

COMMITTEE ON ACADEMIC PLANNING AND REVIEW

January 30, 2013
12-13 CAPR 10

TO: The Academic Senate
FROM: The Committee on Academic Planning and Review (CAPR)
SUBJECT: 12-13 CAPR 10 revised: Program Review Schedule change for Engineering
PURPOSE: Action by the Academic Senate
ACTION To change the Program Review Calendar for Construction Management and
REQUESTED: Computer Engineering programs

BACKGROUND:

At CAPR's January 17, 2013 meeting, Dr. Saeid Motavalli, CAPR member and Chair of the Engineering department, proposed the change of Computer Engineering and Construction Management's five-year review to coincide with the Industrial Engineering and Engineering Management five-year reviews and to give these programs the opportunity to seek their own external accreditation. All programs in the Department (Construction Management, Engineering Management, Industrial Engineering and Computer Engineering) shall submit their five-year reviews in 2015-16 in conjunction with their external accreditation efforts for these programs. The Construction Management and Computer Engineering are planning to seek external accreditation 2015-2016 academic year with external visits for all programs to occur in Fall 2016. Construction Management will be the only program that has not yet submitted a five-year review; their first review will be submitted in 2015-16. This document changes the schedules noted on 08-09 CAPR 7 and 07-08 CAPR 5. All Engineering programs will be submitting annual reports in preparation for accreditation and 5 year reviews.

ACTION REQUESTED:

CAPR is formally requesting that this change to Construction Management and Computer Engineering programs be made on the Program Review Calendar.
