Election Results for Special Spring 11 Election

(FAILED) There was a 31.6% participation rate in this election, so the proposed Constitution & Bylaws amendment to change the Senate and ExCom membership to include the Provost failed to pass, due to lack of participation in the election. (However, the issue received overwhelming approval of those who voted.)

(PASSED) The Statewide addition of Academic Freedom Principles to the Statewide Senate Constitution received 96% approval.

Thank you to all who participated in this election. The Senate Office is considering new election software for use in the Fall election. Some of the lack of participation in this election was due, it seems, to voting software glitches. We apologize for the frustration it may have caused.
