

Jeanne Clery Act
2017
ANNUAL FIRE SAFETY REPORT

Fire Safety Programs and Policies
For 2014-2016

PREPARED BY:
The Campus ASR Team
California State University - East Bay

1. CSU East Bay Annual Fire Safety Report	1
1.1 Fire Safety and Training Programs	1
1.2 Fire Response Procedures.....	1
1.3 Emergency Evacuation Procedures.....	2
1.4 Evacuation Drills.....	2
1.5 Student Housing Fire Safety Policies.....	3
1.6 Smoking.....	4
1.7 Future System Improvement / Upgrades	4
There are no system improvements or upgrades planned for 2017/2018.	4
1.8 CSUEB Student Housing Fire Safety Systems	5
1.9 CSUEB Fire Statistics and Information	6
1.10 CSUEB Fire Statistics and Information	7
1.11 CSUEB Fire Statistics and Information	8

1. CSU East Bay Annual Fire Safety Report

The University publishes an annual Fire Safety Report, which can also be found at:

<http://www.csueastbay.edu/af/departments/upd/files/pdf/2017-Annual-Fire-Report.pdf>. The Fire Safety Report statistics are specific to on-campus student housing facilities – Pioneer Heights and University Village.

1.1 Fire Safety and Training Programs

All Resident Advisors and professional staff are trained on proper fire evacuation and emergency procedures by the Housing and Residence Life Department, CSUEB Emergency Preparedness Coordinator and the Department of Environmental Health & Safety at the beginning of each academic year. The CSUEB's emergency preparedness coordinator and Environmental Health & Safety, in collaboration with an independent contractor, Assured Fire, conduct fire suppression training with the Resident Advisors utilizing fire extinguishers and a controlled fire burn. At the beginning of each quarter, Resident Advisors have floor meetings where they discuss proper fire evacuation procedures are discussed with the residents. On the back of the door in each dorm room, apartment or suite an emergency information sheet is posted which delineates what to do in the event of a fire and what to do when an earthquake occurs. The emergency information sheet also includes a map of the building with evacuation points and emergency exits delineated as well as a map of the entire housing complex with evacuation points and emergency exits.

1.2 Fire Response Procedures

- A. If you see fire or smoke, gather the following information and dial 911 from a campus phone, cell phone, or directly from a Blue Light emergency phone. Identify yourself and report the following:
 - a. Building name and address
 - b. Room/location of fire
 - c. Type of fire
 - d. Smoke or flame
 - e. Smoke odor

- B. For minor fires such as smoke in a waste basket, dial 911 , then locate the fire extinguisher and:
 - **P** - *PULL* safety pin from handle
 - **A** - *AIM* nozzle at base of fire
 - **S** - *SQUEEZE* the trigger handle
 - **S** - *SWEEP* from side to side (watch for re-flash)

Remember – Do not try to extinguish the fire yourself unless it is small, contained and safe to do so.

- C. For large fires, dial 911 while you evacuate the building and pull a fire alarm. If you are the last person out of a room, close the door behind you - DO NOT LOCK THE DOOR.
- D. If you become trapped inside a building during a fire:
 - a. Dial 911
 - b. Tell them your location and that you need Fire Department assistance to get out.
 - c. Stay near a window and close to the floor.
 - d. If possible, signal for help.

1.3 Emergency Evacuation Procedures

The manner in which CSU East Bay conducts emergency operations on campus is governed by State and Federal legislation. The ability to declare a campus State of Emergency is governed by CSUEB policy. The President has the authority to declare a State of University Emergency. Usually, such a declaration will be made upon the recommendation of the emergency operations center with the advice of the Chief of Police and other administrators. The CSUEB Emergency Operations Plan fulfills the University's responsibilities to adhere to the:

- Standardized Emergency Management System (SEMS).
- Incident Command System (ICS).
- National Incident Management System (NIMS).

On the back of the door in each dorm room, apartment or suite an emergency information sheet is posted which delineates what to do in the event of a fire and what to do when an earthquake occurs. The emergency information sheet also includes a map of the building with evacuation points and emergency exits delineated as well as a map of the entire housing complex with evacuation points and emergency exits.

1.4 Evacuation Drills

Training, drills, and exercises are conducted in a no-fault learning environment wherein systems and processes, not individuals, are evaluated. An After Action Report will be written after a training, exercise and/or drill. The After Action Report results will provide an opportunity to identify weaknesses, enhance strengths and improve capabilities. In addition to educating the occupants of the building about the evacuation procedures during the drills, the process also provides the university an

opportunity to test the operation of the fire alarm system components. Drills may be announced or unannounced and after action and corrective action reports which are designed for assessment and evaluation of emergency plans and capabilities are completed after each drill. CSUEB will publish a summary of its emergency response and evacuation procedures in conjunction with at least one drill or exercise each calendar year.

Because CSUEB tests emergency plans, skills, resources, and relationships in response to a dynamic homeland security environment, drills and/or exercises may result in multiple findings and recommendations for improvement. The CSUEB emergency coordinator will ensure CSUEB employees are aware of this plan, and are trained to the levels required by the guiding directives in SEMS and relevant national plans. Current training requirements include ICS (ICS 100, ICS 200), SEMS, and NIMS (IS 700) as required by State and Federal guidelines. The emergency coordinator will inform CSUEB Emergency Operation Center Staff of training opportunities associated with emergency management. Those with responsibilities under this plan must ensure their personnel are properly trained to carry out these responsibilities.

The schedule of training, drills, and exercises follows:

- **Campus Evacuation Drill:** Simulate day and night evacuation drills in an effort to ensure the safe evacuation and account for staff, faculty, students and the general public.
- **Frequency:** Campus drills are usually held in Fall and Spring

1.5 Student Housing Fire Safety Policies

The CSUEB Student Housing policies pertaining to portable electrical appliances, smoking, and open flames in a student housing facility are as follows. The following constitutes a list of violations that could result in prosecution and/or fines:

- a. **Combustible Material Storage:** The storage of combustible materials (gasoline, paint thinner, wax etc.) within the residential facility, including resident rooms /suites /apartments, is not permitted.
- b. **Fire Alarm/Drill:** All residents and guests must evacuate a residential facility immediately when the fire alarm sounds. Those who do not evacuate are in violation of University policy and State fire code and may result in a citation from UPD or the Hayward Fire Department and/or being referred to the Student Housing judicial system.
- c. **Fire Safety Equipment:** Residents are responsible for familiarizing themselves with the evacuation instructions located on the inside of their room/suite/apartment door. If the

instructions are missing or illegible, the Residential Life Coordinator should be contacted immediately to have a new one installed. Residents are required to initial that they have been shown the evacuation instructions on the room/apartment inventory form at check-in. The following misuses of fire safety equipment are considered violations of policy and will result in judicial and/or legal action (\$1,000.00 fine and up to 6 months in prison): pulling fire alarms or fire alarm covers when no fire exists, blocking or propping fire doors, blocking fire stairs, tampering with smoke detectors, tampering with alarm horns, strobes, enunciator or bells, misuse or tampering with sprinkler system heads (including, but not limited to, hanging items from sprinkler heads), tampering with fire exit signs, and tampering or improper use of fire extinguishers or fire hoses. Note that each residence hall room contains a smoke detector and each apartment/suite contains a smoke detector and fire extinguisher for residents' safety. Contact the Residential Life Coordinator for additional information about fire safety or if any of your unit's fire safety equipment appears to be malfunctioning.

- d. **Open Flame:** No open flames are permitted in the residence halls or within housing property outside of designated areas without official SHRL approval. This includes, but is not limited to candles, incense, smoking, and the burning of any materials or other flame-emitted articles. Prior written approval must be obtained from the Residential Life Coordinator if this policy is incongruent with religious, cultural, or spiritual beliefs.
- e. **Portable Heaters:** The utilization of portable heaters in the residence halls is not permitted.
- f. **Halogen Lamps:** Halogen lamps/lighting, are not permitted.
- g. **Doors:** All unit doors are to be kept closed at all times due to the integrity of the rated corridors. At no time are the doors to be propped open or left ajar.

1.6 Smoking

Due to California State University policy, smoking is prohibited in all of our buildings, student rooms, residential hallways, restrooms, lounges, stairs, balconies, volleyball and basketball courts and pool areas. Residents may only smoke 20 feet away from any building. This includes the use of smoking devices such as hookah pipes.

“Effective September 1, 2017, CSUEB will be a smoke and tobacco-free campus.”

1.7 Future System Improvement / Upgrades

There are no system improvements or upgrades planned for 2017/2018.

1.8 CSUEB Student Housing Fire Safety Systems

01/01/2014 – 12/31/2016

Student Housing Fire Safety System						
Student Housing Facilities:	Fire Alarm Monitoring Done On Site	Sprinkler System	Smoke Detection	Fire Extinguisher Devices	Evacuation Plan/Placards	Number of Evac (Fire) Drills 14 '15 '16
