The Center for Community Engagement regularly collects information from departments and faculty regarding community engagement and community-based learning activities so we may better support faculty, students, and community partners. We use this information internally to inform organizational planning, and campus and CSU reporting. We share this information in aggregate form. We will request permission prior to using any identifying information.

Because there are a variety of approaches and terms connected to community engagement, we utilize "community based learning" to reference the variety of courses offered. The term "service learning" refers to a teaching method that engages students actively off campus with community organizations (non profit, education, social service, and government agencies) that contribute to the public good, and work towards equity, inclusion, and sustainability. These activities support discipline learning and students are encouraged to see the connection with course content through critical reflection. The use of community-based learning in this survey is meant to help us gather a broad array of information.

Information collected from this confidential survey will be used to improve the services of and for informational reporting on activities connected to the Center for Community Engagement at California State University East Bay. The information gathered will be used for research on community-based learning and community engagement.

The survey questions will be about faculty participation in a community-based learning or community engagement activity, experience or course. You have been invited to participate because you are a faculty member of CSU East Bay.
There are no risks or benefits to you in participating in this survey. You may choose to participate or not. You may answer only the questions you feel comfortable answering, and you may stop at any time. If you do not wish to participate, you may simply not respond, with no penalty to yourself. **If you do participate, completion and return of the survey indicates your consent to the above conditions.**

Any questions or concerns should be directed to the principal investigator, Mary D’Alleva, Director of the Center for Community Engagement at 510-885-4437 or cce@csueastbay.edu (mailto:cce@csueastbay.edu) or the Office of Research and Sponsored Programs at 510-885-4212.
