Proposed changes to standard setting sessions for ILOs to be assessed in AY 2015-6

1. For each ILO being assessed, choose one assignment and conduct a full norming with that assignment (i.e., review rubric; review assignment and expected response; read and discuss anchor papers; score and discuss range finders; score live papers). [Consider scheduling a half- or full-day session for this assessment.]

2. For other assignments in a collection, use current procedures (i.e., review rubric, discuss standards using example papers from one assignment, score live papers), but add a discussion of each assignment and expected response.
