

Accessibility Roadmap Template

Background

The CSU is committed to ensuring that its programs and services are accessible to everyone. As part of this commitment, the CSU's Accessible Technology Initiative gathers information regarding technology products to assess whether they are usable by persons with disabilities. Gathering this information is critical as it provides the CSU sufficient knowledge to plan for workarounds or accommodations that may be necessary until the vendor has resolved accessibility issues. This information also allows the CSU to select products that provide strong accessibility support and therefore reduce or eliminate the need to provide accommodations to work around accessibility gaps.

Instructions

The CSU recognizes that producing accessible technology products may require a significant commitment of resources and that accessibility remediation may require time to accomplish. Thus the CSU ATI has developed this template as means for vendors to document accessibility gaps associated with their products and to indicate their plans for addressing these gaps in the future.
