

Learning Outcomes
Department of Kinesiology
California State University, East Bay
March 13, 2013

- **Content Knowledge** – Students will demonstrate foundational knowledge and skills related to the broad domain of physical activity, and will have the ability to apply perspectives from the humanities and the social, behavioral, and life sciences.
- **Professional Application** – Students will be able to identify and integrate relevant information to design, act, and evaluate within disciplinary practice.
- **Critical Thinking** – Students will demonstrate critical thinking skills when evaluating situations, questions, and issues related to physical activity.
- **Communication Skills** – Students will be able to use appropriate, relevant, and compelling content to articulate physical activity issues in both oral and written forms.
- **Professionalism and Ethics** – Students will demonstrate professional dispositions--such as integrity, personal and cultural sensitivity, collaboration, and leadership--and will be committed to social justice for physical activity participants.
- **Commitment to Life-Long Physical Activity** – Students will be able to articulate the importance of a commitment to life-long physical activity for all.
