IMPORTANT INFORMATION: Under provisions of CSU Executive Order, Saddleback College (SC) will certify completion of up to 39 of the 48 units required in General Education for students who transfer. SC has a California regional accreditation and has been granted full institutional accreditation by the Western Association of Schools and Colleges (WASC). SC students must complete at least 30 semester units of General Education at SC before transferring to another CSU campus in order to be eligible for General Education certification. Students must include at least 9 units of upper-division coursework in order to complete General Education requirements.

No student will be eligible for General Education certification unless the student has completed at least 30 semester units of General Education at SC. The General Education certification will be based on the General Education Breadth and Proficiency requirements as listed in the catalog of the particular CSU campus to which the student transfers. The pattern of courses which Saddleback College uses to certify that the student has met the required 39-unit minimum is maintained on the reverse side of this document. Students must also complete at least 9 units of upper-division coursework after transfer at the campus granting the degree in order to complete General Education requirements.

NOTE: Prior to transfer, students must complete at least 30 transferable semester units of General Education with a grade average of "C" (2.0) or better to be eligible for General Education certification. When coursework has been taken at a regionally accredited institution that does not maintain a CSU certification list, Saddleback College can certify the coursework provided that the coursework is comparable to coursework on the approved Saddleback College General Education Breadth Certification list or that of another California community college.

Applications for admission to impacted major programs (selective majors) MUST be filed during the initial filing period. Students transferring to a CSU must have completed 60 transferable units.

The information on the front and back of this document was prepared based upon data available at the time of publication and is subject to change. Therefore, this publication does not represent a contract, but rather, a guideline. More current information can be found at www.ASSIST.org.

Students transferring to a CSU must have completed 60 transferable units. Students are strongly advised to consult with a Saddleback College counselor when planning coursework for transfer. Some CSU campuses may accept a limited number of lower-division transfer units (applicants with fewer than 60 CSU-transferable units).
