INDEPENDENT AUDITORS' REPORT

Board of Directors California State University, East Bay Foundation, Inc. Hayward, California

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities, of the California State University, East Bay Foundation, Inc., a component unit of California State University, East Bay, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the California State University, East Bay Foundation, Inc. as of June 30, 2020, and the changes in financial position and, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of funding progress of other postemployment benefits, schedule of proportionate share of the net pension liability, and the schedule of contributions as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the California State University, East Bay Foundation, Inc.'s basic financial statements. The schedule of net position, the schedule of revenues, expenses, and changes in net position, and other information as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of the California State University, East Bay Foundation, Inc., referred to above, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 9, 2020, on our consideration of the California State University, East Bay Foundation, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of California State University, East Bay Foundation Inc.'s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the California State University, East Bay Foundation, Inc.'s internal control over financial reporting and compliance.

CliftonLarsonAllen LLP

CliftonLarson Allen LLP

Glendora, California September 9, 2020

This section of the California State University, East Bay Foundation, Inc. (the Foundation) annual financial report includes some of management's insights and analyses of the Foundation's financial performance for the year ended June 30, 2020. This discussion has been prepared by management and should be read in conjunction with the financial statements and notes.

Financial Highlights

- Assets decreased by \$1.2 million, or 4%, primarily due to a \$1 million decrease in current assets resulting from a change in the investment portfolio value resulting from the global pandemic's negative impact on market volatility and valuation.
- Revenues from research grants and contracts increased by \$1.3 million, or 10%, in the current year as activity increased due to new grants and contracts awarded to Foundation.
- Expenses from research grants and contracts increased by \$1.3 million or 10% due to the same reason that revenues from research grants and contracts increased. Other auxiliary enterprise expenses also increased by \$510,000 due to the increase in pension expense attributable to the overall change in net pension liability and deferred outflows and inflows of resources related to pension.

Overview of the Financial Statements

The annual report consists of a series of financial statements prepared in accordance with Governmental Accounting Standards Board (GASB) Statement No. 35, Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities. This standard is applicable to the Foundation because it is a component unit of the California State University, East Bay (the University). Consistent with the University, the Foundation has adopted the business-type activity (BTA) reporting model to represent its activities.

The financial statements include the statement of net position; the statement of revenues, expenses, and changes in net position; and the statement of cash flows. All sections should be considered together to obtain a complete understanding of the financial picture of the Foundation. The discussion has been prepared by management and should be read in conjunction with the basic financial statements and accompanying notes.

Statement of Net Position: The statement of net position includes all assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the Foundation. It is prepared under the accrual basis of accounting, whereby revenues and receivables are recognized when the service is provided and expenses and liabilities are recognized when incurred, regardless of when cash is exchanged. It also identifies major categories of restrictions on the net position of the Foundation.

Statement of Revenues, Expenses, and Changes in Net Position: The statement of revenues, expenses, and changes in net position presents the revenues earned and expenses incurred during the year on an accrual basis.

Statement of Cash Flows: The statement of cash flows presents the inflows and outflows of cash, summarized by operating, noncapital financing, capital and related financing, and investing activities. The statement is prepared using the direct method of cash flows, and therefore, presents gross rather than net amounts for the year's operating activities.

Notes to Financial Statements: The notes to financial statements provide additional information that is essential to a full understanding of the data provided in the Foundation's financial statements. The notes are included immediately following the financial statements within this report.

A summary of key financial statement information is presented below:

Statement of Net Position

	2020	2019
Assets:		
Current assets	\$ 23,507,308	\$ 24,511,199
Capital assets, net	3,850,561	4,000,389
Total assets	27,357,869	28,511,588
Deferred outflows of resources	1,257,889	1,212,863
Liabilities:		
Current liabilities	7,940,285	7,165,891
Noncurrent liabilities	7,738,342	7,652,447
Total liabilities	15,678,627	14,818,338
Deferred inflows of resources	555,680	173,538
Net position:		
Net investment in capital assets	2,292,425	2,161,978
Unrestricted	10,089,026	12,570,597
Total net position	\$ 12,381,451	\$ 14,732,575

Assets

Total assets decreased by \$1.2 million, or 4%, primarily due to a \$1 million decrease in current assets resulting from a change in the investment portfolio value, which was adversely impacted by the global pandemic's negative effect on the market. In addition, there was a \$200,000 net reduction in capital assets related to depreciation.

Deferred Outflows of Resources

The deferred outflows of resources related to OPEB increased by \$75,000, or 112%, due to an increase in the net difference between projected and actual earnings of OPEB plan, offset by a \$30,000 decrease in deferred outflows of resources related to pension.

Liabilities

Total current liabilities increased by \$770,000, or 11%, primarily due to an increase in unearned revenue pertaining to payment advances received for nongovernmental grants awarded towards the end of the fiscal year. Since these grants were awarded close to the end of the year, there was not a lot of expenses incurred to reduce the liability. Total noncurrent liabilities increased by \$86,000, or 1%, due primarily to an increase in net pension liability.

Deferred Inflows of Resources

The deferred inflows of resources increased by \$380,000, or 220%, due to the addition of deferred inflows related to the difference between employer's contribution and proportionate share of contributions, and change in employer's proportion coupled with the change in the net difference between projected and actual earning on pension plan.

Net Position

Total net position decreased by \$2.4 million, or 16%, primarily resulting from the overall Foundation operating activities not fully offset by revenue earned in the current fiscal year.

Statements of Revenues, Expenses and Changes in Net Position

The Foundation's condensed summary of revenues, expenses, and changes in net position for the years ended June 30 is as follows:

	2020	2019
Operating revenues:		
Research grants and contracts	\$ 13,287,168	\$ 12,029,698
Commercial services	253,112	340,608
Management fees	65,368	111,027
Other Income	38	
Total operating revenues	13,605,686	12,481,333
Operating expenses:		
Cost of research	13,287,168	12,029,698
Other auxiliary enterprise expenses	1,786,476	1,275,697
Depreciation	149,828	150,086
Total operating expenses	15,223,472	13,455,481
Operating loss	(1,617,786)	(974,148)
Nonoperating revenues (expenses)	(733,338)	499,055
Decrease in net position	(2,351,124)	(475,093)
Net position at beginning of year	14,732,575	15,207,668
Net position at end of year	\$ 12,381,451	\$ 14,732,575

Operating Revenues

Operating revenues increased by \$1.1 million, or 9%, primarily due to the increase in spending of research grants and contracts during the year. Although a few grants expired this year, new grants were also awarded to the Foundation. Revenue from grants and contracts is recognized when expensed for the purpose specified. Therefore, when program activities increase, related revenues also increase.

Operating Expenses

Operating expenses increased by \$1.8 million, or 13%, primarily due to a \$1.3 million increase in research grants and contracts spending as new grants were awarded during the fiscal year. Other auxiliary enterprise expenses also increased by \$510,000 due to the increase in pension expense attributable to the overall change in net pension liability and deferred outflows and inflows of resources related to pension.

Nonoperating Revenues (Expenses)

Nonoperating revenues (expenses) decreased by \$1.2 million, or 247%, due to the significant decrease in value of invested funds as compared to the previous year. The reduction is primarily due to a change in the investment portfolio value resulting from the global pandemic's negative impact on market volatility and valuation.

Changes in Capital Assets

Capital assets, net of accumulated depreciation, totaled \$3.9 million and \$4 million as of June 30, 2020 and 2019, respectively. The following table summarizes the changes in capital assets as of June 30:

		2020	2019
Capital assets:			_
Buildings	\$	7,649,921	\$ 7,649,921
Furniture, fixtures, and equipments		525,875	525,875
Land		35,000	35,000
Total capital assets		8,210,796	8,210,796
Less: accumulated depreciation	(4,360,235)	(4,210,407)
Capital assets, net	\$:	3,850,561	\$ 4,000,389

Additional information on capital assets can be found in Note 5 to the financial statements included in this report.

Changes in Long-Term Debt

Long-term debt totaled \$1.5 million and \$1.8 million at June 30, 2020 and 2019, respectively. These amounts are comprised of bonds to fund the cost of the bookstore building. The following table summarizes the change in long-term debt as of June 30:

	 2020	 2019
Current portion of long-term debt	\$ 250,000	\$ 245,000
Long-term debt	 1,296,645	 1,580,486
Total	\$ 1,546,645	\$ 1,825,486

Additional information on long-term debt obligations can be found in Note 6 to the financial statements included in this report.

Request for Information

The financial report is designed to provide a general overview of the Foundation's finances. For questions concerning any information in this report or for additional financial information, contact Kim Napoli, University Controller, California State University, East Bay, 25800 Carlos Bee Boulevard, Hayward, California 94542 or call 510-885-7363.

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Nature of Activities

The California State University, East Bay Foundation, Inc. (the Foundation), a nonprofit organization, is an auxiliary organization of California State University, East Bay (the University) and the California State University system. The Foundation's mission is to support the University's educational mission and to provide quality services that complement the instructional program. The Foundation provides augmented funding for educational-related services at the University that would not otherwise be available through or funded by the state university system. Funds are received from federal, state, and local government agencies, as well as private individuals and groups.

B. Financial Reporting Entity

The financial statements include the accounts of the Foundation, together with its research activities performed on behalf of the University. The Foundation is a government organization under accounting principles generally accepted in the United States of America and is a component unit of the University, a public university under the California State University system. The Foundation has chosen to use the reporting model for special-purpose governments engaged only in business-type activities.

C. Basis of Presentation

The financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB). Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Voluntary nonexchange transactions are recognized as revenue as soon as all eligibility requirements have been met.

D. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

E. Investments

The valuation technique utilized to measure the investments is the market approach using prices and other relevant information generated by market transaction involving identical or comparable assets. Gains and losses are included in investment income, net on the accompanying schedule of revenues, expenses, and changes in net position.

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

F. Accounts Receivable

The accounts receivable arise in the normal course of operations. It is the policy of management to review the outstanding accounts receivable at year-end, as well as the bad debt write-offs experienced in the past, and establish an allowance for doubtful accounts for uncollectible amounts.

G. Capital Assets

Acquisitions of capital assets of \$5,000 or more are capitalized. Capital assets are stated at cost or, if donated, at the acquisition value at the date of donation. Expenditures for maintenance and repairs are charged against operations. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets of 5 to 50 years. In accordance with instructions from the California State University System, depreciation expense is shown separately in the schedule of revenues, expenses, and changes in net position, rather than being allocated among other categories of operating expenses.

H. Unearned Revenue

Unearned revenue consists primarily of grant and contract funds received in advance.

I. Agency Liabilities

The Foundation administers agency assets on behalf of campus organizations. The Foundation generally receives a fee for administering these funds. Depending on the nature of these funds, this fee can be a fixed annual amount, a per-transaction charge, or a fixed percentage charge based upon assets under the Foundation's administration. It is management's belief that the Foundation is acting as an agent for the transactions of these units. Accordingly, the activity of such organizations is not recorded in the schedule of revenues, expenses, and changes in net position.

J. Pension

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the California Public Employees' Retirement Systems (CalPERS) Financial Office of the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (the Plan or PERF C). For this purpose, benefit payments (including refund of the employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. CalPERS audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications.

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

GASB Statement No. 68 Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27 requires that the reported results must pertain to liability and asset information with certain defined timeframes. For this report, the following timeframes are used:

Valuation Date (VD)

Measurement Date (MD)

Measurement Period (MP)

June 30, 2018

June 30, 2019

June 30, 2018 to June 30, 2019

K. Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Foundation's plan (OPEB Plan) and additions to / deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

GASB Statement No. 75, Accounting and Financial Reporting for Postemployment Benefit Other than Pensions, requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Actuarial Valuation Date

Measurement Date

Measurement Period

June 30, 2020

June 30, 2020

June 30, 2019 to June 30, 2020

L. Net Position

The Foundation's net position is classified into the following categories:

- Net investment in capital assets This category includes capital assets, net of accumulated depreciation, and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets.
- *Unrestricted* All other categories of net assets, including those net assets designated by the board or management.

M. Classification of Revenues and Expenses

The Foundation considers operating revenues and expenses in the statement of revenues, expenses, and changes in net position to be those revenues and expenses that result from exchange transactions or from other activities that are connected directly with the Foundation's primary functions. Exchange transactions include charges for services rendered and the acquisition of goods and services. Certain other transactions are reported as nonoperating revenues and expenses in accordance with GASB Statement No. 35, Basic Financial Statements—and Management's Discussion and Analysis – for Public Colleges and Universities-an amendment of GASB Statement

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

No. 34. These nonoperating activities include the Foundation's net investment income and interest expense.

N. Contracts and Grants

Contracts and grants represent funds obtained from external agencies for the support of instructional, research, and public service functions of the University. Revenue from contracts and grants is recognized when expensed for the purpose specified. Amounts received in excess of expenses incurred as of the financial statements date are deferred.

Federal awards are subject to review and audit by the grantor agencies. Although such audits could result in expense disallowances under the terms of the grants, management believes that any disallowance would not be material to the Foundation.

O. Income taxes

The Foundation is a qualified nonprofit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and Section 23701d of the California Revenue and Taxation Code. In addition, the Foundation qualifies for the charitable contribution deduction under Section 170(b)(1)(A)(vi) and has been classified as an organization that is not a private foundation under Section 509(a)(1). However, the Foundation remains subject to taxes on any net income which is derived from a trade or business, regularly carried on, and unrelated to its exempt purpose.

The Foundation recognizes accrued interest and penalties associated with uncertain tax positions as part of the income tax provision, when applicable. There are no amounts accrued in the financial statements related to uncertain tax positions.

The Foundation files informational and income tax returns in the United States and various state and local jurisdictions. The Foundation's Federal income tax and informational returns are subject to examination by the Internal Revenue Service, generally for three years after the returns were filed. State and local jurisdictions have statutes of limitation that generally range from 3 to 5 years.

P. Risks Financing Activities

The Foundation is exposed to various risks of loss related to torts: theft of, damage to, and destruction of assets; errors and omissions: and natural disasters for which the Foundation carries commercial insurance. The Foundation has not had any significant reduction in insurance coverage, and there have been no claims in excess of coverage, in any of the past three years.

NOTE 1 ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Q. Risks and Uncertainties

The Coronavirus Disease 2019 (COVID-19) has recently affected global markets, supply chains, employees of companies and our communities. Management of the organization is taking appropriate actions to mitigate the impact. However, the full impact of COVID-19 is unknown and cannot be reasonably estimated as of June 30, 2020.

NOTE 2 CASH AND CASH EQUIVALENTS

The Foundation considers all demand deposits and highly liquid investments with a maturity of three months or less to be cash and cash equivalents. The Foundation has \$698,561 in cash and cash equivalents at June 30, 2020, which consist of \$554,147 unrestricted and \$144,414 held on behalf of other agencies.

NOTE 3 INVESTMENTS

The Foundation's investment policy dictates that investments in fixed income securities must represent a minimum of 15% of total investments. A maximum of 50% may be invested in domestic equities and a maximum of 40% in international equities. A minimum of 2% must be maintained in cash or cash equivalents, including money market or short-term U.S. Treasury bills.

The Foundation participates in the CSU Consolidated Investment Pool (the Pool) managed in a 50/50 split by U.S. Bank Corp and Wells Capital Management, asset management and investment advisory firms that serve the University. Securities within the Pool that are not insured are held in the name of the University. The Foundation's investment in the pool was \$1,076,401 and represents approximately 0.8% of the Pool. The Pool is not rated as of June 30, 2020; however, the Foundation's share of the Pool is included in the rating and risk disclosures.

The Foundation invests in the Surplus Money Investment Funds (SMIF), an external investment pool. The State Treasurer invests the SMIF funds through the Pooled Money Investment Account (PMIA). PMIA policy sets as primary investment objectives safety, liquidity, and yield. The Investment Division of the State Treasurer's Office manages the PMIA under statutory authority granted by California Government Code Sections 16430 and 16480.4. The State Treasurer's Office reports its investment at fair value. The Foundation reports proportionate share of the Pool. The Pooled Money Investment Board (Board) governs the PMIA. The State Treasurer chairs the Board, which also includes the State Controller and the State Director of Finance.

NOTE 3 INVESTMENTS (CONTINUED)

The Foundation is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The Local Investment Advisory Board has oversight responsibility for LAIF. The Board consists of five members as designated by state statute. The fair value of the Foundation's investment in this pool is reported in the accompanying financial statements at amounts based upon the Foundation's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The value of the pool shares in LAIF, which may be withdrawn, is determined on an amortized cost basis, which is different than the fair value of the pooled treasury's portion in the pool. Withdrawals from LAIF are done on a dollar for dollar basis. The Foundation also has investments held and managed by Morgan Stanley Financial Services.

Investments consist of the following at June 30, 2020:

Equity securities	\$ 9,850,038
Mutual funds	2,609,573
Corporate bonds	1,905,308
U.S. treasury securities	1,488,628
CSU Consolidated Investment Pool	1,076,401
Municipal bonds	846,954
Local agency investment fund	606,724
U.S. agency securities	456,848
Surplus money investment fund	23
Total Leveled Investments	\$ 18,840,497

Investments are classified into the following categories at June 30, 2020:

Unrestricted	\$ 15,232,746
Restricted - agency liabilities	3,607,728
Restricted - expendable debt service	 23
Total	\$ 18,840,497

Investment income, net, consists of the following as of June 30, 2020:

Interests and dividends	\$ 433,270
Realized gain (loss)	(581,614)
Unrealized gain (loss)	(432,991)
Investment consulting fees	(112,527)
Total	\$ (693,862)

NOTE 3 INVESTMENTS (CONTINUED)

A. Credit Risk

Credit risk is the risk that an issuer or other counterparty to a debt instrument will not fulfill its obligations. This is measured by the assignment of ratings by nationally recognized statistical rating organizations. The Foundation's investment policy generally prohibits investments in the following vehicles: private placements, venture capital investments, real estate properties, futures contracts, options, short sales, or margin sales. Investments in cash equivalents, fixed income securities, equity securities, and mutual funds are done in a diversified manner that is risk averse with an objective to minimize risk while obtaining a reasonable return.

The following indicates the credit rating of corporate bonds as of June 30, 2020:

	weighted-					
	Average					
	Duration				Rating	
	(Years)	Fair Value	AAA	Aa1-Aa3	A1-A3	Baa1-Baa3
Corporate Bonds	4.75	\$ 1,905,308	70,239	267,671	1,099,907	467,491
U.S. Agency Securities	16.05	\$ 456,848	456,848			

LAIF is a voluntary program created by statute as an alternative for California's local governments and special districts that allows them to participate in a major investment portfolio. It is under the administration of the California State Treasurer's Office. There are no significant interest rate risks or credit risks to be disclosed in accordance with GASB Statement No. 40, Deposit and Investment Risk Disclosures—an amendment of GASB Statement No. 3.

B. Fair Value Measurement and Application

147 - ! -- |- 4 - -|

GASB Statement No. 72 Fair Value Measurement and Application, sets forth the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

NOTE 3 INVESTMENTS (CONTINUED)

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The valuation technique utilized to measure the investments is the market approach using prices and other relevant information generated by market transactions involving identical or comparable assets.

Money Market Funds are not categorized under the fair value hierarchy and are shown at Net Asset Value (NAV). These investments are measured at amortized cost when calculating NAV per share (or its equivalent) of the investment.

The value of the Foundation's investment in the CSU Consolidated Investment Pool is measured using NAV per share as reported by the Pool. The following table shows the investments by the fair value level as of June 30, 2020:

			Fair Value Measurements Using				g	
			Qı	uoted Prices	,	Significant		
				in Active		Other		
			ľ	Markets for	C	Observable	1	Net Asset
			lde	entical Assets		Inputs		Value
	Jur	ne 30, 2020		(Level 1)		(Level 2)		(NAV)
Equity securities	\$	9,850,038	\$	9,850,038	\$	-	\$	-
Mutual funds		2,609,573		-		2,609,573		-
Corporate bonds		1,905,308		-		1,905,308		-
U.S. treasury securities		1,488,628		-		1,488,628		-
CSU Consolidated Investment Pool		1,076,401		-		-		1,076,401
Municipal bonds		846,954		-		846,954		-
Local agency investment fund		606,724		-		-		606,724
U.S. agency securities		456,848				456,848		
Surplus money investment fund		23				-		23
Total Leveled Investments	\$	18,840,497	\$	9,850,038	\$	7,307,311	\$	1,683,148

C. Custodial Credit Risk

Custodial credit risk for deposits is the risk that the Foundation will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party. The California Government Code and Education Code do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the provision that a financial institution must secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The risk is mitigated in that the Foundation's deposits are maintained at financial institutions that are fully insured or collateralized as required by state law.

NOTE 3 INVESTMENTS (CONTINUED)

D. Interest Rate Risk

Interest rate risk is the risk of loss due to the fair value of an investment falling due to rising interest rates. As a means of limiting its exposure to fair value losses from rising interest rates, short-term investments are limited to relatively liquid instruments such as certificates of deposit, savings accounts, Federally-guaranteed notes and bills, money market mutual funds, SMIF, or LAIF. Interest rate risk is mitigated by ensuring sufficient liquidity to meet cash flow needs and only then investing in longer-term securities. There is no interest rate risk for money market mutual funds as they are available on demand.

E. Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. In order to maximize the rate of return in the Foundation's long-term investment portfolio while preserving capital and limiting concentration of credit risk, the Foundation's investment policy dictates a diverse asset allocation as follows: domestic equities (20-50%), international equities (20-40%), fixed income (15-40%), and alternatives (0-20%). An investment consultant is provided with a maximum and minimum portfolio target for each asset class to ensure proper diversification and to avoid unnecessary risk. U.S. Treasury and Agency securities are not subject to this limitation. Less than 4% of Foundation's investments are in Allianz Fixed Income.

NOTE 4 ACCOUNTS RECEIVABLE

Accounts receivable, net, consist of the following at June 30, 2020:

Sponsored programs	\$ 3,912,193
Other receivables	 59,558
Subtotal	 3,971,751
Less: Allowance for doubtful accounts	 (3,501)
Total	\$ 3,968,250

NOTE 5 CAPITAL ASSETS

Capital assets' activity for the year ended June 30, 2020 consists of the following:

		Retirements/				
	June 30, 2019	Additions	Transfers	June 30, 2020		
Buildings	\$ 7,649,921	\$ -	\$ -	\$ 7,649,921		
Furniture, fixtures, and equipment	525,875	=	-	525,875		
Land	35,000			35,000		
Total	8,210,796	=	-	8,210,796		
Less: Accumulated depreciation	(4,210,407)	(149,828)		(4,360,235)		
Capital assets, net	\$ 4,000,389	\$ (149,828)	\$ -	\$ 3,850,561		

NOTE 6 LONG-TERM DEBT OBLIGATIONS

In 1998, the Foundation issued \$5,760,000 in bonds to serve as refunding bonds for a 1994 bond issue, funds that were used to pay for the construction cost of the bookstore building. In 2013, the Foundation entered into a loan agreement with the Trustees of the California State University (CSU) to borrow proceeds from SRB Series 2013A to pay off the 1998 bonds. Payments of principal are made annually, and payments of interest are made semiannually. The interest rate range of the bonds is between 1.50% and 5.00%. The bonds mature May 2025.

Bonds payable activity for the year ended June 30, 2020 consists of the following:

		Balance						Balance	Current
Description	Ju	ne 30, 2019	Add	ditions	R	etirements	Ju	ne 30, 2020	Portion
Systemwide Revenue				,					
Bonds 2013A	\$	1,645,000	\$	-	\$	(245,000)	\$	1,400,000	\$ 250,000
Premium on SRB 2013A		180,486		-		(33,841)		146,645	
Total	\$	1,825,486	\$	-	\$	(278,841)	\$	1,546,645	\$ 250,000

Premium on SRB 2013A is amortized \$33,841 per annum using straight-line method over the life of the loan agreement. Principal and interest payments for the Systemwide Revenue Bonds are due as follows:

Year(s) ending June 30,	Principal	 Interest	Total
2021	\$ 250,000	\$ 63,150	\$ 313,150
2022	265,000	50,475	315,475
2023	280,000	37,000	317,000
2024	295,000	22,775	317,775
2025	 310,000	7,750	317,750
Total	\$ 1,400,000	\$ 181,150	\$ 1,581,150

NOTE 7 PENSION

A. General Information About the Pension Plan

Plan Description

The Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (the Plan or PERF C) is administered by the California Public Employees' Retirement System (CalPERS). A full description regarding the number of employees covered, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information for the respective rate plan is listed in the respective rate plan's June 30, 2018 Annual Valuation Report (funding valuation). Details of the benefits provided can be obtained in Appendix B of the funding valuation report. This report and CalPERS' audited financial statements are publicly available reports that can be found on CalPERS' website at https://www.calpers.ca.gov/page/forms-publications.

NOTE 7 PENSION (CONTINUED)

Contributions

In January 2013, the California Public Employees' Pension Reform Act (PEPRA) took effect which changes the way CalPERS retirement benefits are applied, and places compensation limits on members. Individuals hired on or after January 2013 are under PEPRA. All members who do not fall under this category are considered classic members. Classic members will retain existing benefit levels for future service with the same employer.

Section 20184(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public agency employers be determined on an annual basis by the actuary and shall be effective on the July 1 following the notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. For public agency cost-sharing plans covered by either the Miscellaneous or Safety risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pools' costs of benefit earned by employees during the year, and any unfunded accrued liability. The Foundation is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the measurement period ended June 30, 2019 (the measurement date), the Foundation contributed \$-0- for active employees as the Foundation no longer has active employees. The Foundation contributed \$500,528 to the required employer contribution of the unfunded liability as of June 30, 2020.

Actual Methods and Assumptions Used to Determine Total Pension Liability

The collective total pension liability for the June 30, 2019 measurement period was determined by an actuarial valuation as of June 30, 2018, with update procedures used to roll forward the total pension liability to June 30, 2019. The collective total pension liability was based on the following assumptions:

Actuarial Assumptions:

Investment Rate of Return 7.15% Inflation 2.50%

Salary increases Varies by Entry Age and Service

Mortality rate table Derived using CalPERS' Membership Data for all Funds
Post-retirement benefit Contract COLA up to 2.50% until Purchasing Power
Increase Protection Allowance Floor on Purchasing Power applies

NOTE 7 PENSION (CONTINUED)

The mortality table used was developed based on CalPERS-specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. All other assumptions used in the June 30, 2018 valuation were based on the results of an actuarial experience study for the period 1997 to 2015, including updates to salary increases, mortality, and retirement rates. Further details of the Experience Study can be found on the CalPERS' website.

Discount Rate

The discount rate used to measure the total pension liability for PERF C was 7.15%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Investment Rate of Return

The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all of the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both the short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses.

NOTE 7 PENSION (CONTINUED)

The expected real rates of return by asset class are as follows:

	Assumed Asset	Real Return	Real Return
Asset Class	Allocation	Years 1-10 ¹	Years 11 + ²
Global Equity	50.00%	4.80%	5.98%
Fixed Income	28.00%	1.00%	2.62%
Inflation Assets	0.00%	0.77%	1.81%
Private Equity	8.00%	6.30%	7.23%
Real Assets	13.00%	3.75%	4.93%
Liquidity	1.00%	0.00%	-0.92%

¹ An expected inflation of 2.00% used for this period.

Allocation of Net Pension Liability and Pension Expense to Individual Plans

A key aspect of the GASB Statement No. 68 pertaining to cost-sharing employers is the establishment of an approach to allocate the net pension liability and pension expense to the individual employers within the risk pool. Paragraph 49 of GASB Statement No. 68 indicated that for pools where contribution rates within the pool are based on separate relationships, the proportional allocation should reflect those relationships. The allocation method utilized by CalPERS determines the employer's share by reflecting these relationships through the plans they sponsor within the risk pool. Plan liability and asset-related information are used where available, and proportionate allocation of individual plan amounts as of the valuation date are used where not available.

Amortization of Deferred Outflows and Deferred Inflows of Resources

Under GASB Statement No. 68, actuarial gains and losses related to changes in total pension liability and fiduciary net pension are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and inflows of resources related to pensions and are to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

Net Difference between 5-Year Straight-Line Amortization
Projected and Actual
Investment Earnings on
Pension Plan Investments

All Other Amounts Straight-Line Amortization over the Expected Average

Remaining Service Lifetime (EARSL) of all Members that are Provided with Pensions (Active, Inactive, and Retired)

as of the Beginning of the Measurement Period.

² An expected inflation of 2.92% used for this period.

NOTE 7 PENSION (CONTINUED)

The Net Difference between Projected and Actual Investment Earnings on Pension Plan Investments is amortized over a five-year period on a straight-line basis. One-fifth is recognized in pension expense during the measurement period, and the remaining Net Difference between Projected and Actual Investment Earnings on Pension Plan Investments at the measurement date is to be amortized over the remaining four-year period.

Deferred Outflows of Resources and Deferred Inflows of Resources relating to the Difference between Expected and Actual Experience, Changes of Assumptions, and employer-specific amounts should be amortized over the Expected Average Remaining Service Lifetime (EARSL) of members provided with pensions through the Plan. The EARSL for PERF C was obtained by dividing the total service years of the sum of remaining service lifetimes of all active employees by the total participants: active, inactive, and retired in PERF C. Inactive employees and retirees have remaining service lifetimes equal to 0. Total future service is based on the members' probability of decrementing due to an event other than receiving a cash refund.

The appropriate treatment of the employer-specific amounts such as changes in proportion, differences between actual employer contributions and employer's proportionated shares of contributions, and employer contributions to PERF C subsequent to the measurement date as defined in GASB Statement No. 68 paragraphs 54, 55, and 57 is the responsibility of the employers.

B. Changes in the Plan's Proportionate Share of Net Pension Liability

The following table shows the Plan's proportionate share of the risk pool collective net pension liability over the measurement period of June 30, 2019:

Ingrance (Degraces)

		increase (Decrease)						
		Plan Total	PI	an Fiduciary		Plan Net		
	Per	Pension Liability		Pension Liability Net Per		let Pension	Per	nsion Liability
Balance at: 6/30/18 (VD)	\$	17,908,786	\$	13,085,960	\$	4,822,826		
Balance at: 6/30/19 (MD)		19,710,670		14,496,936		5,213,734		
Net Changes	\$	1,801,884	\$	1,410,976	\$	390,908		

NOTE 7 PENSION (CONTINUED)

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 7.15%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.15%) or 1 percentage-point higher (8.15%) than the current rate:

		Current	
	Discount Rate	Discount Rate	Discount Rate
	-1% (6.15%)	(7.15%)	+1% (8.15%)
Plan's Net Pension Liability	\$ 7,864,880	\$ 5,213,735	\$ 3,025,401

C. Pension Expense and Deferred Outflows and Deferred Inflows of Resources

For the measurement period ended June 30, 2019 (the measurement date), the Foundation incurred a pension expense of \$1,303,681 (the pension expense for the risk pool for the measurement period is \$943,590,814).

As of the measurement date June 30, 2019, the Foundation reports other amounts for the Plan as deferred outflows and deferred inflows of resources related to pension as follows:

		Deferred		Deferred
	O	utflows of	Ir	nflows of
	R	esources	R	esources
Changes in assumptions	\$	248,615	\$	(88,132)
Differences between Expected and				
Actual Experience		362,116		(28,057)
Differences between Projected and Actual				
Investment Earnings		-		(91,152)
Differences between Employer's Contributions and				
Proportionate Share of Contributions		-		(248,161)
Change in Employer's Proportion		4,284		(100, 178)
Pension Contributions Made Subsequent to				
Measurement Date		500,528		-
Total	\$	1,115,543	\$	(555,680)

NOTE 7 PENSION (CONTINUED)

C. Pension Expense and Deferred Outflows and Deferred Inflows of Resources (continued)

Pension contribution made subsequent to measurement date in the amount of \$500,528 will be recognized in the following measurement period. Amounts reported as deferred outflows and deferred inflows of resources related to pension, other than the employer-specific items, will be recognized as future pension expense as follows:

	Deferred		
	Outflo	ows/(Inflows)	
Measurement Period(s) Ended June 30,	of F	Resources	
2021	\$	157,391	
2022		(122,137)	
2023		5,662	
2024		18,419	
2025		-	
Thereafter		-	
	\$	59,335	

NOTE 8 OTHER POSTEMPLOYMENT BENEFITS (OPEB)

A. Plan Description

The Foundation sponsors a single-employer post-retirement healthcare plan, which covers substantially all full-time, central staff employees of the Foundation. This plan provides lifetime medical benefits to retirees who have attained age 50 with 5 years of service. Spouses and dependents of eligible retirees are also eligible for life. During the year ended June 30, 2009, the plan was amended to provide lifetime medical benefits to retirees who have attained the age of 50 with 10 years of service. The Foundation has the authority to establish and amend benefit provisions of the Plan. The Plan does not issue a separate, publicly available report.

For the year ended June 30, 2020, the Foundation's share of the monthly medical premiums was limited to \$767 (single), \$1,461 (two parties), and \$1,868 (three or more parties). Retirees are responsible for premiums in excess of the Foundation's share. In addition, retirees are charged 10% of the Foundation's share of dental and vision.

The Foundation contributes annually based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits. The Foundation did not make any contribution to the Plan for the year ended June 30, 2020.

NOTE 8 OTHER POSTEMPLOYMENT BENEFITS (OPEB) (CONTINUED)

B. Employees Covered

As of the June 30, 2020 actuarial valuation, the following current and former employees were covered by the benefit terms under the postretirement healthcare plan:

Active employees	-
Inactive employees or beneficiaries currently	
receiving benefits	37
Inactive employees entitled to, but not yet	
receiving benefits	
Total	37

C. Net OPEB Liability

Foundation's net OPEB liability was measured as of June 30, 2020 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2020.

Actuarial Assumptions

Net Investment Return 7.00%, based on the Stand-Alone VEBA investment policy.

Inflation 2.26% annual inflation assumed.

Payroll increases 3.25% annual increases.

Administrative Expenses The administrative expense was \$618 for the

measurement period ending June 30,2020.

Dental Trend 4% per year

Vision Trend 4% per year

Pre-Excise Tax Health Care Trend

NOTE 8 OTHER POSTEMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Long-Term Expected Rate of Return – as of June 30, 2020, the long-term expected rates of return for each major investment class in the Plan's portfolio are as follows:

		Long-Term
	Target	Expected Real
Investment Class	Allocation	Rate of Return ¹
Equity	63.00%	5.07%
Fixed Income	35.00%	1.70%
REITs	0.00%	5.06%
Cash	2.00%	0.00%

¹JPMorgan arithmetic Long Term Capital Market assumptions and expected inflation of 2.26%.

The above table shows the target asset allocation in the Stand-Alone VEBA investment policy.

D. Discount Rate

The discount rate is based on a blend of the long-term expected rate of return on assets for benefits covered by plan assets and a yield or index for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or better for benefits not covered by plan assets.

The table in the previous page shows the arithmetic long-term expected real rates of return by asset class for the next 10 years as provided in a report by JP Morgan. For years thereafter, returns were based on historical average index real returns over the last 30 years assuming a similar equity/fixed investment mix and a 2.26% inflation rate. Investment expenses were assumed to be 10 basis points per year. These returns were matched with cash flows for benefits covered by plan assets and the Bond Buyer 20-Bond General Obligation index was matched with cash flows not covered by plan assets to measure the reasonableness of the choice in discount rate.

	June 30, 2020	June 30, 2019
Discount Rate	7.00%	7.00%
Bond Buyer 20-Bond GO Index	3.50%	3.87%

E. Changes in the OPEB Liability

The changes in the net OPEB liability for the postretirement plan are as follows:

		Total OPEB Liability (a)	Plan Fiduciary Net Position (b)		Fiduciary OPEB Net Position Liability/(Asset)	
Balance - June 30, 2019						
(Valuation Date June 30, 2020)	\$	3,548,379	\$	2,299,244	\$	1,249,135
Changes recognized for the measurement period:						
Service cost		-		-		-
Interest		239,372		-		239,372
Differences between expected and actual						
experience		(63,695)				(63,695)
Changes of assumptions		(163,313)		-		(163,313)
Contributions - employer		-		-		-
Net investment income		-		34,154		(34,154)
Benefit payments		(262,008)		(262,008)		-
Administrative expenses				(618)		618
Net changes		(249,644)		(228,472)		(21,172)
Balance - June 30, 2020	-					
(Measurement Date June 30, 2020)	\$	3,298,735	\$	2,070,772	\$	1,227,963

F. Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the Foundation's net OPEB liability if it were calculated using a discount rate that is 1% point lower (6.00%) or 1% point higher (8.00%) than the current rate, for measurement period ended June 30, 2020:

		Current	
	1% Decrease	Discount Rate	1% Increase
	(6.00%)	(7.00%)	(8.00%)
Net OPEB Liability	\$ 1,512,336	\$ 1,227,963	\$ 980,754

G. Sensitivity of the Net OPEB Liability to Changes in the Trend Rate

The following presents the Foundation's net OPEB liability if it were calculated using a trend table that is 1% point lower or 1% point higher than the current rate, for measurement period ended June 30, 2020:

	Current					
	_ 1%	Decrease	Dis	scount Rate	19	6 Increase
Net OPEB Liability	\$	988,138	\$	1,227,963	\$	1,498,814

NOTE 8 OTHER POSTEMPLOYMENT BENEFITS (OPEB) (CONTINUED)

H. Recognition of Deferred Outflows and Deferred Inflows of Resources

Gains and losses related to the changes in total OPEB liability is recognized in OPEB expense systematically over time.

Amounts are first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are recognized in future OPEB expense.

The recognition period differs depending on the source of gain or loss:

Net Difference Between
Projected and Actual
Earnings on OPEB Plan
Investments

5-Year Straight-Line Amortization

All Other Amounts Straight-Line Amortization over Average Future

Working Lifetime, Averages over all Active and Retirees

(Retirees Assumed no Working Hours)

I. OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2020, Foundation recognized OPEB expense of \$96,301. As of fiscal year ended June 30, 2020, Foundation reported deferred outflows of resources related to OPEB from the following sources:

	Oi	Deferred utflows of esources	Inflo	erred ows of ources
Differences between expected and				
actual experience	\$	-	\$	-
Changes in assumptions		-		-
Net difference between projected and				
actual earnings		142,347		-
Contribution to OPEB plan after measurement				
date		-		-
Total	\$	142,347	\$	

NOTE 8 OTHER POSTEMPLOYMENT BENEFITS (OPEB) (CONTINUED)

Amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

	Deferred		
	Out	flows of	
Fiscal Year Ended June 30	Re	sources	
2021	\$	42,628	
2022		42,626	
2023		33,540	
2024		23,553	
2025		-	
Thereafter			
Total	\$	142,347	

NOTE 9 DESIGNATED NET POSITION

Unrestricted net position designated by the Board for the following purposes at June 30, 2020:

Working capital and sponsored programs	\$ 3,284,546
Capital replacement	100,000
Planned future operations	100,000
Total	\$ 3,484,546

NOTE 10 TRANSACTIONS WITH AFFILIATES

The Foundation enters into transactions with the University and other auxiliaries: Associated Students, Inc. of California State University, East Bay (ASI) and Cal State East Bay Educational Foundation, Inc. (Educational Foundation) (collectively known as the "Auxiliaries").

The Foundation leases the land for its building for a nominal annual fee from the state of California under an operating lease arrangement expiring on August 1, 2020. No amounts have been reflected in the financial statements for the use of the real properties, as no objective basis is available to measure the relative value.

During the year ended June 30, 2020, the Foundation received \$68,139 for professional services provided to the University. The Foundation paid \$6,497,590 to the University for professional fees.

In addition, amounts due to the University at June 30, 2020 was \$2,705,666.

NOTE 11 FUNCTIONAL ALLOCATION OF EXPENSES

The costs of providing the various programs and other activities have been summarized on a functional basis in the schedule of revenues, expenses, and changes in net position. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

NOTE 12 CONTINGENCIES

The Foundation has grants and contracts with government agencies which are subject to audit. No provision has been made for any liabilities that may arise from such audits since the amounts, if any, cannot be determined. Management believes that any liability which may result from these audits is not material.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC. REQUIRED SUPPLEMENTARY INFORMATION YEAR ENDED JUNE 30, 2020

SCHEDULES OF REQUIRED SUPPLEMENTARY INFORMATION – PENSION

Schedule of the Plan's Proportionate Share of Net Pension Liability and Related Ratio in Relation so PERF C¹

Net Pension liability and fiduciary net position are allocated to the plan based on its proportion of the Miscellaneous Risk Pool. However, GASB Statement No. 68 requires that employers report certain proportions as percentage of the total plan (PERF C, excluding the 1959 Survivors Risk Pool), which includes both the Miscellaneous and Safety Risk Pools. All cost-sharing public agency plans, are categorized as either Miscellaneous or Safety within PERF C. Therefore, to assist employers in meeting the requirements of GASB 68, proportions shown in the table below represent the plan's proportion of PERF C, excluding the 1959 Survivors Risk Pool, and not its proportion of the Miscellaneous Risk Pool.

		2019	2018	 2017	 2016	 2015	 2014
