CBE’s Minimum Expectations of Currency for Evaluation of Tenured Faculty

In response to the AACSB 2013 Standards, in September 2015, the faculty in the College of Business and Economics (CBE) adopted a new set of academic standards, defined in CBE’s document *Criteria for Scholarly Academics (SA), Practice Academics (PA), Instructional Practitioners (IP), and Scholarly Practitioners (SP)*.

Based on those standards, CBE and its departments expect tenured faculty to be either SA or PA for purposes of evaluation of tenured faculty. CSUEB’s *Procedures for Evaluation of Tenured Faculty* (Updated 09-10 FAC 7 rev) states that evaluation of tenured faculty “shall include consideration of the faculty member's achievement and service, including an evaluation of currency in the field, …” In light of this requirement, CBE and its departments will interpret “currency in the field” to include being SA or PA.

Adopted by the CBE Faculty vote, February 22-26, 2016.
