

1.0 Overview

By default, most web browsers open linked or downloaded PDF files within the browser window. Use this guide to change the Adobe Reader Internet preferences so that PDF links and files are viewed with Adobe Reader instead of the web browser.

2.0 Main Steps

1. Open Adobe Reader.
2. Click Edit.
3. Click Preferences at the bottom of the list.
4. Go to the Internet section.
5. Uncheck Display PDF in Browser.

6. Click OK
7. Close Adobe Reader.

3.0 Support

- Additional CSU East Bay documentation can be found at: www.csueastbay.edu/training
- Send questions to the Service Desk via a ticket at: www.csueastbay.edu/servicedesk
