

CALIFORNIA STATE UNIVERSITY, EAST BAY

DESIGNATION CODE: 08-09 BEC 9  
DATE SUBMITTED: April 28, 2009

TO: The Academic Senate  
FROM: The Executive Committee of the Academic Senate  
SUBJECT: Staff Representative to the Academic Senate 2009-11  
PURPOSE: Action by the Senate

**ACTION**

REQUESTED: That the Academic Senate elect a staff representative to the Academic Senate from the list of self-nominations provided below for the term 2009-2011

**BACKGROUND**

INFORMATION: In accordance with Article XI of the Bylaws, a call letter was distributed via massmail by the Senate Office asking interested staff to send an email or letter to the Senate Office to self-nominate for the Staff Representative seat on the Senate, to replace Joseph Corica, whose term was 07-09. Any permanent staff member of CSUEB (excluding MPP and those already represented by another electorate) is eligible to serve. Three responses were received.

The staff members who self-nominated are:

- ❖ ~~Barbara Jackowski, Director of PACE~~ (placed on the ballot for the SSP election)
- ❖ Evelyn Munoz, Energy Manager for Planning, Design & Construction
- ❖ Barbara Warsavage, PEM

At its meeting on April 28, 2009 the Executive Committee voted to forward these nominations to the Senate for a vote.

The term of office commences June 15<sup>th</sup> (the same as other elected senators for 09-11).

~~Dear Academic Senate,~~

~~I would like to apply for the Staff Representative to the Academic Senate. Following is a little information about me.~~

~~I am a Cal State Hayward alumnus, BA & MA, Speech Communications. I spent approximately 15 years teaching Speech at several community colleges in the Bay Area. In 2005 I came back to CSUEB as the Advisor to the PACE program. I am currently Director of that program. I am anticipating a PhD in Educational Leadership within the next month from Colorado State University.~~

~~I thank you for considering my application for this position.~~

~~Barbara Jackowski  
Director of PACE~~

.....

Dear Academic Senate,

I had a PhD in Math Methods in Educational Research from Stanford with an interest in psychometrics, assessment, and measurement of change. I have worked in Educational Research in a variety of ways from Research at the New Teacher Center at UCSC, also in Research from Aerospace to Linguistics.

I am alumnae from East Bay. I got my masters in statistics here in 1975.

I want to understand the issues that our school has and to help in solving them. I want to be an integral part of this community.

Barbara Warsavage, PhD  
Planning & Enrollment Management

.....

Dear Academic Senate,

My name is Evelyn López-Muñoz and I am the Energy Manager on Campus. My employment with the University began in February 1989 as a clerical assistant in the Plant Operations Department. In my fourth year of employment, I took on a training position in the trades as an Operating Engineer in the Central Boiler Plant. When the university closed the plant, we purchased distributive boilers throughout the campus and I was trained and promoted to Building Service Engineer, where I worked for 14 years. During this time, I attended the university as a student and obtained my B.A. in Environmental Studies with an emphasis on Land Planning & Management and also received a certificate in Cartography and GIS. During my employment as a Building Service Engineer, I trained all unit 6 employees, shipping/receiving employees, and the Art Department on forklift and scissor lift training. I was also part of the unit 6 apprenticeship committee and for a short while served as Union Chief Stewart. In 2007, I applied and gainfully received the position as Campus Energy Manager. I oversee all East Bay and Concord utilities (electrical, gas, water, sewage, trash and recycling) and work with the university on saving energy and moving forward as a green, sustainable campus.

I am interested in participating on the Academic Senate as a long-time employee as well as a former student. I feel that I may be able to give valuable input as well as receive input on helping the university move forward with energy savings and sustainability.

Thank you for your consideration,  
Evelyn López-Muñoz
