s letter.
Financial Aid

Cal State East Bay offers students more than $69 million in grants, loans, scholarships and other financial aid each year. To determine if you are eligible to receive financial aid, submit a Free Application for Federal Student Aid (FAFSA) to the Federal Department of Education. Most students at Cal State East Bay are eligible to apply for financial aid. Many types of aid are available including grants, loans and the federal work study program.

Learn more about applying for Financial Aid.

Important New Information and Announcements

New State University Grant Policy

Beginning in fall 2013, Cal State East Bay and all other CSU campuses will limit students’ State University Grant (SUG) eligibility to a specific number of completed course units. In addition, only full-time students may receive this grant. To receive SUG fulltime students must meet the following criteria each quarter:

- Undergraduate students must have completed less than 225 quarter units
- Undergraduate transfer students must have completed less than 113 quarter units
- Single and Multiple Subject Credential students must have completed an amount of units less than the number required for their credential. For example, a student enrolled in a 45 unit credential program may only receive SUG for up to 45 completed units
- Master’s degree students must have completed less than 125% of their required program units
- Students pursuing second degrees or credentials may not receive SUG
- Pell Grant Lifetime Eligibility Limit

A recent Federal Regulation limits the number of years a student may receive a Pell Grant to the equivalent of six years of fulltime enrollment. To view the amount of Pell eligibility you have used, you may access the National Student Loan Data System (NSLDS) at: www.nslds.ed.gov/nslds_SA You must use your Federal PIN to access this web site.

New Limit on Subsidized Direct Loans

Students borrowing a first Direct Loan on or after July 1, 2013 may not receive Direct Subsidized Loan for more than 150% of the published length of their program. If the borrower exceeds the Direct Subsidized Loan limit, the borrower becomes responsible for the accruing interest on the Direct Subsidized Loan.

Pell Grant Lifetime Eligibility Limit

A recent Federal Regulation limits the number of years a student may receive a Pell Grant to the equivalent of six years of fulltime enrollment. To view the amount of Pell eligibility you have used, you may access the National Student Loan Data System (NSLDS) at: www.nslds.ed.gov/nslds_SA You must use your Federal PIN to access this web site.

Financing Your Education

California State University, East Bay offers a strong academic course of study and a real-world curriculum that prepares you for a lifetime of personal achievement and career success – all at a price so affordable it may surprise you. Cal State East Bay tops the index for value and affordability with among the lowest fees in the nation for comparable institutions, and is widely regarded as a best value in public university education.

Student Financial Services

The staff of Student Financial Services processes student fee payments. Your account information is found in the student self-service center of MyCSUEB. The Cashier's offices at the Hayward and Concord Campuses are operated by Student Financial Services. A secure online payment system is available through MyCSUEB for your convenience and is managed by a trusted third-party provider contracted by the University. Student Financial Services may be contacted at (510) 885-3767.

Convenient Payment Methods

Cal State East Bay makes it easy to pay your fees online, in person, or by mail. Installment payment plans are also available for non-Financial Aid students who apply.

Financial Aid Available

At Cal State East Bay, we recognize that even an affordable college education can be a significant financial commitment. That’s why, each year, we offer our students more than $100 million in grants, loans, scholarships, and other financial aid.

The Office of Financial Aid staff is dedicated to helping you finance your education and provides resources and information to make college accessible for all. The Office of Financial Aid may be contacted at (510) 885-2784; FAX (510) 885-2161; or by e-mail at: finaid@csueastbay.edu.

Offices Closed on Holidays

The above listed hours of operation are subject to change, and not applicable when the University is closed for regularly scheduled holidays.
SIGMA THETA TAU INTERNATIONAL
NU XI CHAPTER AT-LARGE

Sigma Theta Tau founded in 1922 is the International Honor Society for nursing. The society represents excellence in nursing which is reflected in the achievements of individual members, but it is also evidenced by the organization as a whole. As a collective of nurse leaders, Sigma Theta Tau actively promoted scholarship, inquiry, leadership, and quality in nursing's future through the influence it exerts on professional nursing throughout the world.

Specifically the purposes of Sigma Theta Tau are:

- recognize superior achievement.
- recognize the development of leadership qualities.
- foster high professional standards.
- encourage creative work.
- strengthen commitment to the ideals and purposes of the profession.

Nu Xi Chapter At-Large was established in Fall, 1992. Nursing programs from California State University, East Bay, Samuel Merritt University and Holy Names University worked collaboratively to establish an official chapter to serve the East Bay Nursing Community. As a result of its membership, Nu Xi Chapter At-Large is able to support the purposes of Sigma Theta Tau by engaging in activities which are of an educational or scientific nature and is able to promote the purposes by cooperating with other chapters and the Governing Council.

To be considered for membership in the society, individuals must:

1. Demonstrate superior academic achievement, academic integrity, professional leadership potential and/or marked achievement in the field of nursing.
2. Be enrolled in a baccalaureate or graduate program which is accredited by a nationally recognized accrediting body for professional nursing.
3. Have completed 1/2 of a baccalaureate nursing curriculum or 1/4 of a graduate curriculum.
4. Have demonstrated ability in nursing at the baccalaureate level by:
   a. Ranking in the upper 35% of one's class.
   b. Having a GPA of 3.0 or above in the nursing program.
5. Have demonstrated ability in nursing at the master's level by:
   a. Ranking in the upper 35% of one's class.
   b. Having a GPA of 3.5 or above in the nursing program.

Students are notified in January by the Department Eligibility Counselor as to their eligibility for membership in Society.
PRE-LICENSEURE, LVN-BSN, and RN-BSN

STUDENT POLICIES AND PROCEDURES

The faculty have prepared policies and procedures by which many activities in the Nursing Program are governed. They are presented in this section of the student handbook for your information and reference. If a policy is developed or amended during the school year, students will be notified by announcements in class as well as distribution of written copies of it. The date the new/amended policy takes effect also will be announced and described in the written version.
CSUEB POLICY ON ACADEMIC DISHONESTY

The University, like all communities, functions best when its members treat one another with honesty, fairness, respect and trust. Students should realize that deception for individual gain is an offense against the members of the entire community, and it is their responsibility to be informed of University regulation on Academic Dishonesty by reading the catalog. It is a duty of faculty members to take measures to preserve and transmit the values of the academic community in the learning environment which they create for their students and in their own academic pursuits. To this end, they are expected to instill in their students a respect for integrity and a desire to behave honestly. They are also expected to take measures to discourage student academic dishonesty, to adjust grades appropriately if academic dishonesty is encountered, and, when warranted, to recommend that additional administrative sanctions be considered. Grading policies are the exclusive prerogative of the faculty; administrative sanctions are under the authority of the Student Disciplinary Officer (SDO). This document provides policies and procedures to be followed when academic dishonesty is encountered.*

1. Examples of Academic Dishonesty

1.1 Cheating

1.1.1 Possessing unauthorized notes, crib sheets, additional sources of information, or other material during an examination.
1.1.2 Copying the work of another student during an examination, or permitting another student to copy one's work during the examination.
1.1.3 Taking an examination or any portion of a course for another student; writing a paper, lab report, computer program, or other assignments for another student.
1.1.4 Submitting material written or produced by someone else, or having an examination taken by someone else.
1.1.5 Preparing a written answer to an exam question outside of class and submit answer as part of an in-class exam.
1.1.6 Altering or falsifying a graded work after it has been evaluated by the instructor, and re-submitting it for re-grading.
1.1.7 Possessing term papers, examinations, lab reports or other assignments which were supposed to be returned to the instructor.
1.1.8 Submitting the same paper for two different classes without the explicit permission and approval of the instructors involved.
1.1.9 Inventing data in a piece of work or providing a false account or method by which data were generated or collected.

* Portions of the opening statement are reprinted by permission from the "Statement of Principles" appearing in the catalog of the University of North Carolina, Charlottesville. Portions of the definitions are reprinted by permission from the "College of Arts and Sciences Statement of Academic Dishonesty, "University of Colorado, Boulder".
Policy on Academic Dishonesty, continued

1.2 Plagiarism

Students are expected to do their own work. Plagiarism consists of taking the words or specific substance of another and either copying or paraphrasing the work without giving credit to the source. Some examples are:

1.2.1 Failure to give credit in a footnote for ideas, statements of facts or conclusions derived from another.
1.2.2 Failure to use quotation marks when quoting directly from another whether it is a few words, a sentence or a paragraph.
1.2.3 Failure to reference close and/or extended paraphrasing of another.

1.3 Other Forms of Academic Dishonesty

1.3.1 Providing material or information to another person with knowledge that these materials will be used improperly.
1.3.2 Possessing another student's work without permission.
1.3.3 Selling or purchasing examinations, papers, laboratory work, computer programs or other assignments.
1.3.4 Altering another student's examination, term paper, laboratory work, computer program or other assignment
1.3.5 Knowingly furnishing false or incomplete academic information.
1.3.6 Altering documents affecting academic records.
1.3.7 Forging a signature of authorization or falsifying information on an official academic document, election form, grade report, letter of permission, petition, or any document designed to meet or exempt a student from an established University academic regulation.

CSUEB NURSING PROGRAM AND ACADEMIC DISHONESTY

Society has entrusted nurses and other health care professionals with the comfort and safety of its most vulnerable people. Therefore, the nursing profession requires people of absolute integrity. When a student is found to have committed an act of deceit in a Nursing prefix course, s/he will receive an F grade in that course. F grades so assigned cannot be academically renewed by University Policy. Students with such grades will not be permitted to enroll in any further Nursing prefix courses.

Reviewed 5/14
ADVISING

All registered students in the nursing major are assigned a faculty advisor. Students are responsible for obtaining advisement from their assigned Faculty Advisors on a regular basis. Advising lists are posted on the Department bulletin board and Department website.

Students should contact their advisor to schedule a meeting time during their advisor’s stated office hours. If the office hours are inconvenient, usually a mutually agreed upon time can be scheduled. If such a time cannot be worked out, the Department will allow the student to select an advisor whose office hours are compatible with the student's schedule.

The faculty recommend that the students also seek general education information at Academic Advising and Career Education (AACE) on the Hayward Campus or Academic Services on the Concord campus. The Blackboard website is another resource for updates in University requirements. In this way students will keep abreast of University requirements.
CHALLENGE OF NURSING PREFIX COURSES POLICY
(CREDIT BY EXAMINATION)

Students with special studies or experiences may have already achieved the objectives of certain courses and may petition to receive credit by special examination. After receipt of notice of eligibility to register for the Clinical Nursing Program, the applicant must contact the department to make an appointment with an advisor. Each applicant's previous education and work experience will be individually assessed to design an optimal learning program.

LVN's who wish to take the NCLEX-RN (RN Licensing Examination) without obtaining a baccalaureate degree should see information on the LVN Non-Degree Program Option.

Students interested in challenge must notify the department no later than 2 weeks prior to the first day of class. To receive credit under this plan, the student must register for the class the quarter in which it is listed in the catalog. A petition for credit by examination is obtained from the Nursing Office. The examination will be administered within the first two weeks of the quarter.

If the exam is passed, the grade and Credit By Examination will be indicated on the student's permanent record. The student remains registered in the class but does not need to attend. If the examination is failed, the student must either continue taking the course or formally withdraw within one week after completing the examination.

No more than 36 quarter units of credit obtained by challenging courses may be applied toward the baccalaureate degree. No credit earned by examination may be applied toward the requirement of 45 quarter units in residence at CSUEB.

Challenging of nursing prefix courses must follow the progression policy and the prerequisites for each course must be satisfactorily completed prior to enrollment.

Reviewed 5/08
CLINICAL ATTENDANCE DURING UNION STRIKES POLICY

No CSUEB student is permitted to be on site at a clinical agency during a union strike. During a strike, clinical faculty will arrange alternate assignments.

The intent of this policy is to:

1. Protect students from exposure to a physically unsafe environment associated with strike activities.

2. Protect students from a compromised learning environment in which changes in the number and type of staff may jeopardize patient safety.

Reviewed 5/08
COMMUNICABLE DISEASE POLICY

In order to make appropriate student clinical assignments, the following are required: varicella titer, rubella immunization or positive titer, rubeola immunization or positive titer, positive mumps titer, Hepatitis B titer showing immunity and PPD or chest x-ray

Student/faculty who are Hepatitis B carriers may not be restricted from clinical experiences by the university. They will be counseled by the Department Chair regarding precautions.

There is a risk of occupational acquisition or transmission of infectious diseases by students/faculty infected with HIV and/or who are otherwise immunosuppressed.

If there is a problem of a communicable disease nature in a clinical assignment, the clinical instructor, in consultation with Coordinator and the Department Chairperson will determine, on an individual basis, whether the student can adequately and safely perform patient care duties, and will suggest changes in work assignments, if and when indicated.

Standard Precautions will be used in the Nursing Skills Lab and in all clinical agencies.

A more stringent policy of a clinical agency will supersede this policy.
CREDIT FOR COMMUNITY SERVICE

The purpose of this policy is to outline the procedure for nursing students wishing to receive academic credit for community service outside the scope of their regular studies.

Credit will be awarded on a basis consistent with the CSU standard of 1 unit of credit per 30 hours of time on task (including direct preparation time). In the case of credit for community service; preparation to contact time should not be greater than 10 hours preparation time to each 20 hours of contact time in the actual service.

Credit may be accumulated over a time period greater than 1 quarter but not longer than 3. In the case of long term accumulation of hours towards Community Service credit(s) the student must arrange the scope of the service to be completed with the faculty of record at the beginning of the undertaking and prior to the quarter chosen for actual receipt of the credit(s).

It is the student's responsibility to select/contact a Nursing faculty person willing to oversee their Independent Study in Community Service and set up a timeline for completion at the outset of the project. The student will submit to the faculty of record a written plan outlining the “Who, What, Where, When and How” of their Community Service Project including specific “behavioral objectives” to be completed. The plan outline will also include a schedule for student/faculty meetings as appropriate to the project, but not less than twice a quarter.

Community Service credit will be considered for any structured time volunteered for the benefit of others inside or outside the school for which the student did not otherwise receive school credit or monetary compensation.

Examples of community service include (but are not limited to) clinics, hospitals, churches, health fairs, community “runs” or “bike rides” and service in organizations such as EBSNA, CSU Associated Students or Nu Xi Chapter of Sigma Theta Tau.

Any “unusual” areas of service that cannot be clearly discerned as community service in scope will be presented by the faculty of record to the CSUEB Nursing Faculty for consideration.

Reviewed 5/00
CRIMINAL BACKGROUND CHECK/SANCTION SEARCH POLICY

The Joint Commission on Accreditation of Healthcare Organizations (JCAHO) Accreditation Manual for Hospitals 2004 introduced a new standard (Human Resource Standard HR 1.20) requiring employees, students, and volunteers to undergo a criminal background check before providing health care services.

In addition, a search of the Department of Health & Human Services (DHHS) Office of the Inspector General exclusions database (sanction search) must be performed as part of the background check process to identify students excluded from participation in Federal Healthcare Programs. Exclusion is based on any of the following: convictions for program-related fraud, patient abuse, state licensing board actions, or default on Health Education Assistance loans.

Students applying to the RN-BSN Program must have an unencumbered, unrestricted RN license, as determined by the Board of Registered Nursing.

All Nursing students must complete a criminal background check and 10 panel drug screening as a prerequisite for enrollment in the CSUEB Nursing Program.

The background check includes the following categories:
- 7 year county criminal search with maiden/alias names (unlimited counties and names)
- Nationwide healthcare fraud and abuse scan
- Nationwide criminal record indicator with sex offender index and alias names
- Nationwide patriot act
- Social security alert
- Resident history trace

Students receive information about the background check process after receiving their conditional admit letter.
- Background checks are performed by an agent designated by the Department of Nursing.
- Backgrounds checks performed by this agent ONLY will be accepted.
- Students must register with and pay fees to the designated background check agent.

Results of the background check and drug screening are electronically reported directly to the Department of Nursing. If a student is not “clear” and “negative,” the files are reviewed by the Nursing Admissions Coordinator and Chairperson of the Department to determine eligibility for admission and/or enrollment in the Nursing Program.

Reviewed 7/2014
DELIVERY OF HEALTH CARE: RIGHTS AND RESPONSIBILITIES

Students have the right to know their patients' diagnoses/suspected diagnoses in a timely fashion in order to make an appropriate nursing care plan and to take necessary precautions to minimize the risk of contracting or spreading disease. In settings where specific patient assignments are made at the beginning of the clinical shift, learning activities are designed to prepare students for types of conditions that they are likely to encounter prior to their arrival in the setting. Although the student is not expected to take life-threatening risks in caring for clients, it is not acceptable to abandon any client based on age, religion, gender, ethnicity, or sexual orientation.

REPORTING EMERGENCIES

GENERAL INFORMATION
DIAL 911. Notify Public Safety that assistance is needed.

Be calm. Identify yourself, location of the incident, your location and telephone number.

Describe the incident to the dispatcher with as much specific detail as possible.

Remain on the line until the dispatcher has obtained all necessary information from you, and has given you instructions. Let the dispatcher hang up first.

ASSEMBLY AREA
Each building at Cal State East Bay has its own designated assembly area:

Look to the Building Safety Assistants (BSA’s wear yellow hard hats and orange vests) for guidance to the assembly area.

For emergencies that affect more than one building, the University Assembly area is the Amphitheater located between the Arts/Education Building and Robinson Hall.

EARTHQUAKE PROCEDURES

If you are INSIDE a building at the onset of an earthquake:
Duck under a sturdy object, if possible, and hold onto it.

Protect your neck and head with your arms, if no other protection is available.

Avoid windows and other heavy objects that can shatter or fall.

Stay under cover until the shaking stops.

When leaving the building use stairs only, never use elevators.

If you are OUTSIDE a building at the onset of an earthquake:
Move well away from trees, signs, buildings, electric poles and wires.

Protect your neck and head with your arms from falling bricks, glass, plaster, and other debris as necessary.
ESSENTIAL FUNCTIONS:
PHYSICAL AND MENTAL QUALIFICATIONS

A student with a disability that is requesting accommodations has to be registered with the Accessibility Services office at CSUEB. It is to the student’s advantage to do this as soon as possible in the quarter to ensure that approved accommodations can be granted in a timely manner.

There are essential functions or abilities necessary for admission and progression in the complex discipline of nursing at CSUEB. To matriculate or progress in the nursing curriculum, the candidate must be able to perform all of the essential functions. The Department of Nursing follows the CSUEB nondiscrimination policy, and students requesting accommodations should contact the Accessibility Services office. These essential functions include, but are not limited to, the following:

A. Critical Thinking:

A student must demonstrate critical thinking ability sufficient for clinical judgment.
1. Make effective clinical decisions.
2. Identify cause and effect relationships with clinical data.
3. Develop nursing care plans.
4. Perform math calculations requisite to safe dosage calculations and medication administration.
5. Read, synthesize, analyze, evaluate, and integrate material in the classroom and the clinical setting.

B. Professional-Ethical Conduct:

A student must possess the ability to reason morally and practice nursing in a professional and ethical manner.
1. Demonstrate integrity, honesty, responsibility, and tolerance.
2. Abide by professional standards of practice.
3. Deliver compassionate care to all patient populations.

C. Interpersonal Skills:

A student must demonstrate appropriate interpersonal abilities while interacting with individuals, families, and groups from a variety of social, emotional, cultural, and intellectual backgrounds.
1. Communicate effectively and sensitively with other students, faculty, staff, patients, families, and other professionals.
2. Demonstrate willingness and ability to give and receive feedback.
3. Develop mature, sensitive, and effective relationships with clients.
4. Establish trust and rapport with clients and colleagues.
D. Communication:

A student must have the ability to clearly communicate in oral and written forms, and to effectively interpret communication with others.
1. Use appropriate grammar, vocabulary, and syntax.
2. Effectively communicate nursing actions.
3. Appropriately interpret client responses.
4. Initiate health teaching.
5. Demonstrate accurate nursing documentation.
6. Accurately report patient information to members of the health care team.

E. Mobility and Stamina:

A student must possess sufficient gross and fine motor skills and endurance to provide safe and effective nursing care in all health care settings.
1. Perform basic life support, including CPR.
2. Function in an emergency situation.
3. Safely assist a patient in moving (e.g., from wheelchair to commode, from chair to bed, lift and transfer from gurney to bed).
4. Calibrate and use equipment.
5. Perform treatments and procedures.
6. Apply pressure to stop bleeding.
7. Manipulate diagnostic instruments to adequately perform all aspects of a physical assessment.
8. Sit, stand, and move about in patient environments for 12 hour periods.

F. Tactile:

A student must have sufficient tactile ability to perform a physical assessment of a patient and to perform procedures necessary for nursing care.
1. Perform palpation and other functions necessary for a physical exam.
2. Assess texture, shape, size, and vibration.
3. Note temperature changes in skin and equipment.
4. Perform therapeutic functions (e.g., inserting a urinary catheter or IV, change dressings, give medications).

G. Auditory:

A student must have sufficient auditory ability to effectively monitor and assess health needs of patients.
1. Hear cries for help.
2. Hear alarms on equipment and overhead codes.
3. Hear auscultatory sounds using a stethoscope.
4. Hear and interpret verbal communication from patients.
5. Communicate over the telephone.

H. Visual:

A student must possess visual ability for observation and assessment necessary in nursing care.
1. Observe patient responses (e.g. changes in skin color, grimaces).
2. See drainage on dressings and note characteristics of body fluids.
4. Read gauges that monitor patient progress (e.g. sphygmomanometer).
5. Discriminate colors for diagnostic purposes.
6. Assess movements of patients.
7. Observe patient behavior (e.g. in rehabilitation or psychiatric facilities).

I. Behavioral-Emotional Health:

A student must possess the emotional health required for full use of his or her intellectual abilities, the exercise of good judgment, and the prompt completion of all responsibilities attendant to the care of patients.
1. Maintain mature, sensitive, and effective relationships with patients, students, staff, faculty, and other professionals under even highly stressful situations.
2. Experience empathy for the situations and circumstances of others and effectively communicate that empathy.
3. Be willing to examine and change his or her behavior when it interferes with productive individual or team relationships.
4. Prioritize competing demands.
5. Function in stressful circumstances.
6. Separate own needs and experiences in order to maintain objectivity and client-centered care.
7. Adjust to changing circumstances.
8. Plan effectively and complete all assigned duties carefully.

Approved 12/5/13
SAMPLE PHYSICIAN’S STATEMENT FORM

The following statement can be printed for use by your physician to document your ability to return to clinical:

Dear Physician:

There are minimum entry level qualifications required for professional nursing practice for students in the nursing program at California State University, East Bay (CSUEB).

_________________________ is a student in the CSUEB Undergraduate Nursing program and should provide you with a copy of the Essential Functions for Nursing Practice. Please complete the following:

To the Chair of the Nursing Department:

_____________________________ (student name) has been under my care for a Medical Condition on ________ (date) I have reviewed the Essential Functions for Nursing Practice and certify that:

1. He/She is capable of performing Cardiopulmonary Resuscitation without limitations.
   a. Yes/No (circle one)
   b. Comments:

2. He/She may return to clinical practice with no limitations.
   a. Yes/No (circle one)
   b. Comments:

__________________________  __________________________         _________
Physician’s Name                          Physician’s Signature                            Date
Lines of Communication and Procedures for Grade Disputes and Other Academic Problems

Grade disputes and other academic problems are initially discussed between student and instructor. In addition, students may choose to consult with their advisor who can help a student by clarifying the issue, and provide information on how to proceed in order to resolve the problem. Most problems can be settled within the department between student, instructor, and, when needed, coordinator, department chair and Program Executive Committee. If the student is not satisfied with the results of such meetings, or perceives that academic unfairness or discrimination has occurred, the student is directed to the Dean of the College of Science, who may send the issue back to the department chair for reconsideration, or refer the student to the University Fairness Committee.
INFORMATION FOR STUDENTS SERVING AS REPRESENTATIVES
TO NURSING FACULTY MEETINGS

The Nursing Program Faculty invites student representation at regular meetings. Although you do not have voting privileges, your input can significantly affect the decision making process.

Your role as a student representative is to contribute your unique perspective to the discussions at hand, as well as serving as a spokesperson for your peers. In order to facilitate the gathering and reporting of information from and to your peers, a limited amount of class time is available for you to present committee issues. If the gathering or reporting of information consumes more time than allotted, you will have to continue this process outside of class time.

Meetings are scheduled once a month and typically are held on the first Thursday of each month. However, the schedule for meetings is subject to change from quarter to quarter as may be required by unforeseen events.

If circumstances preclude you from attending, it would be helpful if you could arrange for an alternate student to represent you. Please feel free to request that any student item of concern be placed on the agenda with a short statement of purpose. A lead-time of three days for doing this is appreciated, but it is acceptable for items to be added to the agenda at the time of the meeting.

You will be excused from those portions of the meeting which may be confidential in nature.

Reviewed 6/10
LVN Certificate Program (Non-Degree) (45 Unit)

The certificate program allows LVN's to sit for the NCLEX-RN (RN licensing exam) after successfully completing courses for 45 quarter units. This program does not meet CSUEB graduation requirements or admission requirements for the Nursing major. Students must declare their intent to enroll in this option to the Chairperson of the Department of Nursing and Health Sciences prior to the deadline for application to the nursing program. Clinical placement is offered on a space available basis. Students must also make an appointment with a Nursing advisor prior to the deadline for application to the nursing program. Each applicant's previous education and work experience will be individually assessed.

The resulting RN licensure license would be valid in California. It is important for students to understand that taking the NCLEX after completing the certification program means that your license to practice nursing may not be recognized in all 50 states.

Requirements

1. High school graduate or equivalent.
2. Current licensure as a vocational nurse in California.
3. Admission to the University as an "Undeclared Major".
4. Completion of all health requirements.
5. Current malpractice insurance.
6. Satisfactory completion of the following courses:

Prerequisites

- Physiology - Biology 2020 5 units (with laboratory)
- Microbiology - Biology 2025 5 units (with laboratory)

Nursing Prefix Courses

- NURS 3201 (Nurs Theory II) 4 units
- NURS 3202 (Leadership) 4 units
- NURS 3001/02/03 (Skills Lab) 3 units
- NURS 3402/03 (Perioperative) 3 units
- NURS 3406/07 (Psych) 3 units
- NURS 3410/11 (Medicine) 3 units
- NURS 3412/13 (Gerontology) 3 units
- NURS 4301/02 (Preceptorship) 10 units
- Nursing Elective 2 units

The Nursing Prefix courses listed above must be completed with at least a "C" grade. Clinical Nursing courses must be successfully completed or challenged according to the clinical course progression policies. Students may challenge (Credit By Examination) any nursing prefix course. Please see the attached "Policy on Challenge of Nursing Prefix Courses".

Recommended Elective: NURS 3200 1 unit Credit/No Credit course (may be repeated up to two times)
Description of Nursing Courses:

NURS 3201 (Patients and Families with Complex Needs) – Concepts and principle from nursing and behavioral sciences applied to care of acutely ill patients and their families

NURS 3202 (Leadership) – Integration of traditional leadership and management theory with contemporary healthcare issues, nursing trends, and practice applications

NURS 3001/02/03 (Level 2 Skills I, II, & III) - Students are expected to demonstrate advanced technical skills in a laboratory setting

NURS 3402/03 (Nursing Care of Adults III & Practice) – Care of patients with complex illness requiring surgery plus practicum

NURS 3406/07 (Care of Clients with Psychiatric/Mental Health Needs & Practicum) - This is a five week theory and clinical practice course in psychiatric/mental health nursing care

NURS 3410/11 (Nursing Care of Adults IV & Practice) - This is a five week theory course which must be taken concurrently with a clinical practicum in an acute medical setting. Students learn to anticipate, identify, and meet nursing needs of patients and their families

NURS 3412/13 (Nursing Care of Elder Adults & Practice) – Nursing Care of elders with acute, complex illness

NURS 4301/02 (Preceptorship) - Students are expected to apply advanced nursing theory in a clinical practicum. Emphasis is on increasing independence in professional nursing practice

ELECTIVE COURSE
NURS 3200 (Current Issues in Professional Nursing)
Discussion and presentation of a variety of current issues in nursing may include: violence in the workplace, international opportunities in research and service, current research projects, strategies for job search
MALPRACTICE INSURANCE

Malpractice claims can be filed against everyone on the floor at the time of an incident, then the courts decide who is liable. Even if you do not have patient responsibility, you could be included as a party in a lawsuit as a result of your role on the health care team, and you will need to defend yourself. Malpractice insurance coverage protects you for both defense costs and settlement.
NURSING COURSE PROGRESSION POLICY

The Nursing Program faculty have established policies regarding student progression from one course/level to the next. The faculty have also set limits on the number of “D” or “NC” grades earned to maintain enrollment in the program (see I.E. below). Students earning “F” grades in theory courses are not allowed academic renewal. The intent of this policy is to assure student readiness for more complex courses and responsibility and to facilitate a successful transition from school to employment.

Nursing Course Progression

A. Courses with the NURS prefix must be successfully completed or challenged in the proper sequence.

B. In order to progress within the nursing major the Pre-Licensure student must:
   1. earn a grade of “C” or better or “CR” in courses with a NURS prefix.
   2. earn a grade of “C-” or better in NURS 2005 and 2015, before beginning Level II clinical courses.
   3. Theory and clinical courses need to be taken concurrently.
   4. be enrolled concurrently or have earned a grade of “C” or better in NURS 3201 for all subsequent Level II courses.
   5. earn a grade of “C” or better in NURS 3202 for all subsequent Level III nursing courses.

In order to progress within the nursing major the RN-BSN student must:
Earn a grade of “C” or better or a “CR” in courses with a NURS prefix.

C. A student loses eligibility for preferential admission to subsequent nursing courses if a grade of “D”, “F”, “NC” or “W” is received in any NURS prefix course. This policy also holds true for students who receive a Departmental Warning in a clinical course.

D. A student may not continue in the current clinical practice course after notification of unsafe clinical behavior(s) and will receive a “NC” grade in said course.

Unsafe clinical behavior may result in either a clinical failure or expulsion from the program depending on the gravity of the “unsafe” behavior(s). The individual instructor will consult with the Level Team members and Level Coordinator.

Should the “unsafe” behavior(s) be deemed serious enough for possible expulsion from the program, the matter will be forwarded to the “Executive Committee” for consideration.

E. After the add/drop date, all withdrawals from a course must have instructor approval.

F. An incomplete may be assigned for a clinical course by the clinical instructor IF a student is in good standing. The criteria of good standing in a clinical course include satisfactory completion of at least 80% of the total clinical hours (Note: the total of hours will vary dependent on the specific clinical course) and demonstration towards the successful completion of the clinical objectives. (See University Catalog Grading and Academic Standards: Incomplete)
G. If completion of a concurrent theory and clinical course results in a failure of one of the courses the student must repeat the failed course. If the failure occurs in the theory course the student will be required to repeat only the theory course. If the failure occurs in the clinical course the student must repeat the clinical course and audit the co-requisite theory course. (This is consistent with the BRN regulatory body policy regarding concurrency of theory and clinical courses.)

H. Consistent with CSUEB policy, “an "I" must normally be made up within one calendar year immediately following the end of the term during which it was assigned. This limitation prevails whether or not you maintain continuous enrollment. You may not repeat a course in which you currently have an incomplete grade.” However, if the course is required for progression in the Nursing program, the earlier completion of the required work may be mandatory.

Your instructor will specify the work needed for completion and will communicate the requirements to you in writing with a copy to the department or program chair. When you complete the required work and it has been evaluated, your instructor will submit a change of grade form and a final academic grade will be recorded. If you do not complete your work within the allowed time limit, the grade will be recorded as an "IC" (See University Catalog Grading and Academic Standards: Incomplete).

I. A student who has two failures ("D", “F”, “IC” or “NC”) in any nursing prefix courses will be dropped from the nursing major. Calculation of failures includes any nursing prefix course which was passed by academic renewal.

II. Re-entering the Clinical Nursing Sequence

A. A written request for readmission to the clinical nursing sequence must be submitted to the Chair of the Department of Nursing and Health Science. Written requests are to be dated and signed if submitted via hardcopy, and include current contact information. In order to facilitate a decision based on sufficient background, a brief history including dates and reason for leaving the program should be included. This must be done by the end of add/drop of the quarter prior to the quarter of intended return.

B. A student who withdraws or interrupts the clinical nursing sequence for physical and/or emotional reasons must present evidence (e.g., doctor’s letter) that his/her current health status is satisfactory to physically and/or emotionally care for patients in any clinical setting. The final decision for reentry into the nursing sequence will rest with the Executive Committee of the Nursing Program.

C. A student who has been failed in a clinical course as the result of unsafe behavior might not be permitted re-entry to the nursing program. Unsafe behaviors may include though not limited to the following: 1) purposeful falsification of a client record, 2) blatant disregard of client confidentiality, 3) denying responsibility for one’s own deviation from standard practice, 4) act or threat of intimidation, harassment, or physical aggression, 5) actions, which places the client or others in physical or emotional jeopardy, 6) abusive behavior toward clients, faculty, staff, or colleagues, 7) failure to disclose actions, which places the
client or others in physical or emotional jeopardy, 8) ignoring the need for essential
ingformation before intervening, or 9) other behaviors deemed unsafe by the clinical
instructor.
D. A student is not guaranteed that a request to repeat a clinical nursing course will be granted.
This will depend on availability of clinical nursing practice space. First priority for repeating
will be given to students who withdrew or dropped the course. Second priority will be given
to those students who failed the course. The student must meet all new requirements in
effect upon return to clinical nursing courses.
E. Students who allow two years to elapse between enrollments in clinical nursing courses will
be subject to currency considerations. If a student is allowed to re-enter the nursing program,
he or she may be required to repeat or audit selected nursing courses at the discretion of the
Nursing Executive Committee. The student must meet all new requirements in effect upon
return to clinical nursing courses.
PROFESSIONAL APPEARANCE GUIDELINES

The purpose of these guidelines is to establish standards for CSUEB nursing students. The dress requirements are standardized to meet requirements of the institutions we use and to establish the presence of our students. Students are expected to dress in a manner that is professional in style and appropriate to a work rather than a social setting whenever they are in a clinical setting. Additionally, any agency specific guideline may supersede the CSUEB Professional Appearance Guidelines.

A. Clothing:

Standard CSUEB uniform: Students will wear a white tunic and dark grey scrub pants or skirt—tailored conventional style. A long- or short-sleeved white tee-shirt may be worn under the tunic. Only skin colored undergarments should be worn. No brightly colored undergarments that are visible thru the white tunic are allowed.

Uniforms may be purchased at any store or site that offers the approved colors. As a guideline the most commonly purchased scrub brands and color code for the appropriate shade of grey is provided below. If students are not sure, they should check with clinical faculty before the purchase. If an incorrect shade of grey pants is purchased without prior approval, students will be asked to purchase the correct shade.

<table>
<thead>
<tr>
<th>Uniform Brand</th>
<th>Color Code</th>
</tr>
</thead>
<tbody>
<tr>
<td>Cherokee</td>
<td>PWTW, PWTB</td>
</tr>
<tr>
<td>Barco</td>
<td>STEEL</td>
</tr>
</tbody>
</table>

Clothing must be clean, pressed, mended and professionally appropriate. Students may not wear suggestive attire, jean style pants, capris, shorts, leg warmers or athletic clothing. Sweaters, jackets, vests or hooded sweatshirts should not be worn while in contact with patients.

B. Exceptions to the standard CSUEB uniform policy outlined in section A.:

1) Pediatric rotation: Appropriate print scrub tops may be worn.

2) Psychiatric rotation: Colored scrub tops or business casual clothing may be worn. Denim jeans, T-shirts, shorts, sporty clothes, dressy or formal attire are not permitted.

3) Community Health rotation: Business casual clothing may be worn. Denim jeans, T-shirts, shorts, sporty clothes, dressy or formal attire are not permitted.

4) Preceptorship rotation: Scrub attire in accordance with agency dress code guidelines may be worn.
C. Footwear:

When in the CSUEB Standard Uniform shoes must be white and clean, polished if appropriate. They must provide safe and secure footing, offer protection against hazards, and be quiet for the comfort of patients (i.e., flat, closed toe and heel). Hosiery should be in accordance with agency policy.

For psychiatric and community health rotations, footwear must be flat, closed toe and heel shoes. Sandals or heels are not permitted.

D. Hygiene and Grooming:

Cleanliness is more than a matter of appearance; it is also a matter of health and safety. Students must be clean and free of offensive body odor, including the odor of tobacco.

Hands must be washed regularly.

Nails should be well-groomed and less than ¼” from the tip of the finger. Artificial nails or nail polish are not permitted.

No strong scents may be worn to clinical (i.e., lotions, hair products, fragrance, perfume, aftershave, deodorant).

No chewing gum while at the clinical agency.

E. Hair:

Hair must be clean, neat and be kept in a conservative style. Bright, artificial hair color is not permitted. For safety and hygiene, hair that is shoulder length or longer must be tied back/up. Side burns, mustaches, beards and other facial hair must be neatly trimmed, shaped and clean.

F. Jewelry/Adornment:

All jewelry worn while on duty must be safe, unobtrusive and inoffensive to patients, family, visitors, colleagues and faculty. This includes items worn in body piercings and earrings. Tattoos may need to be concealed.

G. Name Pins, IDs, and Emblem Patches:

Students are required to wear the CSUEB Nursing name pins and carry their CSUEB photo ID during all clinical rotations. When a white tunic is the required top, an arm emblem patch is also required. The emblem patch is to be sewn on the left upper sleeve of the tunic, approximately two finger widths from the top seam.

Ordering CSUEB Name Pins and Emblem Patches: The CSUEB Nursing name pins and emblem patches are available for purchase from the Pioneer Bookstore (University Bookstore).

H. Equipment:

Students will be required to have the following equipment with them during clinical rotations:
Wristwatch that counts seconds
Stethoscope with a diaphragm and a bell
Black ball point pen

Recommended equipment may include:
Clipboard
Fanny pack
Bandage scissors or hemostat

Revised 5/14
RESPONSE TO SUBSTANDARD CLINICAL BEHAVIOR PROTOCOL

The following are instructor and student responsibilities, and constitute a protocol for response to substandard behavior in the clinical area.

A. At the time of the clinical evaluation, a written evaluation will be shared with the student. An evaluation with less than satisfactory performance will be copied for the student.

B. A student's signature on the evaluation form signifies only that the student has read the document, not necessarily agreement. If the student disagrees with the evaluation, he/she may submit a statement outlining the differences clearly which will be attached to the evaluation. Students should retain a copy for their records.

C. All student evaluations and records shall be available to the student in the nursing office upon request. Students may examine these records in the office and may request copies to be made by office staff.

D. The following are critical clinical behaviors that are as egregious as to constitute grounds for possible disciplinary action. These critical behaviors, if proven, may immediately result in failure of the course.

- Purposeful falsification of a client record.
- Blatant disregard of client confidentiality.
- Denying responsibility for one’s own deviation from standard practice.
- Act or threat of intimidation, harassment, or physical aggression.
- Actions, which places the client or others in physical or emotional jeopardy.
- Abusive behavior toward clients.
- Failure to disclose actions, which places the client or others in physical or emotional jeopardy.
- Ignoring the need for essential information before intervening.

E. When a student's clinical performance represents a potential hazard to patient/client safety, the student can be dismissed from the clinical setting with no prior notice. Unsafe behavior can be defined as unprofessional*, unethical, cognitive, affective or psychomotor behaviors that are likely to or have produced harm or threat of harm to client, agency or self. As soon as possible, faculty will provide written confirmation of the incident and arrange a time to counsel the student.
F. When student performance is deficient, but not hazardous to patient safety, the student will be permitted to continue in the clinical laboratory. In this case the instructor will present the student with a written report clearly stating:

1. that the student's clinical enrollment is in jeopardy; and,
2. the specific behavior(s) jeopardizing clinical enrollment.

The instructor and the student will meet as soon as possible to review and sign the written warning. If the student refuses to sign, the instructor will document that the student has read the warning but has refused to sign. At that time, a plan to correct substandard performance will be discussed.

When student performance is deemed hazardous to patient safety, the student will not be permitted to continue in the clinical laboratory. In this case the instructor will discuss the situation with the Level Team and Level Coordinator to develop a remediation plan. If the “unsafe” behavior(s) are severe enough to warrant a possible dismissal from the program, the matter will be referred to the “Executive” Committee.

G. A student may submit a written response to the instructor's written report. Copies of this response will be available to any faculty member. As identified in the Student Handbook, the Level Coordinator is available to the student for guidance if needed.

H. Student substandard performance will be reviewed by appropriate faculty. Any situation requiring a written report will be reviewed. Results of consultation with faculty will be reflected in the evaluation and/or a letter of dismissal.

I. At any time the student thinks the protocol is not being applied, he/she is obliged to speak first with the instructor, then the Level Coordinator, and the Department Chair, if necessary. These discussions should occur at the time of the difficulty.

J. Revision of the above protocol will include student input.

* Professional behavior benchmark is that behavior described in the ANA Standards of Professional Performance (American Nurses Association, 2004)

4. General advising re: program requirements.
5. General advising re: University Policy and Procedures
SKILLS PERFORMANCE IN LEVELS I AND II CLINICAL AGENCIES POLICY

Students are expected to have been checked off on psychomotor skills in Skills Laboratory courses before performing them in clinical agencies.

A. Faculty may elect to guide a student through a skill which has not been checked off. Agency staff may NOT guide students through a skill that has not been checked off.

B. Generally, for skills that have been checked off, faculty will observe students performing them for the first time.

C. With faculty consent, agency staff may be allowed to observe the first performance of skills that have been checked off. Faculty must be consulted as these situations arise.

D. Students may OBSERVE those treatments/activities which they have yet to complete in skills lab with faculty, patient, and staff consent.

E. Failure to follow these guidelines will be considered unsafe practice and can lead to a NC grade in clinical laboratory with immediate dismissal from the course (see “Protocol: Response to Substandard Clinical Behavior” item #4).

F. This policy applies to ALL students including those who hold LVN licenses or CNA certification.

Rationale:
Completing a treatment or skill on a patient without sufficient preparation constitutes a PATIENT SAFETY ISSUE. Doing so needlessly exposes the patient to risk of injury. Such conduct also needlessly exposes the student and the nursing program to liability.

Completing a treatment or skill on a patient without sufficient preparation constitutes a BREACH OF PROFESSIONAL ETHICS in that all nurses (including students) are obliged to refuse to give care for which they are unprepared and therefore potentially unsafe.

In the context of the CSUEB Nursing Program, “sufficient preparation” is defined as the requirements for skills outlined in the Level I and II Skills Laboratory courses and syllabi (i.e., scantrons and skills demonstrations must be satisfactorily completed as required in these courses).

Reviewed 5/0
SOCIAL MEDIA POLICY

Any statements and/or photos placed on a social media site should reflect positively on oneself, fellow classmates, the University and clinical sites. Prior written consent* is required before taking or posting student photographs, faculty photographs, or College events on social media sites and the CSUEB Website. The Department of Nursing and Health Sciences adheres to the American Nurses Association (ANA) Social Media Policy. Review the following ANA Fact Sheet.

Use of personal cellular phones and other electronic devices may or may not be permitted by clinical agencies. Students are expected to adhere to clinical agency policies regarding the use of personal electronic devices. Clinical agencies may require students to sign an attestation form in support of their policies on use of electronic devices and/or social media.

The following example is how the Social Media Policy might be applied:

During a pediatrics rotation, a nursing student treated a young boy with diabetes. As the boy was getting ready to leave the hospital, the student nurse used their cell phone to take his picture and then posted it on their Facebook page, along with comments about the bravery he displayed while receiving insulin injections. A few days later, the student nurse was expelled from her nursing program for violating federal privacy laws.

Approved 11/6/2012
Navigating the World of Social Media

The number of individuals using social networking sites such as Facebook, Twitter, LinkedIn, and YouTube is growing at an astounding rate. Facebook reports that over 10% of the world’s population has a Facebook presence while Twitter manages more than 140 million Tweets daily. Nurses are making connections using social media. Recently, the College of Nurses of Ontario reported that 60% of Ontario’s nurses engage in social networking (2010).

Social networks are defined as “web-based services that allow individuals to 1) construct a public or semi-public profile within a bounded system, 2) articulate a list of other users with whom they share a connection, and 3) view and traverse their lists of connections and those made by others within the system (Boyd and Ellison, 2007).

These online networks offer opportunities for rapid knowledge exchange and dissemination among many people, although this exchange does not come without risk. Nurses and nursing students have an obligation to understand the nature, benefits, and consequences of participating in social networking of all types. Online content and behavior has the potential to either enhance or undermine not only the individual nurse’s career, but also the nursing profession.

Benefits
- Networking and nurturing relationships
- Exchange of knowledge and forum for collegial interchange
- Dissemination and discussion of nursing and health-related education, research, best practices
- Educating the public on nursing and health-related matters

Risks
- Information can take on a life of its own where inaccuracies become “fact”
- Patient privacy can be breached
- The public’s trust in nurses can be compromised
- Individual nursing careers can be undermined

ANA’s Principles for Social Networking
1. Nurses must not transmit or place online individually identifiable patient information.
2. Nurses must observe ethically prescribed professional patient — nurse boundaries.
3. Nurses should understand that patients, colleagues, institutions and employers may view postings.
4. Nurses should take advantage of privacy settings and seek to separate personal and professional information online.
5. Nurses should bring content that could harm a patient’s privacy, rights, or welfare to the attention of appropriate authorities.
6. Nurses should participate in developing institutional policies governing online conduct.

Standard Precautions

Excerpt from the "Guideline for Isolation Precautions: Preventing Transmission of Infectious Agents in Healthcare Settings" 2007. PDF (1.33MB / 219 pages)

On this page:

- Background
- Recommendations

Background

III.A. Standard Precautions combine the major features of Universal Precautions (UP) and Body Substance Isolation (BSI) and are based on the principle that all blood, body fluids, secretions, excretions except sweat, nonintact skin, and mucous membranes may contain transmissible infectious agents. Standard Precautions include a group of infection prevention practices that apply to all patients, regardless of suspected or confirmed infection status, in any setting in which healthcare is delivered. These include: hand hygiene; use of gloves, gown, mask, eye protection, or face shield, depending on the anticipated exposure; and safe injection practices. Also, equipment or items in the patient environment likely to have been contaminated with infectious body fluids must be handled in a manner to prevent transmission of infectious agents (e.g., wear gloves for direct contact, contain heavily soiled equipment, properly clean and disinfect or sterilize reusable equipment before use on another patient). The application of Standard Precautions during patient care is determined by the nature of the HCW-patient interaction and the extent of anticipated blood, body fluid, or pathogen exposure. For some interactions (e.g., performing venipuncture), only gloves may be needed; during other interactions (e.g., intubation), use of gloves, gown, and face shield or mask and goggles is necessary. Education and training on the principles and rationale for recommended practices are critical elements of Standard Precautions because they facilitate appropriate decision-making and promote adherence when HCWs are faced with new circumstances. An example of the importance of the use of Standard Precautions is intubation, especially under emergency circumstances when infectious agents may not be suspected, but later are identified (e.g., SARS-CoV, Neisseria meningitidis). Standard Precautions are also intended to protect patients by ensuring that healthcare personnel do not carry infectious agents to patients on their hands or via equipment used during patient care.

III.A.1. New Elements of Standard Precautions Infection control problems that are identified in the course of outbreak investigations often indicate the need for new recommendations or reinforcement of existing infection control recommendations to protect patients. Because such recommendations are considered a standard of care and may not be included in other guidelines, they are added here to Standard Precautions. Three such areas of practice that have been added are: Respiratory Hygiene/Cough Etiquette, safe injection practices, and use of masks for insertion of catheters or injection of material into spinal or epidural spaces via lumbar puncture procedures (e.g., myelogram, spinal or epidural anesthesia). While most elements of Standard Precautions evolved from Universal Precautions that were developed for protection of healthcare personnel, these new elements of Standard Precautions focus on protection of patients.

III.A.1.a. Respiratory Hygiene/Cough Etiquette The transmission of SARS-CoV in emergency departments by patients and their family members during the widespread SARS outbreaks in 2003 highlighted the need for vigilance and prompt implementation of infection control measures at the first point of encounter within a healthcare setting (e.g., reception and triage areas in emergency departments, outpatient clinics, and physician offices). The strategy proposed has been termed Respiratory Hygiene/Cough Etiquette and is intended to be incorporated into infection control practices as a new component of Standard Precautions. The strategy targets at patients and accompanying family members and friends with undiagnosed transmissible respiratory infections, and applies to any person with signs of illness including cough, congestion, rhinorrhea, or increased production of respiratory secretions when entering a healthcare facility. The term cough etiquette is derived from recommended source control measures for Mycobacteria tuberculosis. The elements of Respiratory Hygiene/Cough Etiquette include 1) education of healthcare facility staff,
patients, and visitors; 2) posted signs, in language(s) appropriate to the population served, with instructions to patients and accompanying family members or friends; 3) source control measures (e.g., covering the mouth/nose with a tissue when coughing and prompt disposal of used tissues, using surgical masks on the coughing person when tolerated and appropriate); 4) hand hygiene after contact with respiratory secretions; and 5) spatial separation, ideally >3 feet, of persons with respiratory infections in common waiting areas and other settings. Covering sneezes and coughs and placing masks on coughing patients are proven means of source containment that prevent infected persons from dispersing respiratory secretions into the air. Masking may be difficult in some settings, (e.g., pediatrics, in which case, the emphasis by necessity may be on cough etiquette. Physical proximity of <3 feet has been associated with an increased risk for transmission of infections via the droplet route (e.g., N. meningitidis and group A streptococcus and therefore supports the practice of distancing infected persons from others who are not infected. The effectiveness of good hygiene practices, especially hand hygiene, in preventing transmission of viruses and reducing the incidence of respiratory infections both within and outside healthcare settings is summarized in several reviews.

These measures should be effective in decreasing the risk of transmission of pathogens contained in large respiratory droplets (e.g., influenza virus, adenovirus, Bordetella pertussis and Mycoplasma pneumoniae. Although fever will be present in many respiratory infections, patients with pertussis and mild upper respiratory tract infections are often afebrile. Therefore, the absence of fever does not always exclude a respiratory infection. Patients who have asthma, allergic rhinitis, or chronic obstructive lung disease also may be coughing and sneezing. While these patients often are not infected with respiratory infections, cough etiquette is prudent.

Healthcare personnel are advised to observe Droplet Precautions (i.e., wear a mask) and hand hygiene when examining and caring for patients with signs and symptoms of a respiratory infection. Healthcare personnel who have a respiratory infection are advised to avoid direct patient contact, especially with high risk patients. If this is not possible, then a mask should be worn while providing patient care.

**Recommendations**

**IV. Standard Precautions**

Assume that every person is potentially infected or colonized with an organism that could be transmitted in the healthcare setting and apply the following infection control practices during the delivery of healthcare.

**IV.A. Hand Hygiene**

**IV.A.1.** During the delivery of healthcare, avoid unnecessary touching of surfaces in close proximity to the patient to prevent both contamination of clean hands from environmental surfaces and transmission of pathogens from contaminated hands to surfaces.

**IV.A.2.** When hands are visibly dirty, contaminated with proteinaceous material, or visibly soiled with blood or body fluids, wash hands with either a nonantimicrobial soap and water or an antimicrobial soap and water.

**IV.A.3.** If hands are not visibly soiled, or after removing visible material with nonantimicrobial soap and water, decontaminate hands in the clinical situations described in IV.A.2.a-f. The preferred method of hand decontamination is with an alcohol-based hand rub. Alternatively, hands may be washed with an antimicrobial soap and water. Frequent use of alcohol-based hand rub immediately following handwashing with nonantimicrobial soap may increase the frequency of dermatitis.

Perform hand hygiene:

**IV.A.3.a.** Before having direct contact with patients.

**IV.A.3.b.** After contact with blood, body fluids or excretions, mucous membranes, nonintact skin, or wound dressings.

**IV.A.3.c.** After contact with a patient's intact skin (e.g., when taking a pulse or blood pressure or lifting a patient).

**IV.A.3.d.** If hands will be moving from a contaminated-body site to a clean-body site during patient care.

**IV.A.3.e.** After contact with inanimate objects (including medical equipment) in the immediate vicinity of the patient.

**IV.A.3.f.** After removing gloves.

**IV.A.4.** Wash hands with non-antimicrobial soap and water or with antimicrobial soap and water if contact with spores (e.g., C. difficile or Bacillus anthracis) is likely to have occurred. The physical action of washing and rinsing hands under such circumstances is recommended because alcohol-based agents have poor activity against spores.

**IV.A.5.** Do not wear artificial fingernails or extenders if duties include direct contact with patients at high risk for infection and associated adverse outcomes (e.g., those in ICUs or operating rooms).

**IV.A.5.a.** Develop an organizational policy on the wearing of non-natural nails by healthcare personnel who have direct contact with patients outside of the groups specified above.
IV.B. Personal protective equipment (PPE) (see Figure)

IV.B.1. Observe the following principles of use:

IV.B.1.a. Wear PPE, as described in IV.B.2-4, when the nature of the anticipated patient interaction indicates that contact with blood or body fluids may occur.

IV.B.1.b. Prevent contamination of clothing and skin during the process of removing PPE.

IV.B.1.c. Before leaving the patient's room or cubicle, remove and discard PPE.

IV.B.2. Gloves

IV.B.2.a. Wear gloves when it can be reasonably anticipated that contact with blood or other potentially infectious materials, mucous membranes, nonintact skin, or potentially contaminated intact skin (e.g., of a patient incontinent of stool or urine) could occur.

IV.B.2.b. Wear gloves with fit and durability appropriate to the task.

IV.B.2.b.i. Wear disposable medical examination gloves for providing direct patient care.

IV.B.2.b.ii. Wear disposable medical examination gloves or reusable utility gloves for cleaning the environment or medical equipment.

IV.B.2.c. Remove gloves after contact with a patient and/or the surrounding environment (including medical equipment) using proper technique to prevent hand contamination. Do not wear the same pair of gloves for the care of more than one patient. Do not wash gloves for the purpose of reuse since this practice has been associated with transmission of pathogens.

IV.B.2.d. Change gloves during patient care if the hands will move from a contaminated body-site (e.g., perineal area) to a clean body-site (e.g., face).

IV.B.3. Gowns

IV.B.3.a. Wear a gown that is appropriate to the task, to protect skin and prevent soiling or contamination of clothing during procedures and patient-care activities when contact with blood, body fluids, secretions, or excretions is anticipated.

IV.B.3.a.i. Wear a gown for direct patient contact if the patient has uncontained secretions or excretions.

IV.B.3.a.ii. Remove gown and perform hand hygiene before leaving the patient’s environment.

IV.B.3.b. Do not reuse gowns, even for repeated contacts with the same patient.

IV.B.3.c. Routine donning of gowns upon entrance into a high risk unit (e.g., ICU, NICU, HICST unit) is not indicated.

IV.B.4. Mouth, nose, eye protection

IV.B.4.a. Use PPE to protect the mucous membranes of the eyes, nose and mouth during procedures and patient-care activities that are likely to generate splashes or sprays of blood, body fluids, secretions and excretions. Select masks, goggles, face shields, and combinations of each according to the need anticipated by the task performed.

IV.B.5. During aerosol-generating procedures (e.g., bronchoscopy, suctioning of the respiratory tract [if not using in-line suction catheters], endotracheal intubation) in patients who are not suspected of being infected with an agent for which respiratory protection is otherwise recommended (e.g., M. tuberculosis, SARS or hemorrhagic fever viruses), wear one of the following: a face shield that fully covers the front and sides of the face, a mask with attached shield, or a mask and goggles (in addition to gloves and gown).

IV.C. Respiratory Hygiene/Cough Etiquette

IV.C.1. Educate healthcare personnel on the importance of source control measures to contain respiratory secretions to prevent droplet and fomite transmission of respiratory pathogens, especially during seasonal outbreaks of viral respiratory tract infections (e.g., influenza, RSV, adenovirus, parainfluenza virus) in communities.

IV.C.2. Implement the following measures to contain respiratory secretions in patients and accompanying individuals who have signs and symptoms of a respiratory infection, beginning at the point of initial encounter in a healthcare setting (e.g., triage, reception and waiting areas in emergency departments, outpatient clinics and physician offices).

IV.C.2.a. Post signs at entrances and in strategic places (e.g., elevators, cafeterias) within ambulatory and inpatient settings with instructions to patients and other persons with symptoms of a respiratory infection to cover their mouths/noses when coughing or sneezing, use and dispose of tissues, and perform hand hygiene after hands have been in contact with respiratory secretions.

IV.C.2.b. Provide tissues and no-touch receptacles (e.g., foot-pedal operated lid or open, plastic-lined waste basket) for disposal of tissues.

IV.C.2.c. Provide resources and instructions for performing hand hygiene in or near waiting
areas in ambulatory and inpatient settings; provide conveniently-located dispensers of alcohol-based hand rubs and, where sinks are available, supplies for handwashing.

IV.C.2.d. During periods of increased prevalence of respiratory infections in the community (e.g., as indicated by increased school absenteeism, increased number of patients seeking care for a respiratory infection), offer masks to coughing patients and other symptomatic persons (e.g., persons who accompany ill patients) upon entry into the facility or medical office and encourage them to maintain special separation, ideally a distance of at least 3 feet, from others in common waiting areas.

IV.C.2.d.i. Some facilities may find it logistically easier to institute this recommendation year-round as a standard of practice.

IV.D. Patient placement

IV.D.1. Include the potential for transmission of infectious agents in patient placement decisions. Place patients who pose a risk for transmission to others (e.g., uncontained secretions, excretions or wound drainage; infants with suspected viral respiratory or gastrointestinal infections) in a single-patient room when available.

IV.D.2. Determine patient placement based on the following principles:
- Route(s) of transmission of the known or suspected infectious agent
- Risk factors for transmission in the infected patient
- Risk factors for adverse outcomes resulting from an HAI in other patients in the area or room being considered for patient placement
- Availability of single-patient rooms
- Patient options for room-sharing (e.g., cohorting patients with the same infection)

IV.E. Patient-care equipment and instruments/devices

IV.E.1. Establish policies and procedures for containing, transporting, and handling patient-care equipment and instruments/devices that may be contaminated with blood or body fluids.

IV.E.2. Remove organic material from critical and semi-critical instrument/devices, using recommended cleaning agents before high level disinfection and sterilization to enable effective disinfection and sterilization processes.

IV.E.3. Wear PPE (e.g., gloves, gown), according to the level of anticipated contamination, when handling patient-care equipment and instruments/devices that is visibly soiled or may have been in contact with blood or body fluids.

IV.F. Care of the environment

IV.F.1. Establish policies and procedures for routine and targeted cleaning of environmental surfaces as indicated by the level of patient contact and degree of soiling.

IV.F.2. Clean and disinfect surfaces that are likely to be contaminated with pathogens, including those that are in close proximity to the patient (e.g., bed rails, over bed tables) and frequently-touched surfaces in the patient care environment (e.g., door knobs, surfaces in and surrounding toilets in patients' rooms) on a more frequent schedule compared to that for other surfaces (e.g., horizontal surfaces in waiting rooms).

IV.F.3. Use EPA-registered disinfectants that have microbiocidal (i.e., killing) activity against the pathogens most likely to contaminate the patient-care environment. Use in accordance with manufacturer's instructions.

IV.F.3.a. Review the efficacy of in-use disinfectants when evidence of continuing transmission of an infectious agent (e.g., rotavirus, C. difficile, norovirus) may indicate resistance to the in-use product and change to a more effective disinfectant as indicated.

IV.F.4. In facilities that provide health care to pediatric patients or have waiting areas with child play toys (e.g., obstetric/gynecology offices and clinics), establish policies and procedures for cleaning and disinfecting toys at regular intervals. Category IA

- Use the following principles in developing this policy and procedures:
- Select play toys that can be easily cleaned and disinfected
- Do not permit use of stuffed furry toys if they will be shared
- Clean and disinfect large stationary toys (e.g., climbing equipment) at least weekly and whenever visibly soiled
- If toys are likely to be mouthed, rinse with water after disinfection; alternatively wash in a dishwasher
- When a toy requires cleaning and disinfection, do so immediately or store in a designated labeled container separate from toys that are clean and ready for use.

IV.F.5. Include multi-use electronic equipment in policies and procedures for preventing contamination and for cleaning and disinfection, especially those items that are used by patients, those used during delivery of patient care, and mobile devices that are moved in and out of patient
rooms frequently (e.g., daily).

IV.F.5.a. No recommendation for use of removable protective covers or washable keyboards.

Unresolved Issue

IV.G. Textiles and laundry

IV.G.1. Handle used textiles and fabrics with minimum agitation to avoid contamination of air, surfaces and persons.

IV.G.2. If laundry chutes are used, ensure that they are properly designed, maintained, and used in a manner to minimize dispersion of aerosols from contaminated laundry.

IV.H. Safe injection practices

The following recommendations apply to the use of needles, cannulas that replace needles, and, where applicable intravenous delivery systems.

IV.H.1. Use aseptic technique to avoid contamination of sterile injection equipment.

IV.H.2. Do not administer medications from a syringe to multiple patients, even if the needle or cannula on the syringe is changed. Needles, cannulas and syringes are sterile, single-use items; they should not be reused for another patient nor to access a medication or solution that might be used for a subsequent patient.

IV.H.3. Use fluid infusion and administration sets (i.e., intravenous bags, tubing and connectors) for one patient only and dispose appropriately after use. Consider a syringe or needle/cannula contaminated once it has been used to enter or connect to a patient's intravenous infusion bag or administration set.

IV.H.4. Use single-dose vials for parenteral medications whenever possible.

IV.H.5. Do not administer medications from single-dose vials or ampules to multiple patients or combine leftover contents for later use.

IV.H.6. If multidose vials must be used, both the needle or cannula and syringe used to access the multidose vial must be sterile.

IV.H.7. Do not keep multidose vials in the immediate patient treatment area and store in accordance with the manufacturer's recommendations; discard if sterility is compromised or questionable.

IV.H.8. Do not use bags or bottles of intravenous solution as a common source of supply for multiple patients.

IV.I. Infection control practices for special lumbar puncture procedures. Wear a surgical mask when placing a catheter or injecting material into the spinal canal or subdural space (i.e., during myelograms, lumbar puncture and spinal or epidural anesthesia).

IV.J. Worker safety. Adhere to federal and state requirements for protection of healthcare personnel from exposure to bloodborne pathogens.

STEPS TO FOLLOW AFTER EXPOSURE TO BLOODBORNE PATHOGENS

. For laceration or puncture, encourage bleeding

1) Wash the exposed area immediately!

2) For eyes, nose, mouth: flush with saline for 5 – 10 minutes.

3) Report the incident immediately to faculty appropriate personnel within the agency, and consult a doctor.

4) Complete an injury report for agency and CSUEB.

5) Seek appropriate evaluation and follow-up. This includes the following:
   a) Identification and documentation of the source individual when feasible and legal
   b) Testing of the source individual’s blood when feasible and consent is given.
   c) Making results of the test available to the person(s) health care provider.
   d) Collection and testing of blood of exposed health care provider (with consent).
   e) Post-exposure prophylaxis, if medically indicated (e.g., hepatitis B vaccine for HBV, or zidovudine--or recommended--for HIV).
   f) Medical counseling regarding personal risk of infection or risk of infecting others.

Reviewed 5/14
CSUEB STUDENT E-MAIL POLICY

Use of E-mail for Official Correspondence with Students

1. University use of e-mail
   E-mail is considered an official method for communication at Cal State East Bay because it delivers information in a convenient, timely, cost effective, and environmentally aware manner. For the majority of the student population, this Student E-mail Policy does not represent a change from current practice. However, the policy does ensure that all students have access to this important form of communication. Furthermore, it ensures that students can be accessed through a standardized channel by faculty and other staff of the University as needed.

2. Assignment of student e-mail accounts
   Official University e-mail accounts are available for all applicants and will be automatically assigned to all enrolled students. The addresses are all of the form [Name]@horizon.csueastbay.edu. These accounts must be activated before the University can correspond with its students using the official e-mail accounts. The website horizon.csuhayward.edu has been designed for this purpose. The official e-mail address will be maintained in SAIL (the university’s student information system). Official e-mail addresses will be directory information unless the students request otherwise (see the University catalog for more information).

3. Redirecting e-mail
   Students may elect to redirect (auto forward) messages sent to their Horizon official student e-mail address. Students who redirect e-mail from their official address to another address (such as AOL, Yahoo, Hotmail) do so at their own risk. Having e-mail lost as a result of redirection does not absolve a student from the responsibilities associated with communication sent to his or her official e-mail address. The University is not responsible for the handling of e-mail by outside vendors or unofficial servers. Privacy of confidential information may be compromised by redirecting the Horizon account (see sections below on Authentication for confidential information and Privacy).

4. Expectations about student use of e-mail
   The University will send communications to students via their official Horizon e-mail account. Students are responsible for the consequences of not reading in a timely fashion University-related communications sent to their official Horizon student e-mail account. Students are expected to check their e-mail on a frequent and consistent basis in order to stay current with University-related communications. Students have the responsibility to recognize that certain communications may be time-critical. "I didn't check my e-mail" or e-mail returned to the University with "Mailbox Full" or "User Unknown" are not acceptable excuses for missing official University communications delivered via e-mail.

   The University recommends checking Horizon e-mail daily, but at a minimum of twice per week.

   Note: Accessibility Services is available to provide email access accommodations on an as needed basis for students with disabilities.

5. Horizon mass e-mail
   The Horizon mass e-mail feature is reserved for emergencies, and for other communications that have a legitimate educational need for direct communication, and without such direct communication would put students at a disadvantage, and/or hinder their academic success and progress.
Requests for Horizon mass e-mail to students should be directed to the Executive Director of Enrollment Services for approval. When necessary, the Assistant Vice President of Enrollment Services can convene an ad hoc appeals committee to resolve a dispute over appropriate use of Horizon mass e-mail. An appeals committee will typically include one student member of University Information Technology (UIT) Advisory Committee, one dean, one Student Affairs representative, and the Associate Vice President of Information Technology.

6. Authentication for confidential information

The University does not send, or request, confidential information via e-mail. Confidential information is made available only through MYCSUEB which is password protected. In these cases, students will receive e-mail directing them to MYCSUEB, where they can access the confidential information only by logging in as required. The confidential information will not be included within the e-mail message itself.

Mail sent to the Horizon e-mail addresses may include notification of University-related actions, including disciplinary actions. However, e-mail shall not be the sole method for notification of legal actions.

7. Privacy

Users should exercise extreme caution in using e-mail to communicate confidential or sensitive matters, and should not assume that e-mail is private and confidential. It is especially important that users are careful to send messages only to the intended recipient(s). Particular care should be taken when using the "reply all" command during e-mail correspondence.

All use of e-mail will be consistent with other University policies, and local, state, and federal law, including the Family Educational Rights and Privacy Act of 1974 (FERPA).

E-mail addresses are directory information as defined by the University’s unless a request is made to withhold it (http://www.calstate.edu/EO/EO-1027.html)

8. Educational uses of e-mail

Faculty will determine how electronic forms of communication (e.g., e-mail) will be used in their classes, and will specify their requirements in the course syllabus. This Student E-mail Policy will ensure that all students will be able to comply with e-mail-based course requirements specified by faculty. Faculty can therefore make the assumption that students' official @horizon.csuhayward.edu accounts are being accessed, and faculty can use e-mail for their classes accordingly.

This type of e-mail service allows the student to conduct collaborative work efforts and share information with students, professors, and other individuals regardless of time and/or geographic boundaries. Because of this open freedom, and the possibility of conversing with individuals that the student may have never met, students should conduct themselves in an appropriate manner during their communications.

Students should remember that every e-mail message sent from their Horizon accounts carries Cal State East Bay’s name, and all communications should reflect that.

The following Web sites contain more information about University policy:
Nondiscrimination/Harassment Policies and Procedures

STUDENT INJURY POLICY

If a student is injured in the clinical setting and needs medical attention, the student must have medical insurance to cover the cost or pay cash.

A Student Non-Employee Accident/Injury Report Form (next page) must be completed by the student and the clinical faculty person.

Report the accident/Injury to your Dept. Chair within 8 (eight) hours.

Copies of the Accident/Injury Report should be distributed to Dept. office and Risk Management (SA RM4700) within 24 hours of date of Accident/Injury.

This form is placed in the student's department file.

The student is not covered by Workman's Compensation because she/he is not an employee. DO NOT FILE WORKMAN'S COMPENSATION FORMS.
# Student Non Employee Accident / Injury Report

**INSTRUCTIONS:**
Report your accident/injury to your Dept. Chair within 8 (eight) hours. Copies of the Accident/Injury Report should be distributed to Dept. office and Risk Management (SA RM470D) within 24 hours of date of Accident/Injury.

## I. STUDENT ACCIDENT/INJURY
Name: ___________________________ Student ID #: ___________________________
Home Address: ___________________________  
Number & Street: ___________________________ City: ___________________________ State: ___________________________ Zip: ___________________________
Phone: ___________________________ Email: ___________________________
Instructors’ Name: ___________________________ Phone: ___________________________  
(If applicable)
Date and Time of Injury / Illness: ___________________________ Did injury/illness result in medical treatment? Yes No
Initial treatment location: ___________________________ Phone: ___________________________
Were you working as a student intern? No Yes  
If yes complete section II

## II. STUDENT INTERN ACCIDENT/INJURY — Only complete this section if you are a student intern
Course: ___________________________ Internship Department: ___________________________
Supervisors’ Name at worksite location: ___________________________ Phone: ___________________________
Worlsite contact person: ___________________________ Phone: ___________________________

## III. FACTS RELATED TO ACCIDENT/INJURY
Location of Accident/Injury: ___________________________  
Address & Building: ___________________________ Room Number: ___________________________ City: ___________________________
Accident/injury reported to ___________________________ Date & Time Accident Reported: ___________________________
Part(s) of the Body Injured/Affected: (e.g. left wrist strain): ___________________________
Nature of Injury/Illness: ___________________________
Name of Witness: ___________________________ Phone: ___________________________
Name of Witness: ___________________________ Phone: ___________________________
Describe how the accident/injury occurred (If more space is needed, please attach paper)
__________________________________________________
__________________________________________________
__________________________________________________
What action was taken? (i.e., contacted Dept. Office, college Office, called 911, etc.): ___________________________
__________________________________________________
Corrective action taken, if applicable: ___________________________
__________________________________________________

Instructor Signature ___________________________ Date ________________
(If applicable)
Students Signature ___________________________ Date ________________

Note: If you are a student employee do not complete this form. Complete the Workers’ Compensation Employee Injury/Illness form located on the Risk Management website.
BACKGROUND: The faculty have developed a program to identify students at risk of failing nursing theory courses. The program provides guidance to assist students in identifying the nature of their academic problem(s). The students and their advisor then develop an appropriate plan for correction of these identified problems.

STUDENTS AT RISK FOR FAILURE: The majority of student attrition results from failure in nursing theory courses. Those students identified as being at risk of failing are as follows:

1. Students who have failed a previous nursing course.
2. Students who have received a 70% or lower on their first examination in a nursing theory course.
3. Students who fail Clinical Pathophysiology.

RETENTION ADVISING: Nursing Program Faculty provide advising for the student at risk. Faculty from each level serve as Retention Advisor for their respective courses. The purpose of retention advising is to:

1. Identify and contact students at risk of failing.
2. Help students to identify the problems hindering their success in the nursing major.
3. Encourage and develop student responsibility for problem solving.
4. Help students to develop a plan to correct the identified learning needs.
5. Provide assistance and guidance as needed to carry out the remedial plan.
6. Monitor subsequent behavior and academic success, as needed.

ADVISING ASSISTANCE: While it is the advisor who guides the analysis of the students at risk's academic problems, the student is expected to take significant responsibility for the identification of the problems and planning for their amelioration. Steps in the advising process are as follows:

A. Problem identification begins with test analysis. During this process, students review their exams with the advisor and each incorrect item is identified by them. The student is asked to categorize in writing each incorrect item according to the cause of the error using the following categories:

1. Insufficient knowledge due to lack of thorough preparation.
2. Lack of understanding of the content.
3. Inability to apply knowledge to a clinical vignette.
4. Failed to understand the question by virtue of language problems.
5. Misread the question.
7. Unknown.
8. Other (as specified by the student).

B. Secondary Analysis: The student then tabulates his/her errors and looks for content areas and
types of questions which constitute specific or consistent problems for him/her. Possible
causes for each problem must then be identified by the student. For example, if most items
are missed because of insufficient study then the student, with the help of the advisor, will
explore this area for the reason(s) or cause(s) for the student's insufficient study.

C. Amelioration Plan: Each student's corrective plan will vary according to student need. Here
are some common problems presented by students:

1) Some students report that they are easily distracted.
2) Other students may seek advising because they need more time to complete an exam.
3) The student may be studying in an inappropriate setting. For example, the student may benefit from studying on campus rather than at home.
4) A student may be primarily an auditory learner and might benefit from taping lectures or taping readings and then re-hearing them.
5) Some students report trouble retaining the implications of information. In some cases, recording potential examination questions while studying allows review before an upcoming exam.

D. Non-academic stressors often impede achievement and must also be assessed. A grade of "Incomplete" may be considered if a student needs more time to successfully complete a theory course in which successful passage has been jeopardized due to temporary, non-academic stressors.
STUDENTS IMPAIED BY SUBSTANCE ABUSE
AND/OR EMOTIONAL ILLNESS POLICY

In the matter of nursing students under the influence of or impaired by the use of alcohol or drugs while at school and/or impaired by emotional illness while at school, the CSUEB Nursing Program recognizes that:

a) these are illnesses and should be treated as such;
b) that these illnesses can affect academic and clinical performance and that nursing students impaired by such illnesses while at school gravely endanger the health and safety of themselves and the patients in their care.
c) that nursing students who have or develop these illnesses can be helped to recover;
d) that it is the responsibility of the nursing student to voluntarily seek diagnosis and treatment for any suspected illness;
e) that confidential handling by the faculty of the diagnosis and treatment of these illnesses is essential.

Instructors are responsible for and have the authority to take immediate action with regard to an impaired student's conduct and performance in the clinical setting, as set forth below. At CSUEB, Counseling and Psychological Services offer assistance with alcohol and substance abuse problems (885-3690). The faculty emphasizes the importance of seeking voluntary aid for conditions that could, if left untreated, lead to disciplinary action and might prevent the person from being licensed to practice nursing in the State of California.

Procedure:

a) The instructor submits a written report to the Chair as soon as a student is suspected of current substance abuse at school or that impairs performance while at school or is suspected of a mental illness, which is impairing performance.
b) The Department Chair notifies the student that she/he is suspended from all clinical nursing classes pending investigation to protect the health and safety of the student in question and the patients in that student’s care.
c) The Chair notifies both the Executive Director of Judicial Affairs and the Director of Equal Employment Opportunity of the problem.
d) The allegations of impairing substance abuse/mental illness and any conduct or performance problems are promptly investigated.
e) The student is required to cooperate and participate in the investigation.
f) If the investigation reveals that the impairing substance abuse/mental illness allegations are unfounded, appropriate corrective action will take place for performance or conduct issues, if any, and the student will be reinstated assuming any substantiated conduct or performance issues do not warrant expulsion.
g) If the investigation reveals that the impairing substance abuse/mental illness allegations are true, appropriate corrective action will take place for performance or conduct issues, if any, and the student will be reinstated assuming any substantiated conduct or performance issues do not warrant expulsion, and the student provides a written certification to the Department Chair from an official of a rehabilitation program or licensed specialist in mental health verifying that the student is/was treated and is now not a danger to herself or patients.
h) The final decision concerning reinstatement rests with the Executive Committee of the Department.

These categories overlap, and unit totals will not add up to 180.
LEVEL I
GENERAL INFORMATION: LEVEL I

I. Theory and Lab courses.

A. Nursing 2020, Nursing 2021, Nursing 2022: Intro to Contemporary Nursing, Nursing Support of Community Based Clients, Level I Skills I.

The first theory courses in the major are Nursing 2020/1. All the basic social/behavioral frameworks used by nurses are introduced in this lecture course. Nursing Support of Community-Based Clients consists of field work such as health promotion with a well elders. Students also meet in small groups to be coached and learn how to apply theories to nursing practice with well people. Finally, Level I Skills I is a laboratory course in which basic techniques of nursing practice are taught. These courses will lay a foundation of concepts and skills necessary to planning and delivering patient care.

B. Nursing 2030, Nursing 2031, Nursing 2032: Nursing Care of Adults I, and Practicum, Basic Physical Assessment.

Nursing care delivery for patients and families experiencing mild to moderate alteration in health/function. Concepts and principles necessary to anticipate, identify, and meet universal biopsychosocial adaptation needs for nursing in healthcare context. Physical Assessment skills are taught in the laboratory.

C. Nursing 2040, Nursing 2041, Nursing 2042: Care of Adults II/Practice, Level I Skills Lab II.

Care of Adults II is a Continuation of Care of Adults I. Nursing care to support patients and families experiencing mild to moderate alteration in health/function. Theories and principles necessary to anticipate, identify, meet biopsychological needs in selected pathophysiologic states. The courses are theory/lecture, clinical practice, and skills laboratory formats.

III. Evaluation.

Theory course evaluations consist of multiple choice examinations and written papers. Clinical practice courses are evaluated according to specific behavioral objectives. The clinical instructor at the end of each rotation has a conference with the student and together they complete a written evaluation. Skills lab course grades are determined by multiple choice tests and skills performance scores.

IV. Other nursing courses taken during Level I.

Nursing 2005, Clinical Pathophysiology (offered Fall Quarter).
This course focuses on human pathophysiology, its etiology, diagnosis, and the physiologic
rationale for treatment of multiple system disease, entities, and/or failures.
Nursing 2010, Principles of Nutrition and Medical Nutrition Therapy (offered Fall quarter). This course focuses on nutrients and their sources as well as diseases/disorders caused by excess or lack of given nutrients. Nutritional needs discussed as they vary across the life span.

Nursing 2015, Pharmacology (offered Winter Quarter). This course provides an understanding of the pharmacological basis of nursing practice. Students learn: 1) concepts of pharmacology that guide all drug use; 2) the major classes of drugs, with emphasis on mechanisms of action; and 3) patient care implications based on an understanding of the pharmacological aspects of specific drugs.

History 4710, History and Trends of Nursing (offered Spring and Summer Quarter to Level I students). This course is taught through the History Department, School of Arts, Letters & Social Sciences. This course is an introduction to both the history of nursing and its current applications and trends. A general picture of nursing’s past, present, and future are presented. Nursing is viewed in contrast with other health professions.

Considered are the changing roles of the nurse along with expectations of ethical behavior. Included are problems of confidentiality, relationships, and the nurses’ code of conduct. Also presented are the importance of the historical aspects of ethics and professionalism.
### COURSE PROGRESSION: SUGGESTED PROGRAM GUIDE

#### Level I: Wellness—Adaptation

**FALL**
- **Nurs. 2020** Intro to Contemporary Nursing Lecture
- **Nurs. 2021** Nursing Support of Community-Based Clients—6 hrs./week on campus/field assignments. No uniforms required because no hospital or agency experience.
- **Nurs 2022** Level I Skills Lab I
- **Nurs 2005** Clinical Pathophysiology--prerequisite to Level II Nursing courses
- **Nurs 2010** Principles of Nutrition and Medical Nutrition Therapy

**Support Courses**
- HDev. 3800 may be taken if students have already taken NURS 2005 or NURS 2010.
- **Psych.1000 must be completed before Winter. Soc 1000 or Anthro 1000 must be completed before Spring.**

#### WINTER
- **Nurs. 2030** Nursing Care of Adults I
- **Nurs. 2031** Care of Adults I Practicum—60 hrs practice in SNF (need uniform).
- **Nurs. 2032** Basic Physical Assessment
- **Nurs 2015** Pharmacology

#### SPRING
- **Nurs. 2040** Care of Adults II
- **Nurs. 2041** Care of Adults II Practicum—90 hours practice in Acute Care (need uniform).
- **Nurs 2042** Level I Skills Lab II

**Support Courses***
- Hist 4710, History & Trends in Nursing
- HDEV 3800, Human Development

*These courses are strongly recommended to be taken during indicated quarters unless previously completed. Many are pre-requisite to subsequent Nursing courses.

HDEV 3800, NURS 2005, NURS 2010 and NURS 2015 are prerequisites to Level II. The department will monitor all students to determine if course grades are C or better.
GENERAL INFORMATION: LEVEL II

I. All students must present to the department office (prior to the Fall Quarter); 1) A copy of their current malpractice and health care insurance coverage; and 2) A Level II Health Screen.

II. Nursing Courses:
   A. Core Theory:
      NURS 3201—Patients and Families with Complex Needs. 
      Concepts and Principles from nursing and behavioral sciences applied to care of acutely ill patients and their families. Concepts and theories addressed include role, adaptation, communication, teaching/learning, systems and research. Prerequisites: NURS 2040, 2041, and 2042; HDEV 3800 or PSYC 4420; department permission.

   B. Nursing Principles & Practicum:
      There are six clinical rotations organized into 5-week blocks over the course of three quarters. Each student must successfully complete all six rotations before advancing to Level III.
      Nursing Care of adults III (N3402/03); Care of Childbearing Families (N3404/05); Care of Clients with Psych/Mental Health Need (N3406/07); Nursing Care of Childrearing Families(N3408/09); Nursing Care of Adults IV (N3410/11); Nursing Care of Elder Adults ( N3412/13). PREREQS: N2005, 2010, 2015, 2040, 2041, 2042, 3201(may be concurrent with N3201).
      The clinical practicum and the corresponding theory course must be taken concurrently.
      Hospital facilities used may include the following:
      Alta Bates Hospital, Berkeley
      Childrens’ Hospital, Oakland--Main campus
      Contra Costa Regional Medical Center, Martinez
      Eden Hospital, Castro Valley
      Fremont Hospital, Fremont
      Herrick Hospital, Berkeley
      John Muir Health, Concord and Walnut Creek Campuses
      San Ramon Medical Center, San Ramon
      Clinical objectives are found in the clinical syllabi for each specialty area.
      Equipment and uniforms:
      Full uniform is expected of each student. (See “Guidelines for Professional Appearance”) Each agency has slightly varying regulations; e.g., color of hosiery, which do not substantially alter the need for full uniform. Helpful items are: stethoscope, small notebook for pocket, and pen with black ink.
      If you visit an agency at other than assigned clinical times, you must be dressed in clean, neat, conservative clothing. A white lab jacket is to be worn and your CSUEB name pin must be affixed. Professional decorum is expected.
C. Level 2 Skills I, II & III: (NURS 3001/02/03)
   The student is required to sign up in the Skills Lab in order to be checked off on the
   assigned motor performance skills. All skills must be completed by the end of the eighth
   week of each quarter.

D. Other nursing courses

   Legal Responsibilities of Health Care Providers --NURS 3401:
   This course is designed to acquaint the student with major legal concerns within the
   nursing profession today and with her/his rights and duties as a nurse. The course is also
   intended to serve as a catalyst for continuing examination of her/his legal status in this
   changing world.

   Topics highlighted in the course include standards of care, legal significance of expanded
   roles, nursing negligence, the nurse's role in deposition and trial, rights and obligations as
   an employee, patient rights, responsibilities towards the public at large, ethical dilemmas
   in nursing today, and legal issues of tomorrow's nurse.

   The student is expected to demonstrate knowledge of the impact law has on her/his role
   and responsibilities as a nurse and on the nursing profession. Demonstration will be
   through a midterm, one paper, and a final examination.

   Nursing Leadership--(NURS 3202):
   This course focuses on health policy, finances, organizational management strategies, and
   leadership. It builds on prior content of systems, leadership, change and research.

   PRE REQS: NURS 3001, 02, 3201, 3401 (maybe taken concurrent with N3402-3413)
   Dept. permission.

   Continuum of Care (NURS 3502):
   Models of nursing case management. Facilitation of safe, efficient transitions across the
   continuum of care. Consideration of constraints imposed by healthcare payors. Nursing
   interventions of anticipation, planning, teaching and advocacy. Prerequisites: Department

E. Elective course

   Current Issues in Professional Nursing – NURS 3200:
   Discussion and presentation of a variety of current issues in nursing may include:
   violence in the workplace, international opportunities in research and service, current
   research projects, strategies for job search. May be taken up to four times. 
   Prerequisites: Prerequisite: Completion of Level 1 Nursing curriculum. Co-requisite:
   Concurrently registered as a Level II, III or RN-BSN student in the CSUEB Nursing
   Program. May be repeated three times for credit for a maximum of 4 units.CR/NC
   grading only
Course Progression: Suggested Program Guide

Level II: Less Wellness--Illness

FALL:

NURS 3201 Patients and Families with Complex Needs
2 Clin specialty theories & practicums
Total 15 hrs/week (12 hrs. clinical, 3 hrs. Lab)

NURS 3001

WINTER:

2 Clinical specialty theories
and practica
NURS 3002
NURS 3401
Legal Responsibilities of Health Care Providers (offered in Winter only).

NURS 3502
Continuum of Care (offered in Winter only)

SPRING:

2 Clinical specialty theory and practica)
NURS 3003
Leadership

NURS 3202
As you know, the facilities in which you practice as students require that we periodically monitor your health status. In order to comply with this, we must have current health documentation on file before you will be given permission to register for Level II courses (generally the first week of August).

At this point in the program, most students will need to: 1) submit proof of annual TB clearance; 2) submit post Hep B vaccine series titer proving immunity; 3) submit renewal health insurance; and, 4) submit proof of Tdap immunization, 5) submit proof of Flu Vaccination and 6) Submit proof of HealthStream renewal in Winter.
LEVEL III
GENERAL INFORMATION: Level III

Research Synthesis--NURS 4203

This course focuses on reading/critiquing nursing research for application to practice. Learning activities pertain to practice and/or policy recommendations based on nursing research findings.

Community Health--NURS 4207-4208:

Students complete an application for Community Health during Level II.

A. Principles of Community Health Nursing--NURS 4207:

The theory course focuses on areas needed to augment clinical practice such as: cultural aspects of family centered care, epidemiology, local, state and national resources, violence in the family, PHN role, substance abuse, communicable disease, environmental health, and disaster management.

Various in class and online activities are required.

B. Practicum of Community Health Nursing--NURS 4208:

Students are assigned in clinical groups to a specific clinical agency, just as on Level II. The clinical groups meet two days a week. Students need a car or other means of transportation to visit the homes of assigned clients.

Clinical evaluation is credit/no credit. Expected clinical behaviors are identified in a written clinical evaluation in the syllabus.

Dress: Conservative street clothes.
Preceptorship--NURS 4301 and 4302:

The Preceptorship is an intensive clinical experience that integrates nursing knowledge gained in all previous coursework. It assists students in making the transition from the academic to the professional work world.

Students attend a weekly two-hour seminar on campus (NURS 4301). Students participate in class activities designed to assess clinical competence and prepare for the NCLEX-RN Licensing Examination.

In the practicum course (NURS 4302), 240 hours (two 12-hour shifts or three 8-hour shifts per week over a ten week quarter) are spent in a clinical setting with a Preceptor (staff RN) selected by the clinical agency. A faculty liaison meets regularly with the student and Preceptor at the clinical facility.

Students are advised not to take other classes concurrently with Preceptorship. Many agencies have rotating shifts which make it difficult to schedule other classes. A reduction in employment responsibilities is also advised.

Details of the preceptorship application procedure and clinical placement are distributed to students during Level II.

ELECTIVE COURSE:
Current Issues in Professional Nursing – NURS 3200:
Discussion and presentation of a variety of current issues in nursing may include: violence in the workplace, international opportunities in research and service, current research projects, strategies for job search.

Prerequisites: Prerequisite: Completion of Level 1 Nursing curriculum. Co-requisite: Concurrently registered as a Level II, III or RN-BSN student in the CSUEB Nursing Program. May be repeated three times for credit for a maximum of 4 units. CR/NC grading only
COURSE PROGRESSION: SUGGESTED PROGRAM GUIDE

Level III: Community, Society, Specialty:

**Offered FALL or WINTER: Hayward**
**Offered SUMMER or FALL: Concord**

- **NURS 4203**  Research Synthesis (2 hours of class/week)
  - Take this course concurrently with Community Health.
- **NURS 4207**  Principles of Community Health Nursing (2 hours of class/week)
- **NURS 4208**  Practicum of Community Health Nursing (12 hours of class/week)

**OR**

- **NURS 4301**  Preceptorship Seminar: 2 hours of class/week
- **NURS 4302**  Preceptorship Practicum: 240 hours/quarter
STUDENT HEALTH DOCUMENTATION: LEVEL III

The facilities in which you practice as students require documentation of your health status and other requirements. In order to comply with these requirements, you must have on file in the Nursing office all current laboratory results, immunizations, health insurance, certifications (such as CPR) and any other agency documentation before you receive permission to register for Level III courses.

For most students, health documentation on Level III requires the following.
1. Renew any expired immunizations, such as DT or Tdap (when indicated)
2. Yearly PPD. If previously positive, you must have a yearly sign/symptom review completed by health care provider. If newly positive, a chest x-ray (CXR) is required. Depending on the clinical agency, there may be additional requirements.
3. Renew CPR certification.
4. Renew expired health insurance.
5. Provide current copy of automobile insurance to instructor on the first day of community health clinical.
6. Provide documentation of any specialty area certifications for preceptorship
LVN-BSN PATHWAY
CALIFORNIA STATE UNIVERSITY, EAST BAY
LVN-BSN NURSING PROGRAM

The LVN-BSN is being offered to any applicant with an extensive medical knowledge and/or experience in the following field: Licensed Vocational Nurse (LVN),

This program is open to those who would like to further their education to obtain the baccalaureate degree in Science of Nursing. Upon completion of the LVN-BSN pathway, the student is qualified to take the National Council Licensure Examination (NCLEX-RN) and apply for the California Public Health Nursing Certificate.

LVN Nursing Pathway- Program Requirements

I. Pre-Nursing Courses
   Units 38
   BIOL 2010 (or 2011), 2020, 2025 (15)
   CHEM 1610 (or 1615) (6)
   COMM 1000 or 1004 (4)
   ENGL 1001 (4)
   STAT 1000 (5)
   A course in Critical Thinking such as PHIL 1000 or 1001 (4)

II. Non- Nursing Courses
   Units 17
   PSYC 1000 (or 1001 or 1005)
   ANTH 1000 (or 1300) or SOC 1000 (or 1002) (4)
   HDEV 3800 (4)
   HIST 4710 (4)

III. Nursing Clinical Courses
   Units 86
   NURS 2005 or BIOL 4160 (4)
   NURS 2010 or BIOL 3070 (4)
   NURS 2015 (3)
   Level II: NURS 3001, 3002, 3003, 3201, 3202, 3401, 3402, 3403, 3404, 3405, 3406, 3407, 3408, 3409, 3410, 3411, 3412, 3413, 3502 (33)
   Level III: NURS 4203, 4207, 4208, 4301, 4302 (18)

*LVN students may petition to receive credit for these classes and challenge by exam.

Nursing Major Total 141

G.E., English 1002, History Code Requirement 72

Total Units for B.S. degree 180
LEVEL I
GENERAL INFORMATION: LEVEL I

I. Theory and Lab courses.

A. Nursing 2020, Nursing 2021, Nursing 2022: Intro to Contemporary Nursing, Nursing Support of Community Based Clients, Level I Skills I.

The first theory courses in the major are Nursing 2020/1. All the basic social/behavioral frameworks used by nurses are introduced in this lecture course. Nursing Support of Community-Based Clients consists of field work such as health promotion with a well elders. Students also meet in small groups to be coached and learn how to apply theories to nursing practice with well people. Finally, Level I Skills I is a laboratory course in which basic techniques of nursing practice are taught. These courses will lay a foundation of concepts and skills necessary to planning and delivering patient care.

B. Nursing 2030, Nursing 2031, Nursing 2032: Nursing Care of Adults I, and Practicum, Basic Physical Assessment.

Nursing care delivery for patients and families experiencing mild to moderate alteration in health/function. Concepts and principles necessary to anticipate, identify, and meet universal biopsychosocial adaptation needs for nursing in healthcare context. Physical Assessment skills are taught in the laboratory.

C. Nursing 2040, Nursing 2041, Nursing 2042: Care of Adults II/Practice, Level I Skills Lab II.

Care of Adults II is a Continuation of Care of Adults I. Nursing care to support patients and families experiencing mild to moderate alteration in health/function. Theories and principles necessary to anticipate, identify, meet biopsychological needs in selected pathophysiologic states. The courses are theory/lecture, clinical practice, and skills laboratory formats.

III. Evaluation.

Theory course evaluations consist of multiple choice examinations and written papers. Clinical practice courses are evaluated according to specific behavioral objectives. The clinical instructor at the end of each rotation has a conference with the student and together they complete a written evaluation. Skills lab course grades are determined by multiple choice tests and skills performance scores.

IV. Other nursing courses taken during Level I.

Nursing 2005, Clinical Pathophysiology (offered Fall Quarter).
This course focuses on human pathophysiology, its etiology, diagnosis, and the physiologic
rationale for treatment of multiple system disease, entities, and/or failures.

Nursing 2010, Principles of Nutrition and Medical Nutrition Therapy (offered Fall quarter). This course focuses on nutrients and their sources as well as diseases/disorders caused by excess or lack of given nutrients. Nutritional needs discussed as they vary across the life span.

Nursing 2015, Pharmacology (offered Winter Quarter). This course provides an understanding of the pharmacological basis of nursing practice. Students learn: 1) concepts of pharmacology that guide all drug use; 2) the major classes of drugs, with emphasis on mechanisms of action; and 3) patient care implications based on an understanding of the pharmacological aspects of specific drugs.

History 4710, History and Trends of Nursing (offered Spring and Summer Quarter to Level I students). This course is taught through the History Department, School of Arts, Letters & Social Sciences. This course is an introduction to both the history of nursing and its current applications and trends. A general picture of nursing’s past, present, and future are presented. Nursing is viewed in contrast with other health professions.

Considered are the changing roles of the nurse along with expectations of ethical behavior. Included are problems of confidentiality, relationships, and the nurses’ code of conduct. Also presented are the importance of the historical aspects of ethics and professionalism.

CREDIT FOR NURSING PREFIX COURSES

Students with special studies or experiences may already have achieved the objectives of certain courses and may petition to receive credit after a portfolio and transcript review. Students can petition for prior learning credit, for the following classes only:

- **Nurs 2022 (2)** - Level I Nursing Skills
- **Nurs 2031 (2)** - Care of Adults Practicum
- **Nurs 2042 (1)** - Level I Nursing Skills II

After admission to the LVN-BSN program, the applicant must contact the department to make an appointment with an advisor. Each applicant’s previous education and work experience will be individually assessed to design an optimal learning program.

Credit by examination is also possible for other Nursing coursework based on portfolio and transcript review. Proper steps to take this petition action would be as followed:

- Students interested in the challenge must notify the department no later than 2 weeks prior to the first day of class. To receive credit under this plan, the student must register for the class the quarter in which it is listed in the catalog.
- A petition for credit by examination is obtained from the Nursing Office. The examination will be administered within the first two weeks of the quarter.
- If the exam is passed, the grade and Credit By Examination will be indicated on the student’s permanent record.
- If the student fails the examination, the student must complete the course to receive credit.

The student is required to sign up in the Skills Lab in order to be checked off on the assigned motor performance skills. All skills must be completed by the end of the eighth week of each quarter.

D. Other nursing courses
Legal Responsibilities of Health Care Providers --NURS 3401:

This course is designed to acquaint the student with major legal concerns within the nursing profession today and with her/his rights and duties as a nurse. The course is also intended to serve as a catalyst for continuing examination of her/his legal status in this changing world.

Topics highlighted in the course include standards of care, legal significance of expanded roles, nursing negligence, the nurse's role in deposition and trial, rights and obligations as an employee, patient rights, responsibilities towards the public at large, ethical dilemmas in nursing today, and legal issues of tomorrow's nurse.

The student is expected to demonstrate knowledge of the impact law has on her/his role and responsibilities as a nurse and on the nursing profession. Demonstration will be through a midterm, one paper, and a final examination.

Nursing Leadership--(NURS 3202):

This course focuses on health policy, finances, organizational management strategies, and leadership. It builds on prior content of systems, leadership, change and research.

PRE REQS: NURS 3001, 02, 3201, 3401 ( maybe taken concurrent with N3402-3413) Dept. permission.

Continuum of Care ( NURS 3502):

ELECTIVE COURSE:
Current Issues in Professional Nursing – NURS 3200:
Discussion and presentation of a variety of current issues in nursing may include: violence in the workplace, international opportunities in research and service, current research projects, strategies for job search.
Prerequisites: Prerequisite: Completion of Level 1 Nursing curriculum. Co-requisite: Concurrently registered as a Level II, III or RN-BSN student in the CSUEB Nursing Program. May be repeated three times for credit for a maximum of 4 units.CR/NC grading only
COURSE PROGRESSION: SUGGESTED PROGRAM GUIDE

Level II: Less Wellness--Illness

FALL:

NURS 3201 Patients and Families with Complex Needs
2 Clin specialty theories & practicums
Total 15 hrs/week (12 hrs. clinical, 3 hrs. Lab)

NURS 3001

WINTER:

2 Clinical specialty theories and practica
NURS 3002
NURS 3401 Legal Responsibilities of Health Care Providers (offered in winter only).
NURS 3502 Continuum of Care (offered in Winter only)

SPRING:

2 Clinical specialty theory and practica
NURS 3003
NURS 3202 Leadership
STUDENT HEALTH DOCUMENTATION: LEVEL II

As you know, the facilities in which you practice as students require that we periodically monitor your health status. In order to comply with this, we must have current health documentation on file before you will be given permission to register for Level II courses (generally the first week of August).

At this point in the program, most students will need to: 1) submit proof of annual TB clearance; 2) submit post Hep B vaccine series titer proving immunity; 3) submit renewal health insurance; 4) submit proof of Tdap immunization 5) submit proof of Flu Vaccination, and 6) submit proof of HealthStream renewal in Winter.
LEVEL III
GENERAL INFORMATION: Level III

Research Synthesis--NURS 4203

This course focuses on reading/critiquing nursing research for application to practice. Learning activities pertain to practice and/or policy recommendations based on nursing research findings.

Community Health--NURS 4207-4208:

Students complete an application for Community Health during Level II.

A. Principles of Community Health Nursing--NURS 4207:

The theory course focuses on areas needed to augment clinical practice such as: cultural aspects of family centered care, epidemiology, local, state and national resources, violence in the family, PHN role, substance abuse, communicable disease, environmental health, and disaster management.

Various in class and online activities are required.

B. Practicum of Community Health Nursing--NURS 4208:

Students are assigned in clinical groups to a specific clinical agency, just as on Level II. The clinical groups meet two days a week. Students need a car or other means of transportation to visit the homes of assigned clients.

Clinical evaluation is credit/no credit. Expected clinical behaviors are identified in a written clinical evaluation in the syllabus.

Dress: See Professional Appearance Guidelines
PRECEPTORSHIP--NURS 4301 and 4302:

The Preceptorship is an intensive clinical experience that integrates nursing knowledge gained in all previous coursework. It assists students in making the transition from the academic to the professional work world.

Students attend a weekly two-hour seminar on campus (NURS 4301). Students participate in class activities designed to assess clinical competence and prepare for the NCLEX-RN Licensing Examination.

In the practicum course (NURS 4302), 240 hours (two 12-hour shifts or three 8-hour shifts per week over a ten week quarter) are spent in a clinical setting with a Preceptor (staff RN) selected by the clinical agency. A faculty liaison meets regularly with the student and Preceptor at the clinical facility.

Students are advised not to take other classes concurrently with Preceptorship. Many agencies have rotating shifts which make it difficult to schedule other classes. A reduction in employment responsibilities is also advised.

Details of the preceptorship application procedure and clinical placement are distributed to students during Level II.

ELECTIVE COURSE:
Current Issues in Professional Nursing – NURS 3200:
Discussion and presentation of a variety of current issues in nursing may include: violence in the workplace, international opportunities in research and service, current research projects, strategies for job search.

Prerequisites: Prerequisite: Completion of Level 1 Nursing curriculum. Co-requisite: Concurrently registered as a Level II, III or RN-BSN student in the CSUEB Nursing Program.
May be repeated three times for credit for a maximum of 4 units. CR/NC grading only
COURSE PROGRESSION: SUGGESTED PROGRAM GUIDE

Level III: Community, Society, Specialty:

Offered FALL or WINTER: Hayward
Offered SUMMER or FALL: Concord

NURS 4203 Research Synthesis (2 hours of class/week)
    Take this course concurrently with Community Health.
NURS 4207 Principles of Community Health Nursing (2 hours of class/week)
NURS 4208 Practicum of Community Health Nursing (12 hours of class/week)

OR

NURS 4301 Preceptorship Seminar: 2 hours of class/week
NURS 4302 Preceptorship Practicum: 240 hours/quarter
STUDENT HEALTH DOCUMENTATION: LEVEL III

The facilities in which you practice as students require documentation of your health status and other requirements. In order to comply with these requirements, you must have on file in the Nursing office all current laboratory results, immunizations, health insurance, certifications (such as CPR) and any other agency documentation before you receive permission to register for Level III courses.

For most students, health documentation on Level III requires the following.
1. Renew any expired immunizations, such as DT or Tdap (when indicated), Flu vaccination
2. Yearly PPD. If previously positive, you must have a yearly sign/symptom review completed by health care provider. If newly positive, a chest x-ray (CXR) is required. Depending on the clinical agency, there may be additional requirements.
3. Renew CPR certification.
4. Renew expired health insurance.
5. Provide current copy of automobile insurance to instructor on the first day of community health clinical.
6. Provide documentation of any specialty area certifications for preceptorship.
RN–BSN PROGRAM
RN-BSN PROGRAM

**All Policies and Procedures in the Student Handbook apply to RN-BSN students.**

Program Requirements 2014-2015

I. Pre-Nursing Courses
- BIOL 2010 (or 2011), 2020, 2025 (15)
- CHEM 1610 (or 1615) (6)
- COMM 1000 or 1004 (4)
- ENGL 1001 (4)
- STAT 1000 (5)
- A course in Critical Thinking such as PHIL 1000 or 1001 (4)

II. Non-Nursing Courses
- PSYC 1000 (or 1001 or 1005) (5)
- ANTH 1000 (or 1300) or SOC 1000 (or 1002) (4)
- HDEV 3800 (4)
- HIST 4710 (4)

III. Nursing Courses

Bridge Year:
- NURS 2005 or BIOL 4160 (4)
- NURS 2010 or BIOL 3070 (4)
- NURS 2015 (3)
- NURS 3202 (4)
- NURS 3502 (2)
- NURS 3503 (3)
- NURS 3505 (4)
- NURS 3507 (4)
- NURS 3509 (4)

Level III:
- NURS 4203 (2)
- NURS 4207 (2)
- NURS 4208 (4)
- NURS 4301 (2)
- NURS 4305 (4)

Nursing Major Total 101

Upper Division Test Credit for passing NCLEX 20

Total Units for B.S. degree 180

104
MANDATORY COURSE SCHEDULE –
TAKE IN EXACT ORDER AS SHOWN BELOW

RN to BSN Intensive Program = 55 units

Fall: 16 units
NURS 3505, 3507, 3509 (12)
   intensive 3 week classes
NURS 2005 (4)
   can challenge by exam

Winter: 11-17 units
NURS 3502 (2)
NURS 4203 (2)
NURS 3503 (3)
   regular weekly attendance
NURS 4207/8 (6) (or Spring term)
   Mon/Wed full day attendance
Upper Division Science (GE Area B6) (4)
   B6 not required for 2nd Bachelors, but may need extra graduation units

Spring: 10-16 units
NURS 3202 (4)
   can challenge by exam
NURS 4207/8 (6) (or Winter term)
   Mon/Wed attendance
NURS 4301 (2), 4305 (4)
   major research project

Summer: 12 units
HIST 4710 (4) required
HDEV 3800 (4) required
Upper Division Elective (4)
   only if graduation units needed
MANDATORY COURSE SCHEDULE –
TAKE IN EXACT ORDER AS SHOWN BELOW

RN to BSN Part Time Program = 55 units

First Year
Fall: 12 units
   NURS 3505 (4) & NURS 3507 (4)
   intensive 3 week classes
   NURS 2005 (4)
   can challenge by exam

Winter: 9 units
   NURS 3502 (2)
   NURS 3503 (3)
   regular weekly attendance
   Upper Division Science (GE Area B6) (4)
   B6 not required for 2nd Bachelors, but may need extra graduation units

Spring 8 units
   NURS 3202 (4)
   can challenge by exam
   HIST 4710 (4) required

Second Year
Fall: 8 units
   NURS 3509 (4) intensive 3 week class
   HDEV 3800 (4) required

Winter: 6-12 units
   NURS 4203 (2)
   NURS 4207/8 (6) (or Spring term)
   Mon/Wed full day attendance
   Upper Division Elective (4)
   only if graduation units needed

Spring: 6-12 units
   NURS 4207/8 (6) (or Winter term)
   Mon/Wed full day attendance
   NURS 4301 (2), 4305 (4)
   major research project

Reviewed 7/14
The preceptorship component of the RN-BSN Program is 6 units and includes the following three courses.
1. NURS 4301 (Preceptorship Seminar-2 units)
2. NURS 4305 (Preceptorship Practicum-4 units)

There are two options for completing the preceptorship practicum (NURS 4305). Students are expected to choose an option and complete the associated application materials during the Winter quarter of the bridge year. Application information is available in the Fall quarter NURS 3505 course syllabus. Each option is described below.

- **RN-BSN Project Option**
  This preceptorship course option offers the RN-BSN student an opportunity to develop a new role within her current place of employment. The student’s work setting is analyzed for appropriate learning activities in collaboration with agency staff and preceptorship faculty. Suggested activities include development of clinical pathways; development of quality management tools; preparation of staff and/or client educational materials; educational presentations; professional practice committee service; interdisciplinary collaboration; participation in regulatory agency evaluation. The student writes a project proposal and implements the project in the work setting in collaboration with agency staff and faculty advisor. The student is expected to spend a minimum of ninety hours on this project.

- **RN-BSN Skills Lab Option**
  This preceptorship course option allows the RN-BSN student an opportunity to develop teaching skills in collaboration with a preceptor and faculty liaison. The student works with Level I and Level II students in health assessment and skill acquisition courses. Acute care medical-surgical experience and faculty approval is required. The student is expected to complete 180 hours in the skills lab.

Please consult with your faculty advisor or preceptorship coordinator if you have any questions about the information above.

**ELECTIVE COURSE**

NURS 3200 Current Issues in Professional Nursing
Discussion and presentation of a variety of current issues in nursing may include: violence in the workplace, international opportunities in research and service, current research projects, strategies for job search.

*Prerequisites: Prerequisite: Completion of Level 1 Nursing curriculum. Co-requisite: Concurrently registered as a Level II, III or RN-BSN student in the CSUEB Nursing Program. May be repeated three times for credit for a maximum of 4 units. CR/NC grading only*
RN LICENSURE GRADUATION PROCEDURE
RN LICENSURE PROCEDURE

Board of Registered Nursing RN Licensure packets will be distributed to Pre-Licensure students by the Department Office. A group meeting will be scheduled in Fall Quarter. The purpose of the meeting will be:

1. to orient students to the licensure procedure;
2. to distribute and assist students in completing the paperwork; and,
3. inform students of documentation which must accompany application for licensure.

RN-BSN students can print out necessary paperwork related to the Public Health Nursing Certificate from the Board of Registered Nursing website and drop it off in the Department Office for processing, once BSN degree is conferred and appears on transcripts.

TAKING BOARDS AS A GRADUATE OR NON GRADUATE

Students may choose to take the Board exam as graduate or nongraduate

In order to be eligible to take Boards as a nongraduate, students must have completed all course work required by the nursing major (all courses listed on your major check sheet) before taking the test. It is important for students to understand that taking the NLCEX after completing the LVN 45 unit option means that your license to practice nursing may not be recognized in all 50 states.

Taking Boards as a graduate requires the official graduation date to occur before the Boards exam date. Therefore, it is imperative that students file for graduation by the deadline dates posted online in the quarterly schedule of classes. Also please refer to the section A Graduation Procedure, under “Student Checklist” section of the online class schedule.*

COST

The Board of Registered Nursing charges $150 to evaluate a student’s eligibility to take the exam (this fee includes the $50 charge for the optional Interim Permit). Once the Board determines a student to be eligible to take the exam, the student will pay a $200 registration fee to the Test Center. These charges are subject to change.

*Students will also be reminded periodically to see Nursing Advisors about their progress through the major and degree requirements.
