CSU GE Policy & Information

This CSU GE Plan totals approximately 39 units. A minimum of 60 CSU transferrable semester units is required for admission. You will need to complete additional coursework for your major and maybe some elective courses. Please consult ASSIST.ORG for specific major prep coursework and see a counselor to develop an Educational Plan.

- All CSU GE courses must be completed with a passing grade. A grade of "P" is acceptable if equivalent to a "C" grade.
- However, areas A1, A2, A3 and B4, must be completed with a "C-" or better.
- Courses listed in more than one CSU GE subject area may only be used for ONE area.
- Students have the option of completing IGETC to fulfill the G.E requirements for CSU. AREA 1C of IGETC must be completed for CSU admission.
- Courses may be used to satisfy both CSU GE and major requirements.

This advising form may not be the best general education preparation pathway for ALL majors (such as Engineering or Computer Science). Consult with a counselor to determine the best plan to meet your educational goals.

WARNING: Many students attend multiple California Community College campuses. If that's you, be sure to follow the CSU GE at each college of attendance. CSU policy states that CSU coursework completed in a specific subject area will be used in the same area designated by the California Community College at which the course was completed. This is also the policy if your courses are completed at more than one of the LACCD campuses.

Note: Use www.assist.org to check admission and selection for impacted majors and programs.
