Overview
This document navigates you through the various pieces of employee self service using the MyCSUEB portal (http://my.csueastbay.edu). Using the portal makes navigation simple and is recommended for most users. However, you may also use employee self service in the native PeopleSoft production HR/SA environment (HEBPRD). Another business process guide is available to navigate you through these pieces in the native PeopleSoft environment.
Notice about the new version of PeopleSoft
All page shots used in this guide are from the previous version of PeopleSoft (HCM 8.9). Please be advised that from the fourth week of February 2012, we are using the new version of PeopleSoft (HCM 9.0) and you may experience a difference in the way the new pages look and feel.

In the new version of PeopleSoft (HCM 9.0), the format of how the Main Menu expands has changed, but the actual navigation path and functionality has not changed. See the sample page shot.

Other minor changes include the following:

- Improved color scheme
- New look for Processing and Save indicators
- Pop-up Search Window and Edit Boxes
- Number of Search Results Option
- Type Ahead Matching
