TO: The Academic Senate  
FROM: Committee on Instruction and Curriculum (CIC)  
SUBJECT: 17-18 CIC 47: CIVE prefix for Civil Engineering  
PURPOSE: Approval of the Senate  
ACTION REQUESTED: That the Academic Senate approve the use of the CIVE for courses offered by the Civil Engineering program; upon the signature of the President, effective Fall 2018  

BACKGROUND INFORMATION:  
On Monday, April 16, 2018, CIC reviewed a request from the School of Engineering for the prefix CIVE for their Civil Engineering Program. The prefix would help to distinguish the Civil Engineering program from their Industrial and Computer Engineering Programs.  
CIC unanimously approved the School of Engineering’s request.  
CAPR reviewed and accepted this request as information on April 19, 2018.
CIVE - Civil Engineering

3. Request For New Prefix

General Catalog Information

***READ BEFORE YOU BEGIN***

Use this form to request a new course prefix for your department.

Please see Policy Guidelines for Requesting New Course Prefixes for more information.

Please turn on Help Text for this form by selecting the Show Help Text icon above this section of the form.

Earliest Effective Term: Spring 2019  Effective Catalog: 2019-2020

From 08-09 CIC 17 revised Policy Guidelines for Requesting New Course Prefixes:

Requests for new course prefixes must meet one of the following requirements:

Refer to the name of the degree (ex. POSC for courses in the B.A. Political Science).
Refer to the name of the department (ex. EPSY for the M.A. Counseling which is located in the Department of Educational Psychology).
Refer to the name of the academic unit/area of study which has a critical mass of courses not leading to a degree in that subject area (ex. SCI for college-wide courses in Science or GS for university-wide courses in General Studies).
Refer to an option within a degree that has no courses in common with any other option in that degree (ex. OTL for the Option in Online Teaching and Learning in the M.S. Education), with a critical mass of courses available in the curriculum to warrant a new prefix, as determined by CIC.
Refer to an innovative new interdisciplinary area of study with a critical mass of courses available in the curriculum to warrant a new prefix, as determined by CIC.
We are proposing a new program in Civil Engineering. The prefix is used for all new courses in civil engineering. This would distinguish civil engineering from industrial and computer engineering programs.

CIVE 206 – Engineering Materials (3)

CIVE 319 - Fluid Mechanics (3)
CIVE 330 - Strength of Materials (3)
CIVE 350 – Geotechnical Engineering (4)
CIVE 361 - Transportation Engineering (3)
CIVE 385 - Structural Analysis (3)
CIVE 410 - Hydraulics and Water Resources (3)
CIVE 421 - Structural Engineering Design (4)
CIVE 435 - Highway and Pavement Design (3)
CIVE 430 - Environmental Engineering and Sustainable Design (3)
CIVE 440 - Construction Engineering (3)
CIVE 492 - Senior Design Project (4)
