COMMITTEE ON INSTRUCTION AND CURRICULUM

16-17 CIC 32
Monday, November 07, 2016

TO: The Academic Senate

FROM: Committee on Instruction and Curriculum (CIC)

SUBJECT: 16-17 CIC 32: Course modification request: STAT 1000 and STAT 6250

PURPOSE: Information to the Senate

ACTION REQUESTED: That the Academic Senate be informed that CIC has approved the course modification request to allow STAT 1000 and STAT 6250 to be taught online.

BACKGROUND INFORMATION:
At CIC’s November 7, 2016 meeting the committee considered a request from the Department of Statistics and Biostatistics to permit the existing courses STAT 1000 and STAT 6250 to be taught online or hybrid. Pursuant to 14-15 CIC 21, course modifications for quarter-based courses must be approved by CIC in addition to the usual process. STAT 1000 is a GE course and its move to an online/hybrid format must be reapproved by the Senate per 13-14 CIC 5. If it is recommended by the GE Subcommittee, a separate document will follow.
