III. Financial Portfolio Review as of December 31, 2022
Brian Sharpes reported that the portfolio’s performance is strong and there was an adjustment made to allow for ESG investments in the investment policy statement. The current market is considered unusual as both stocks and bonds are down at the same time, leading to predictions of an earnings recession, higher interest rates and increased expenses. The group remains optimistic in the long term with expectations of market recovery in 2024. In the short term, the group is cautious. FYTD performance is up by 8%, and the portfolio was well served due to its conservative balance. Overall, the portfolio is considered strong compared to others even though

the market is negative.

Brian stated they made changes to the investment policy which adds ESG language, which allows us to hire ESG managers to align with university mission and provides more flexibility. The board would like to take time to review the language and will bring to the next meeting for discussion.

V. Review FY 22/23 Budget & Reserves (Information)
Armstrong reviewed the budget and actuals as of January 31, 2023 with the board. This budget is a bit past mid year, and many expenses have been posted. We are low on commission income, generated from Chartwell’s and the bookstore, and are reflective of the declining enrollment numbers and general economic conditions. She said the remainder of expense will be coming as we move closer to year end. We are operating in deficit and will look at the reserves in the next meeting.
