TO: The Academic Senate
FROM: The Committee on Instruction and Curriculum
SUBJECT: 13-14 CIC 6 amended: Modifying Online Schedule Links to Separate Extension and Stateside Courses

PURPOSE: Approval of the Academic Senate; effective upon signature of President

ACTION REQUESTED: That the Academic Senate approve a policy that the schedule links on MyCSUEB list separately the extension and special session courses from stateside courses in the course list and search functions; effective upon signature of President

BACKGROUND INFORMATION: Several departmental offices have been confronted with students who wish to enroll in courses that are not available to them because stateside students cannot take University Extension courses. The online schedule has some designations that might allow students to figure out which courses they can take and for which they can receive credit towards their degree, but these designations are not obvious in their meaning to most students, and leads to some frustration on the part of the students, and some difficulty on the part of office staff that have to explain the problem. We hope that this change in the online schedule will result in less confusion for our students and will better guide them to the courses that fulfill their requirements.
