- Bookings for airfare and rental cars completed thru the Certify system or Global Travel or Enterprise must show a credit card number in the transaction “details” column.
- If no credit card number displays, **disapprove** as employee needs to merge receipt with original credit card transaction (wallet will show a credit card icon).

Note that you can also click on the **blue** details arrow to reveal this same information.
Approving an Expense Report

- A 🟢 in the Details column possibly means the expense may fall outside CSUEB travel procedures and regulations.
- Please be familiar with the Travel Policy and other related policies as the warning flag will not catch all compliance issues.
- Also review the Reason Box for explanation and any provided documentation. The travel policy does have some allowable variances from the standard needs. If this is allowable, per policy, approve if this is truly an exception to the policy. Evidence of Department Approval should be attached.
