Request to Postpone Graduation
Office of the Registrar

Students who cannot complete all requirements by their anticipated graduation term may request to postpone their term of graduation to the next consecutive semester with approval from their major department. Undergraduate students will be charged a $25 graduation term postponement fee; graduate students will not be charged the postponement fee. Students who move their term of graduation ahead may not move it back to a previous term if they change their minds. Students who need to pay the fee should expect to see charges on their account within a month of the postponement.
