

Thank You

Thank you to the individuals and organizations who have generously donated to the Math Department during the 2019 - 2020 academic year. We would especially like to thank the families whose ongoing support through the years has allowed us to offer the named scholarships below.

As we end this extraordinary academic year, we would like to express our deep gratitude to the students, staff, faculty, and friends who have worked together to create a community of learners that is supportive and that works collaboratively to achieve the goals of our university. We never could have predicted how very important it would be to have established relationships and connections to carry us through these unpredictable and difficult times. As we move into the summer and then the fall with still so much unknown, we intend to continue to support each other, to ask questions, to challenge ourselves to find creative solutions, and to think deeply about how to continue on our path of offering a quality higher education for all students.
