PROFESSIONAL CONSULTANCIES (FROM 2006 ONLY)

Alameda County Human Resource Services Department (ACHR) and Alameda County Training and Education Center (ACTEC): 2010 - Present
Working with ACHR and ACTEC to create a workforce development plan for Alameda County public employees. A significant part of the workforce development plan is to create career ladders for the public employees that are tied to educational achievement (pro bono).

Community Development and Public Service Initiative: 2009 - Present
Collaborative endeavor between a consortium of community development agencies, urban change agents, concerned citizens, and government agencies in and round the Oakland, CA area working to meet area needs relative to community revitalization. The primary efforts revolve around the development of educational programming. (pro bono).

University of San Francisco, College of Business and Professional Studies: 2009
Developed curriculum guidelines for BSHS 402: Statistics for Quality Management, one of the required courses in the BS in Health Services program. The guidelines contained course scope, course goals, learning objectives for the overall course and each individual session, course requirements, readings and homework, required textbooks and supplemental materials, student evaluation and grading criteria, and a detailed course schedule.

Golden Gate University, Ageno School of Business: 2008
Development of all online content for HSM 372 (U.S. Health Services Delivery System), for academic credit. The course consisted of sixteen sessions, the last of which was the final exam. Services included the development of a detailed course syllabus, a final exam consisting of essay and objective questions, and supplemental course materials for fifteen instructional sessions. The supplemental materials for each instructional session included: session overview, study questions, PowerPoint presentation, quiz, reading and homework assignments, discussion questions, list of web-sites to visit and questions to be answered about each web-site, mini-lecture, session learning objectives, and discussion questions.

Golden Gate University, Ageno School of Business: 2007 - 2008
Developed Health Services Management concentration within the extant MBA program. Concentration consisted of four courses, two required core courses and a choice of any two courses out of six option courses. Services included identification of eight appropriate courses for the concentration and drafting of new course documentation for all eight courses for the Committee on Academic Standards. The new documentation for each course included the proposed catalog description, indication of prerequisites, delivery format and mode, course scope, course goals, learning objectives for the overall course and each individual session, rationale for the course and impact on students, course requirements, readings and homework, required textbooks and

supplemental materials, exams and quizzes, student evaluation and grading criteria, and a detailed course schedule.
