INDEPENDENT AUDITORS' REPORT

Board of Directors
California State University, East Bay Foundation, Inc.
Hayward, California

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities, of the California State University, East Bay Foundation, Inc., a component unit of California State University, East Bay, as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the entity's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of the California State University, East Bay Foundation, Inc. as of June 30, 2017, and the changes in financial position and, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of funding progress of other postemployment benefits, schedule of proportionate share of the net pension liability, and the schedule of contributions as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the California State University, East Bay Foundation, Inc.'s basic financial statements. The schedule of net position, the schedule of revenues, expenses, and changes in net position, and other information as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of the California State University, East Bay Foundation, Inc., referred to above, are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 15, 2017, on our consideration of the California State University, East Bay Foundation, Inc.'s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the California State University, East Bay Foundation, Inc.'s internal control over financial reporting and compliance.

Management's Discussion and Analysis

Year Ended June 30, 2017

(Unaudited)

This section of the California State University, East Bay Foundation, Inc. (the Foundation) annual financial report includes some of management's insights and analyses of the Foundation's financial performance for the year ended June 30, 2017. This discussion has been prepared by management and should be read in conjunction with the financial statements and notes.

Overview of the Basic Financial Statements

The annual report consists of a series of financial statements prepared in accordance with the Governmental Accounting Standards Board (GASB) statement No. 35, *Basic Financial Statements - and Management's Discussion and Analysis - for Public Colleges and Universities*. This standard is applicable to the Foundation because it is a component unit of the California State University, East Bay (the University). Consistent with the University, the Foundation has adopted the business-type activity (BTA) reporting model to represent its activities.

The basic financial statements include the statement of net position; the statement of revenues, expenses, and changes in net position; and the statement of cash flows. These statements are supported by the notes to the financial statements and this section. All sections should be considered together to obtain a complete understanding of the financial picture of the Foundation.

Statement of Net Position: The statement of net position includes all assets, deferred outflows of resources, liabilities, and deferred inflows of resources of the Foundation. It is prepared under the accrual basis of accounting, whereby revenues and receivables are recognized when the service is provided and expenses and liabilities are recognized when incurred, regardless of when cash is exchanged. It also identifies major categories of restrictions on the net position of the Foundation.

Statement of Revenues, Expenses, and Changes in Net Position: The statement of revenues, expenses, and changes in net position presents the revenues earned and expenses incurred during the year on an accrual basis.

Statement of Cash Flows: The statement of cash flows presents the inflows and outflows of cash, summarized by operating, noncapital financing, capital and related financing, and investing activities. The statement is prepared using the direct method of cash flows, and therefore, presents gross rather than net amounts for the year's operating activities.

Notes to Financial Statements: The notes to financial statements provide additional information that is essential to a full understanding of the data provided in the Foundation's basic financial statements. The notes are included immediately following the basic financial statements within this report.

Analytical Overview

Summary

The following discussion highlights management's understanding of the key financial aspects of the Foundation's financial activities. Included are comparative analyses of current year and prior year's activities and balances and a discussion of restrictions of the Foundation's net position.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.
Management's Discussion and Analysis (Continued)
Year Ended June 30, 2017
(Unaudited)

The Foundation's condensed summary of net position as of June 30 is as follows:

	<u>2017</u>	<u>2016</u>
Asset:		
Current assets	\$ 22,696,712	\$ 23,166,223
Capital assets, net	4,300,584	4,450,692
Total assets	<u>26,997,296</u>	<u>27,616,915</u>
Deferred outflows of resources	<u>559,326</u>	<u>143,395</u>
Liabilities:		
Current liabilities	5,343,227	7,463,346
Noncurrent liabilities	7,332,797	6,706,831
Total liabilities	<u>12,676,024</u>	<u>14,170,177</u>
Deferred inflows of resources	<u>197,265</u>	<u>6,901</u>
Net position:		
Net investment in capital assets	1,940,560	1,840,228
Unrestricted	12,742,773	11,743,004
Total net position	<u>\$ 14,683,333</u>	<u>\$ 13,583,232</u>

Assets

Total assets decreased by \$0.6 million, or 2%, primarily due to a \$0.4 million decrease in current assets and net reduction of \$0.2 million in capital assets that is attributable to depreciation. Current assets decreased by \$0.4 million, or 2%, primarily due to a reduction in net accounts receivable in the amount of \$2.4 million offset by \$2.0 million increase in investments.

Deferred Outflows of Resources

The deferred outflows of resources related to pension increased by \$0.4 million, or 290%, primarily due to an increase in net difference between projected and actual earnings on pension plan investments in the amount of \$0.4 million.

Liabilities

Total current liabilities decreased by \$2.1 million, or 28%, primarily due to a \$2.1 million decrease accounts payable pertaining to research grants and contracts activity. Total noncurrent liabilities increased by \$0.6 million, or 9%, primarily due to the increase in net pension liability in the amount of \$0.8 million, offset by the recognition of current portion of long-term debt in amount of \$0.2 million.

Deferred Inflows of Resources

The deferred inflows of resources increased by \$0.2 million, or 2758%, primarily due to an increase in changes in assumptions and net difference between projected and actual earnings on pension plan investments in amount of \$0.2 million.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.
Management's Discussion and Analysis (Continued)
Year Ended June 30, 2017
(Unaudited)

Net Position

Total net position increased by \$1.1 million, or 8%, as a result of net operating loss of \$0.9 million offset by net nonoperating revenue of \$2.2 million for the current year. Unrestricted net position represents all other net resources available for the Foundation's general purposes.

Operating Results

The Foundation's condensed summary of revenues, expenses, and changes in net position for the years ended June 30 is as follows:

	2017	2016
Operating revenues:		
Research grants and contracts	\$ 10,721,029	\$ 14,292,483
Commercial services	537,268	607,016
Management fees	148,256	233,765
Other income	-	5,000
Total operating revenues	11,406,553	15,138,264
Operating expenses:		
Cost of research	10,721,029	14,292,483
Other auxiliary enterprise expenses	1,409,979	(129,784)
Depreciation	150,108	156,754
Total operating expenses	12,281,116	14,319,453
Operating income (loss)	(874,563)	818,811
Nonoperating revenues (expenses)	1,974,664	(264,059)
Increase in net position	1,100,101	554,752
Net position at beginning of year	13,583,232	13,028,480
Net position at end of year	\$ 14,683,333	\$ 13,583,232

Operating Revenues

Operating revenues decreased by \$3.7 million, or 25%, primarily due to a decrease in research grants and contracts revenue in amount of \$3.6 million. This decrease is attributable to lower activity in research grants and contracts as several programs are approaching the expiration date or closed during the fiscal year. Revenue from grants and contracts is recognized when expensed for the purpose specified; therefore, when program activity declines, these revenues also decline.

Operating Expenses

Operating expenses decreased by \$2.0 million, or 14%, primarily due to a \$3.6 million decrease in research grants and contracts spending as several programs are approaching the expiration date or closed during the fiscal year. The decrease is offset by an increase in other auxiliary enterprise expenses. Other auxiliary

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.
Management's Discussion and Analysis (Continued)
Year Ended June 30, 2017
(Unaudited)

enterprise expenses increased by \$1.5 million, primary due to an increase in pension expense and net pension liability adjustment.

Nonoperating revenues (expenses)

Nonoperating revenues (expenses) primarily consist of interest expense offset by investment earnings. The increase of \$2.2 million in nonoperating revenues (expenses) is a result of increase in net investment earnings.

Changes in Capital Assets

Capital assets, net of accumulated depreciation, totaled \$4.3 million and \$4.4 million as of June 30, 2017 and 2016, respectively. The following table summarizes the changes in capital assets as of June 30:

	<u>2017</u>	<u>2016</u>
Capital assets:		
Buildings	\$ 7,649,921	\$ 7,649,921
Furniture, fixtures, and equipments	525,875	525,875
Land	35,000	35,000
Total capital assets	<u>8,210,796</u>	<u>8,210,796</u>
Less: accumulated depreciation	<u>(3,910,212)</u>	<u>(3,760,104)</u>
Capital assets, net	<u>\$ 4,300,584</u>	<u>\$ 4,450,692</u>

Additional information on capital assets can be found in note 6 to the basic financial statements included in this report.

Changes in Long-term Debt

Long-term debt totaled \$2.3 million and \$2.6 million at June 30, 2017 and 2016, respectively. These amounts are comprised of bonds to fund the cost of the bookstore building. The following table summarizes the change in long-term debt as of June 30:

	<u>2017</u>	<u>2016</u>
Current portion of long-term debt	\$ 220,000	\$ 215,000
Long-term debt	<u>2,123,168</u>	<u>2,377,009</u>
	<u>\$ 2,343,168</u>	<u>\$ 2,592,009</u>

Additional information on long-term debt obligations can be found in note 7 to the basic financial statements included in this report.

Request for Information

The financial report is designed to provide a general overview of the Foundation's finances. For questions concerning any information in this report or for additional financial information, contact Debbie Chaw, Vice President of Administration and Finance/CFO, California State University, East Bay, 25800 Carlos Bee Boulevard, Hayward California 94542 or call (510) 885-3803.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements

Year Ended June 30, 2017

(1) Organization and Summary of Significant Accounting Policies

(a) Nature of Activities

The California State University, East Bay Foundation, Inc. (the Foundation), a nonprofit organization, is an auxiliary organization of California State University, East Bay (the University) and the California State University system. The Foundation's mission is to support the University's educational mission and to provide quality services that complement the instructional program. The Foundation provides augmented funding for educational-related services at the University that would not otherwise be available through or funded by the state university system. Funds are received from federal, state, and local government agencies, as well as private individuals and groups.

(b) Financial Reporting Entity

The basic financial statements include the accounts of the Foundation, including its research activities performed on behalf of the University. The Foundation is a government organization under accounting principles generally accepted in the United States of America (U.S. GAAP) and is also a component unit of the University, a public university under the California State University system. The Foundation has chosen to use the reporting model for special-purpose governments engaged only in business-type activities.

(c) Basis of Presentation

The basic financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting in accordance with U.S. GAAP as prescribed by the Governmental Accounting Standards Board (GASB). Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Voluntary non-exchange transactions are recognized as revenue as soon as all eligibility requirements have been met.

(d) Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

(e) Investments

The valuation technique utilized to measure the investments is the market approach using prices and other relevant information generated by market transaction involving identical or comparable assets. Gains and losses are included in investment income, net on the accompanying schedule of revenues, expenses, and changes in net position.

(f) Accounts Receivable

The accounts receivable arise in the normal course of operations. It is the policy of management to review the outstanding accounts receivable at year end, as well as the bad debt write-offs experienced in the past, and establish an allowance for doubtful accounts for uncollectible amounts.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

(g) Capital Assets

Acquisitions of capital assets of \$5,000 or more are capitalized. Capital assets are stated at cost or, if donated, at the approximate fair market value at the date of donation. Expenditures for maintenance and repairs are charged against operations. Depreciation is computed using the straight-line method over the estimated useful lives of the related assets of five to 50 years. In accordance with instructions from the California State University System, depreciation expense is shown separately in the schedule of revenues, expenses, and changes in net position, rather than being allocated among other categories of operating expenses.

(h) Unearned Revenue

Unearned revenue consists primarily of grant and contract funds received in advance.

(i) Agency Liabilities

The Foundation administers agency assets on behalf of campus organizations. The Foundation generally receives a fee for administering these funds. Depending on the nature of these funds, this fee can be a fixed annual amount, a per-transaction charge, or a fixed percentage charge based upon assets under the Foundation's administration. It is management's belief that the Foundation is acting as an agent for the transactions of these units. Accordingly, the activity of such organizations is not recorded in the schedule of revenues, expenses, and changes in net position.

(j) Pension

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position have been determined on the same basis as they are reported by the California Public Employees' Retirement Systems (CalPERS) Financial Office of the Plan. For this purpose, benefit payments (including refund of the employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. CalPERS audited financial statements are publicly available reports that can be obtained at CalPERS' website under Forms and Publications.

GASB Statement No. 68 *Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27* requires that the reported results must pertain to liability and asset information with certain define timeframes. For this report, the following timeframes are used:

Valuation Date (VD) June 30, 2015

Measurement Date (MD) June 30, 2016

Measurement Period (MP) June 30, 2015 to June 30, 2016

(k) Other Post-Employment Benefits (OPEB)

GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, establishes the standards for the actuarial measurement, recognition, presentation, disclosure, and supplementary information of postemployment benefits and related liabilities.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

(l) Net Position

The Foundation's net position is classified into the following categories:

- *Net investment in capital assets:* This category includes capital assets, net of accumulated depreciation, and outstanding principal balances of debt attributable to the acquisition, construction, or improvement of those assets.
- *Unrestricted:* All other categories of net assets, including those net assets designated by the board or management.

(m) Classification of Revenues and Expenses

The Foundation considers operating revenues and expenses in the statement of revenues, expenses, and changes in net position to be those revenues and expenses that result from exchange transactions or from other activities that are connected directly with the Foundation's primary functions. Exchange transactions include charges for services rendered and the acquisition of goods and services. Certain other transactions are reported as non-operating revenues and expenses in accordance with GASB Statement No. 35, *Basic Financial Statements—and Management's Discussion and Analysis—for Public Colleges and Universities—an amendment of GASB Statement No. 34*. These non-operating activities include the Foundation's net investment income and interest expense.

(n) Contracts and Grants

Contracts and grants represent funds obtained from external agencies for the support of instructional, research, and public service functions of the University. Revenue from contracts and grants is recognized when expensed for the purpose specified. Amounts received in excess of expenses incurred as of the financial statements date are deferred.

Federal awards are subject to review and audit by the grantor agencies. Although such audits could result in expense disallowances under the terms of the grants, management believes that any disallowance would not be material to the Foundation.

(o) Income taxes

The Foundation is a qualified nonprofit organization that is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and Section 23701d of the California Revenue and Taxation Code. In addition, the Foundation qualifies for the charitable contribution deduction under Section 170(b)(1)(A)(vi) and has been classified as an organization that is not a private foundation under Section 509(a)(1). However, the Foundation remains subject to taxes on any net income which is derived from a trade or business, regularly carried on, and unrelated to its exempt purpose.

The Foundation recognizes accrued interest and penalties associated with uncertain tax positions as part of the income tax provision, when applicable. There are no amounts accrued in the financial statements related to uncertain tax positions.

The Foundation files informational and income tax returns in the United States and various state and local jurisdictions. The Foundation's Federal income tax and informational returns are subject

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

to examination by the Internal Revenue Service, generally for 3 years after the returns were filed. State and local jurisdictions have statutes of limitation that generally range from 3 to 5 years.

(2) Cash and Cash Equivalents

The Foundation considers all demand deposits and highly liquid investments with a maturity of three months or less to be cash and cash equivalents. The Foundation has \$588,013 in cash and cash equivalents at June 30, 2017, which consist of \$593,398 unrestricted and (\$5,385) held on behalf of other agencies.

(3) Investments

The Foundation's investment policy dictates that investments in fixed income securities must represent a minimum of 25% of total investments. A maximum of 80% may be invested in domestic equities and a maximum of 25% in international equities. A minimum of 2% must be maintained in cash or cash equivalents, including money market or short-term U.S. Treasury bills.

The Foundation participates in an internal investment pool (the Pool) managed in a 50/50 split by U.S. Bank Corp and Wells Capital Management, asset management and investment advisory firms that serve the University. Securities within the pool that are not insured are held in the name of the University. Such short-term investments are reported at fair value. The Foundation's investment in the pool was \$597,387 and represents approximately 0.02% of the Pool. The Pool is not rated as of June 30, 2017; however, the Foundation's share of the Pool is included in the rating and risk disclosures below.

The Foundation invests in the Surplus Money Investment Funds (SMIF), an external investment pool. The State Treasurer invests the SMIF funds through the Pooled Money Investment Account (PMIA). PMIA policy sets as primary investment objectives safety, liquidity, and yield. The Investment Division of the State Treasurer's Office manages the PMIA under statutory authority granted by California Government Code Sections 16430 and 16480.4. The State Treasurer's Office reports its investments at fair value. The Foundation reports proportionate share of the Pool. The Pooled Money Investment Board (Board) governs the PMIA. The State Treasurer chairs the Board, which also includes the State Controller and the State Director of Finance.

The Foundation is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The Local Investment Advisory Board has oversight responsibility for LAIF. The Board consists of five members as designated by state statute. The fair value of the Foundation's investment in this pool is reported in the accompanying financial statements at amounts based upon the Foundation's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The value of the pool shares in LAIF, which may be withdrawn, is determined on an amortized cost basis, which is different than the fair value of the pooled treasury's portion in the pool. Withdrawals from LAIF are done on a dollar for dollar basis. The Foundation also has investments held and managed by UBS Financial Services.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

Investments consist of the following at June 30, 2017:

Equity securities	\$ 12,173,035
Mutual funds	3,461,647
Corporate bonds	1,520,628
U.S. treasury securities	1,371,825
Mortgage backed securities	780,119
Local agency investment fund	572,857
U.S. agency securities	517,287
Asset backed securities	51,105
Certificates of deposit	25,341
Municipal bonds	2,707
Money market funds	2,567
Repurchase agreements	1,682
Surplus money investment fund	240
	<u>\$ 20,481,040</u>

Investments are classified into the following categories at June 30, 2017:

Unrestricted	\$ 16,940,302
Restricted - agency liabilities	3,160,473
Restricted - expendable other	380,025
Restricted - expendable debt service	240
	<u>\$ 20,481,040</u>

Investment income, net, consists of the following as of June 30, 2017:

Interests and dividends	\$ 391,031
Realized gains	911,624
Unrealized gains	794,265
Investment consulting fees	(135,583)
	<u>\$ 1,961,337</u>

(a) Credit Risk

Credit risk is the risk that an issuer or other counterparty to a debt instrument will not fulfill its obligations. This is measured by the assignment of ratings by nationally recognized statistical rating organizations. The Foundation's investment policy generally prohibits investments in the following vehicles: private placements, venture capital investments, real estate properties, futures contracts, options, short sales, or margin sales. Investments in cash equivalents, fixed income securities, equity securities, and mutual funds are done in a diversified manner that is risk averse with an objective to minimize risk while obtaining a reasonable return.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

The following indicates the credit rating of corporate bonds and U.S. agency securities as of June 30, 2017:

	Weighted-Average Duration (Years)	Fair Value	Rating			
			AAA	AA	A	BBB
Corporate bonds	2.62	\$ 1,520,628	\$ 11,538	\$ 264,833	\$ 690,301	\$ 553,956
U.S. agency securities	4.55	215,673	3,312	212,360	-	-

LAIF is a voluntary program created by statute as an alternative for California’s local governments and special districts that allows them to participate in a major investment portfolio. It is under the administration of the California State Treasurer’s Office. There are no significant interest rate risks or credit risks to be disclosed in accordance with GASB Statement No. 40, *Deposit and Investment Risk Disclosures—an amendment of GASB Statement No. 3*.

(b) Fair Value Measurement and Application

GASB Statement No. *Fair Value Measurement and Application*, sets forth the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Foundation has the ability to access.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The valuation technique utilized to measure the investments is the market approach using prices and other relevant information generated by market transaction involving identical or comparable assets.

Money Market Funds are not categorized under the fair value hierarchy and are shown at Net Asset Value (NAV). These investments are measured at amortized cost when calculating NAV per share (or its equivalent) of the investment.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.
Notes to Financial Statements (Continued)
Year Ended June 30, 2017

The following table shows the investments by the fair value level as of June 30, 2017:

	6/30/2017	Fair Value Measurements Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Net Asset Value (NAV)
Equity securities	\$ 12,173,035	\$ 12,173,035	\$ -	\$ -
Mutual funds	3,461,647	-	3,461,647	-
Corporate bonds	1,520,628	121,375	1,399,253	-

Total leveled investments	<u>\$ 19,907,943</u>	<u>\$ 12,454,409</u>	<u>\$ 7,450,967</u>	<u>\$ 2,567</u>
Local agency investment fund	572,857			
Surplus money investment fund	240			
Total investments	<u>\$ 20,481,040</u>			

(c) Custodial Credit Risk

Custodial credit risk for deposits is the risk that the Foundation will not be able to recover deposits or will not be able to recover collateral securities that are in possession of an outside party. The California Government Code and Education Code do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the provision that a financial institution must secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law. The risk is mitigated in that the Foundation's deposits are maintained at financial institutions that are fully insured or collateralized as required by state law.

(d) Interest Rate Risk

Interest rate risk is the risk of loss due to the fair value of an investment falling due to rising interest rates. As a means of limiting its exposure to fair value losses from rising interest rates, short-term investments are limited to relatively liquid instruments such as certificates of deposit, savings accounts, Federally guaranteed notes and bills, money market mutual funds, SMIF, or LAIF. Interest rate risk is mitigated by ensuring sufficient liquidity to meet cash flow needs and only then investing in longer-term securities. There is no interest rate risk for money market mutual funds as they are available on demand.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

(e) Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of an entity's investment in a single issuer. In order to maximize the rate of return in the Foundation's long-term investment portfolio while preserving capital and limiting concentration of credit risk, the Foundation's investment policy dictates a diverse asset allocation as follows: domestic equities (core) (25-50%), domestic equities (satellite-high alpha) (15-30%), international equities (10- 25%), and fixed income (25- 40%). An investment consultant is provided with a maximum and minimum portfolio target for each asset class to ensure proper diversification and to avoid unnecessary risk. U.S. Treasury and Agency securities are not subject to this limitation. Less than 7% of Foundation's investments are in Allianz Fixed Income.

(4) Accounts Receivable

Accounts receivable, net, consist of the following at June 30, 2017:

Sponsored programs	\$	1,532,980
Other receivables		78,463
Interests		22,860
		<u>1,634,303</u>
Less allowance for doubtful accounts		(6,644)
	\$	<u>1,627,659</u>

(5) Prepaid Expenses and Other Assets

The Foundation has no prepaid expenses and other assets for the year ended June 30, 2017.

(6) Capital Assets

Capital assets' activity for the year ended June 30, 2017 consists of the following:

	Balance June 30, 2016	Additions	Retirements/ Transfers	Balance June 30, 2017
Buildings	\$ 7,649,921	\$ -	\$ -	\$ 7,649,921
Furniture, fixtures, and equipments	525,875	-	-	525,875
Land	<u>35,000</u>	<u>-</u>	<u>-</u>	<u>35,000</u>
Total	8,210,796	-	-	8,210,796
Less accumulated depreciation	<u>(3,760,104)</u>	<u>(150,108)</u>	<u>-</u>	<u>(3,910,212)</u>
Capital asset, net	<u>\$ 4,450,692</u>	<u>\$ (150,108)</u>	<u>\$ -</u>	<u>\$ 4,300,584</u>

(7) Long Term Debt Obligations

In 1998, the Foundation issued \$5,760,000 in bonds to serve as refunding bonds for a 1994 bond issue, funds that were used to pay for the construction cost of the bookstore building. In 2013, the Foundation entered into a loan agreement with the Trustees of the California State University (CSU) to borrow

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

proceeds from SRB Series 2013A to pay off the 1998 bonds. Payments of principal are made annually and payments of interest are made semiannually. The interest rate range of the bonds is between 1.50% and 5.00%. The bonds mature May 2025.

Bonds payable activity for the year ended June 30, 2017 consists of the following:

Description	Balance			Balance June 30, 2017	Current Portion
	June 30, 2016	Additions	Retirements		
Systemwide Revenue Bonds 2013A	\$ 2,310,000	\$ -	\$ (215,000)	\$ 2,095,000	\$ 220,000
Premium on SRB 2013A	282,009	-	(33,841)	248,168	-
Total	<u>\$ 2,592,009</u>	<u>\$ -</u>	<u>\$ (248,841)</u>	<u>\$ 2,343,168</u>	<u>\$ 220,000</u>

Premium on SRB 2013A is amortized \$33,841 per annum using straight-line method over the life of the loan agreement. Principal and interest payments for the Systemwide Revenue Bonds are due as follows:

Year(s) ending June 30,	Principal	Interest	Total
2018	\$ 220,000	\$ 97,650	\$ 317,650
2019	230,000	86,925	316,925
2020	245,000	75,325	320,325
2021	250,000	63,150	313,150
2022	265,000	50,475	315,475
2023 - 2025	885,000	67,525	952,525
	<u>\$ 2,095,000</u>	<u>\$ 441,050</u>	<u>\$ 2,536,050</u>

(8) Pension

(a) General Information About the Pension Plan

Plan Description

The Foundation participates in the Public Agency Cost-Sharing Multiple-Employer Defined Benefit Pension Plan (the Plan or PERF C), administered by the California Public Employees' Retirement System (CalPERS). PERF C consists of a miscellaneous risk pool and safety risk pool, which are comprised of individual employer miscellaneous and safety rate plans, respectively. Each individual employer rate plan generally has less than 100 active members. The Foundation participates in the miscellaneous risk pool of the PERF C. The benefit provisions include pension benefits for Foundation's employees at a rate of 2.0% of the final average compensation at 55 years of age at retirement. The Foundation has the authority to establish and amend benefit provisions of the Plan.

Contributions

In January 2013, the California Public Employees' Pension Reform Act (PEPRA) took effect which changes the way CalPERS retirement and health benefits are applied, and places compensation limits on members. Individuals hired on or after January 2013 are under PEPRA. All members who do not fall under this category are considered classic members. Classic members will retain existing benefit levels for future service with the same employer.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

Section 2018(c) of the California Public Employees' Retirement Law (PERL) requires that the employer contribution rates for all public agency employers be determined on an annual basis by the actuary and shall be effective on the July 1 following the notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. For public agency cost-sharing plans covered by either the Miscellaneous or Safety risk pools, the Plan's actuarially determined rate is based on the estimated amount necessary to pay the Plan's allocated share of the risk pools' costs of benefit earned by employees during the year, and any unfunded accrued liability. The Foundation is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the measurement period ended June 30, 2016 (the measurement date), the Foundation contributed \$0 for active employees as the Foundation no longer has active employees. The Foundation contributed \$138,864 to the required employer contribution of the unfunded liability.

Actual Methods and Assumptions Used to Determine Total Pension Liability

For the measurement period ended June 30, 2016 (the measurement date), the total pension liability was determined by rolling period forward the June 30, 2015 total pension liability determined in the June 30, 2015 actuarial accounting valuation. The June 30, 2016 total pension liability was based on the following actuarial methods and assumptions:

Actuarial Cost Method	Entry Age Normal in accordance with the requirements of GASB Statement No. 68
Actuarial Assumptions	
Discount Rate	7.65%
Inflation	2.75%
Salary Increases	Varies by Entry Age and Service
Mortality Rate Table ¹	Derived using CalPERS' Membership Data for all Funds
Post Retirement Benefit Increase	Contract COLA up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.75% thereafter

¹ The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB.

All other assumptions used in the June 30, 2015 valuation were based on the results of an actuarial experience study for the period 1977 to 2011, including updates to salary increases, mortality, and retirement rates. The Experience Study report can be found on CalPERS' website under Forms and Publications.

Discount Rate

The discount rate used to measure the total pension liability was 7.65 percent. To determine whether the municipal bond rate should be used in the calculation of a discount rate for public agency plans (including PERF C), the amortization and smoothing periods recently adopted by the Board were used. For the Plan, the crossover test was performed for a miscellaneous agent rate plan and a safety agent rate plan selected as being more at risk of failing the crossover test and resulting in a discount rate that would be different from the long-term expected rate of return on pension investments. Based on the testing of the rate plans, the tests revealed the asset would not run out. Therefore, the long-term rate of return on pension plan of investments was applied to all periods of

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

projected benefit payments to determine the total pension liability for PERF C. The crossover test results are presented in a detailed report called "GASB Crossover Testing Report" than can be obtained on CalPERS' website under GASB 68 section.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund (Public Employees' Retirement Fund) cash flows. Using the historical returns of the entire funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using building block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

Asset Class	New Strategic Allocation	Real Return Years 1-10¹	Real Return Years 11+²
Global Equity	51.0%	5.25%	5.71%
Global Debt Securities	20.0%	0.99%	2.43%
Inflation Assets	6.0%	0.45%	3.36%
Private Equity	10.0%	6.83%	6.95%
Real Estate	10.0%	4.50%	5.13%
Infrastructure and Forestland	2.0%	4.50%	5.09%
Liquidity	1.0%	-0.55%	-1.05%

¹ An expected inflation of 2.50% used for this period.

² An expected inflation of 3.00% used for this period.

Allocation of Net Pension Liability and Pension Expense to Individual Plans

A key aspect of the GASB Statement No. 68 pertaining to cost-sharing employers is the establishment of an approach to allocated the net pension liability and pension expense to the individual employers within the risk pool. Paragraph 49 of GASB Statement No. 68 indicated that for pools where contribution rates within the pool are based on separate relationships, the proportional allocation should reflect those relationships. The allocation method utilized by CalPERS determines the employer's share by reflecting these relationships through the plans they sponsor within the risk pool. Plan liability and asset-related information are used where available, and proportionate allocation of individual plan amounts as of the valuation date are used where not available.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

Amortization of Deferred Outflows and Deferred Inflows of Resources

Under GASB Statement No. 68, actuarial gains and losses related to changes in total pension liability and fiduciary net pension are recognized in pension expense systematically over time.

The first amortized amounts are recognized in pension expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and inflows of resources related to pensions and are to be recognized in future pension expense.

The amortization period differs depending on the source of the gain or loss:

Net Difference between Projected and Actual Investment Earnings on Pension Plan Investments	5 year straight-line amortization
All other amounts	Straight-line amortization over the expected average remaining service lifetime (EARSL) of all members that are provided with pensions (active, inactive and retired) as of the beginning of the measurement period.

The Net Difference between Projected and Actual Investment Earnings on Pension Plan Investments is amortized over a five-year period on a straight-line basis. One-fifth is recognized in pension expense during the measurement period, and the remaining Net Difference between Projected and Actual Investment Earnings on Pension Plan Investments at the measurement date is to be amortized over the remaining four-year period. The Net Difference Between Projected and Actual Investment Earnings on Pension Plan Investments in the Schedule of Collective Pension Amounts represents the unamortized balance relating to the current measurement period and prior measurement period on a net basis.

Deferred outflows of resources and deferred inflows of resources relating to the Difference between Expected and Actual Experience, Changes of Assumptions, and employer-specific amounts should be amortized over the EARSL of members provided with pensions through the Plan. The EARSL for PERF C for the June 30, 2016 measurement date is 3.7 years, which was obtained by dividing the total service years of 475,689 (the sum of remaining service lifetimes of all active employees) by 127,009 (the total number of participants: active, inactive, and retired) in PERF C. Inactive employees and retirees have remaining service lifetimes equal to 0. Inactive employees and retirees have remaining service lifetimes equal to 0. Total future service is based on the members' probability of decrementing due to an event other than receiving a cash refund.

The Schedule of Collective Pension Amounts does not reflect employer-specific amounts such as changes in proportion, differences between actual employer contributions and employers' proportionated shares of contributions, and employer contributions to PERF C subsequent to the measurement date as defined in GASB Statement No. 68 paragraphs 54, 55, and 57. Appropriate treatment of such amounts is the responsibility of the Foundation.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

(b) Changes in the Plan's Proportionate Share of Net Pension Liability

The following tables show the Plan's proportionate share of the risk pool collective net pension liability over the measurement period of June 30, 2016:

	Increase (Decrease)		
	Plan Total Pension Liability	Plan Fiduciary Net Pension	Plan Net Pension Liability
Balance at: 6/30/15 (VD)	\$ 16,852,028	\$ 14,065,400	\$ 2,786,628
Balance at: 6/30/16 (MD)	17,109,498	13,497,496	3,612,002
Net Changes	<u>\$ 257,470</u>	<u>\$ (567,904)</u>	<u>\$ 825,374</u>

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 7.65 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.65 percent) or 1 percentage-point higher (8.65 percent) than the current rate:

	Discount Rate -1% (6.65%)	Current Discount Rate (7.65%)	Discount Rate +1% (8.65%)
Plan's Net Pension Liability	\$ 5,627,404	\$ 3,612,002	\$ 1,946,372

(c) Pension Expense and Deferred Outflows and Deferred Inflows of Resources

For the measurement period ended June 30, 2016 (the measurement date), the Foundation incurred a pension expense of \$162,451 (the pension expense for the risk pool for the measurement period is \$396,802,310).

As of the measurement date June 30, 2016, the Foundation reports other amounts for the Plan as deferred outflows and deferred inflows of resources related to pension as follows:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 4,962	\$ (1,137)
Changes in assumptions	-	(46,943)
Net difference between projected and actual earnings on Pension Plan investments	393,507	(149,185)
Pension contribution made subsequent to measurement date	160,857	-
Total	<u>\$ 559,326</u>	<u>\$ (197,265)</u>

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

Pension contribution made subsequent to measurement date in the amount of \$160,857 will be recognized in the following measurement period. Amounts reported as deferred outflows and deferred inflows of resources related to pension, other than the employer-specific items, will be recognized as future pension expense as follows:

Measurement Period(s) Ended June 30:	Deferred Outflows of Resources	Deferred Inflows of Resources
2017	\$ 99,730	\$ (50,409)
2018	99,730	(50,409)
2019	99,730	(50,409)
2020	99,279	(46,038)

(9) Other Post-Employment Benefits (OPEB)

(a) Plan Description

The Foundation sponsors a single-employer post-retirement healthcare plan, which covers substantially all full-time, central staff employees of the Foundation. This plan provides lifetime medical benefits to retirees who have attained age 50 with five years of service. Spouses and dependents of eligible retirees are also eligible for life. During the year ended June 30, 2009, the plan was amended to provide lifetime medical benefits to retirees who have attained the age of 50 with ten years of service. The Foundation has the authority to establish and amend benefit provisions of the Plan. The Plan does not issue a separate, publicly available report.

(b) Funding Policy

For the year ended June 30, 2017, the Foundation's share of the monthly medical premiums was limited to \$707 (single), \$1,349 (two parties), and \$1,727 (three or more parties). Retirees are responsible for premiums in excess of the Foundation's share. In addition, retirees are charged 9.27% of the Foundation's share of dental and vision.

The Foundation contributes annually based on projected pay-as-you-go financing requirements, with an additional amount to prefund benefits. The Foundation did not make a contribution to the Plan for the year ended June 30, 2017.

(c) Annual OPEB Cost and Net OPEB Obligation

The Foundation's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the annual required contribution of the employer (ARC). The Foundation has elected to calculate the ARC and related information using the alternative measurement method permitted by GASB Statement No. 45 for employers in plans with fewer than one hundred total plan members. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over the remaining period of 10 years.

The following table shows the components of the Foundation's annual OPEB cost for the year, the amount actually contributed to the plan, and changes in its net OPEB obligation to the Retiree Health Plan as of June 30, 2017.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

Annual required contribution	\$ 63,473
Interest on prior year net OPEB obligation	108,024
Adjustment to annual required contribution	<u>(117,064)</u>
Annual OPEB cost (expense)	54,433
Contributions made	<u>-</u>
Change in net OPEB obligation	54,433
Net OPEB obligation - beginning of year	<u>1,543,194</u>
Net OPEB obligation - end of year	<u><u>\$ 1,597,627</u></u>

The Foundation's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for the most recent three fiscal years is as follows:

<u>Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation</u>
June 30, 2015	\$ 130,866	243%	\$ 1,488,441
June 30, 2016	54,753	0%	1,543,194
June 30, 2017	54,433	0%	1,597,627

(d) Funded Status and Funding Progress

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point.

As of July 1, 2015, the most recent actuarial valuation date, the actuarial accrued liability for benefits was \$3,745,279 and the actuarial value of plan assets was \$2,963,283, resulting in an unfunded actuarial accrued liability (UAAL) of \$781,996, or a funded status of 79%. The Foundation has no active employees, therefore, the covered payroll (annual payroll of active employees covered by the plan) was \$0 and the ratio of the UAAL to the covered payroll was 0.0%.

The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, present multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

(e) Methods and assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing of benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

The following simplifying assumptions were made:

Retirement age for active employees – Based on the historical average retirement age for the covered group, active plan members were assumed to retire at age 62, or at the first subsequent year in which the member would qualify for benefits.

Mortality – Life expectancies at the calculation date are based on the most recent mortality tables published by the National Center for Health Statistics website (www.cdc.gov). The calculation of OPEB liability for each year is based on the assumption that all participants will live until their expected age as displayed in the mortality tables.

Turnover – The probability that an employee will remain employed until the assumed retirement age was determined using non-group-specific age-based turnover data provided in Table 1 in paragraph 35 of GASB Statement No. 45. In addition, the expected future working lifetimes of employees were determined using Table 2 in paragraph 35c of GASB Statement No. 45.

Healthcare cost trend rate – Healthcare cost trend rates were selected based on a combination of national and state trend surveys as well as professional judgment. The ultimate trend rate was 4.0%.

Health insurance premiums – The 2017 health insurance premiums for retirees were used as a basis for calculation of the present value of total benefits to be paid. An employee is assumed to continue with the same medical plan upon retirement. If an employee waived medical coverage, then such waiver is assumed to continue into retirement.

Medicare Coordination – Medicare was assumed as the primary payer for current and future retirees at age 65.

Payroll increase – Foundation no longer has active employees, thus, payroll increase is 0%.

Discount rate – The calculation uses an annual discount rate of 7%. This is based on the assumed long-term return on plan assets or employer assets.

Actuarial cost method – The entry age actuarial cost method was used. The unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis. The remaining amortization period at June 30, 2017 was 10 years.

(f) Plan for Funding

On an ongoing basis, the Foundation will be reviewing its assumptions, comparing them against actual experience and recalculating the needed funding with the goal of paying for postemployment benefits out of interest earned on designated funds.

CALIFORNIA STATE UNIVERSITY, EAST BAY FOUNDATION, INC.

Notes to Financial Statements (Continued)

Year Ended June 30, 2017

(10) Designated Net Position

Unrestricted net position designated by the Board for the following purposes at June 30, 2017:

Working capital and sponsored programs	\$ 3,284,546
Capital replacement	100,000
Planned future operations	100,000
	<u>\$ 3,484,546</u>

(11) Transactions with Affiliates

The Foundation enters into transactions with the University and other auxiliaries: Associated Students, Inc. of California State University, East Bay (ASI) and Cal State East Bay Educational Foundation, Inc. (Educational Foundation) (collectively known as the "Auxiliaries").

The Foundation leases the land for its building for a nominal annual fee from the State of California under an operating lease arrangement expiring on August 1, 2020. No amounts have been reflected in the financial statements for the use of the real properties, as no objective basis is available to measure the relative value.

During the year ended June 30, 2017, the Foundation received \$162,054 for professional services provided to the University. The Foundation paid \$6,839,184 to the University for professional fees. The Foundation donated assets to the University valued at \$15,363. The Foundation also contributed \$60,000 to Educational Foundation.

Amounts of receivable (payable) were as follows at June 30, 2017:

California State University, East Bay - Receivable	\$ 1,804
California State University, East Bay - Payable	<u>(3,208,633)</u>
	<u>\$ (3,206,829)</u>

(12) Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the schedule of revenues, expenses, and changes in net position. Accordingly, certain costs have been allocated among the programs and supporting services benefited.

(13) Contingencies

The Foundation has grants and contracts with government agencies which are subject to audit. No provision has been made for any liabilities that may arise from such audits since the amounts, if any, cannot be determined. Management believes that any liability which may result from these audits is not material.

Schedules of Required Supplementary Information - Pension

Schedule of the Plan's Proportionate Share of Net Pension Liability and Related Ratio in Relation to PERF C¹

Net pension liability and fiduciary net position are allocated to the plan based on its proportion of the Miscellaneous Risk Pool. However, GASB Statement No. 68 requires that employers report certain proportions as a percentage of the total plan (PERF C, excluding the 1959 Survivors Risk Pool), which includes both the Miscellaneous and Safety Risk Pools. All cost-sharing public agency plans are categorized as either Miscellaneous or Safety within PERF C. The table below represents the plan's proportion of PERF C, excluding the 1959 Survivors Risk Pool, and not its proportion of the Miscellaneous Risk Pool.

	<u>2016</u>	<u>2015</u>	<u>2014</u>
Plan's Proportion of the Net Pension Liability	0.12318%	0.12828%	0.04964%
Plan's Proportionate Share of the Net Pension Liability	\$ 3,612,002	\$ 2,786,628	\$ 3,089,169
Plan's Covered Payroll	-	50,217	1,855,126
Plan's Proportionate Share of the Net Pension Liability as as Percentage of its Covered Payroll	-	5549.17%	166.52%
Plan's Proportionate Share of the Fiduciary Net Position as Percentage of the Plan's Total Pension Liability	21.11%	16.54%	17.59%
Plan's Proportionate Share of Aggregate Employer Contributions	138,864	\$ 2,800	\$ 234,666

¹ This is a 10-year schedule. Information in this schedule is not available prior to 2014. Additional years will be added to this schedule in future fiscal years until 10 years of data is presented.

Schedule of Plan Contributions¹

	<u>2016</u>	<u>2015</u>	<u>2014</u>
Actuarially Determined Contribution	\$ 138,864	\$ 2,800	\$ 234,666
Contributions in Relation to the Actuarially Determined Contribution	138,864	2,770	234,666
Contribution Deficiency (Excess)	<u>\$ -</u>	<u>\$ 30</u>	<u>\$ -</u>
Covered Payroll	\$ -	\$ 50,217	\$ 1,855,126
Contributions as a Percentage of Covered Payroll	-	5.5%	12.65%

¹ This is a 10-year schedule. Information in this schedule is not available prior to 2014. Additional years will be added to this schedule in future fiscal years until 10 years of data is presented.

Change in Assumptions

There were no changes in assumptions during the measurement period ended June 30, 2016.

Note to Supplementary Information

Year Ended June 30, 2017

1. Supplementary Schedules

As an auxiliary organization of the California State University (CSU), California State University, East Bay Foundation, Inc. (the Foundation) is required to include audited supplementary information in its financial statements in the form and content specified by CSU. As a result, there are differences in reporting format between the Foundation's financial statements and the supplementary schedules for CSU.
