The **Early Start Program** is designed to boost your skills in math and English and prepare you for college success. Classes vary from 2-5 weeks and are offered in the summer before your Fall semester starts. Click [here](#) for more info on Early Start.

\* Note that the CSU will not require Early Start in Summer 2020 for Category IV students.

**Placement categories** in math and English are determined using multiple measures, including test scores (SAT, ACT) if available, high school GPA, and the number of semesters of math and English taken while in high school.

Your **first-year pathways** for math/statistics and English are determined by your placement categories and your major. Refer to the Math & Stat (B4) Pathways and English (A2) Pathways documents for more details.

Your **FASST Advisor** will notify you about your GE placement categories. **Questions?** Email: [f20frosh@csueastbay.edu](mailto:f20frosh@csueastbay.edu)
