

## Five Year Program Review Schedule (2011-2012)

The Chancellor's Office requires programs to undergo reviews approximately every five years. Outside Accredited Programs may have longer cycles, in order to coincide with the outside review. Policies and Procedures for program reviews are outlined in **08-09 CAPR 23, Revision of the 5-year Program Review Process** which is on the CAPR documents page and also on the Senate Documents web page at <http://www20.csueastbay.edu/faculty/senate/documents.html> Programs are defined as units offering degrees, with GE and Info Literacy added due to their general effect on all students. **Athletics is now included as well, as it used to be part of the KPE review and the program, which has faculty employees and offers curriculum, is now no longer in Academic Affairs. and therefore has no other mechanism for faculty review of its program. In its letter dated March 3, 2008, WASC asked CSUEB to address "the institutionalization of program review in all campus units." The date given to Athletics is the same as Kinesiology.**

Note: Underlined programs are nationally accredited subject areas and have their own timeline, as well as a shortened review submission *along with* the accreditation materials and letter of successful re-accreditation.
