

**COVID-19 Wellness Agreement
On-Campus Housing Resident Responsibilities
2020-2021**

As a member of the CSUEB residential community I will uphold the following expectations as a commitment to my own safety and well-being and that of my neighbors and fellow community members. I understand that this statement is aimed to provide support, mutual respect, and shared resources available to all residents. I acknowledge that the full impact of COVID-19 is not currently known or reasonably foreseeable. I agree to all the following statements. Failure to comply may result in referral to the conduct process and/or immediate revocation of the license agreement.

- Uphold all community expectations as a commitment to safety and well-being of self and that of fellow community members.
- Maintain consistent hygiene practices including frequent hand washing and sanitizing of my personal living space.
- Maintain social distancing guidelines provided by the campus. This directive indicates staying six feet apart from others at all times.
- Maintain furniture set up in common spaces.
- Follow directives in university dining facilities.
- Wear a facial covering over the nose and mouth when outside of personal room, in public areas, or in spaces with multiple people. This includes university dining facilities.
- Only enter areas approved for student use and clean up/wiped down after each use.
- Follow guidelines for the use of common spaces such as laundry rooms, lounges, and outdoor recreational areas.
- Gather in groups no larger than those allocated in the guidelines provided by the state of California and the University.
- When sick, stay home, monitor health, and utilize food delivery/sick tray options. Contact personal health care provider or Student Health services for instructions. Student Housing is here to offer support and resources. To ensure we mutually support the safety of the community, we ask that you inform Student Housing of possible concerns/symptoms of COVID-19, and follow university guidelines to provide further information.
- Will abide by no guests/visitor policy to limit exposure to self and community members. This includes refraining from bringing in guests/visitors into the residential spaces. Guests/visitors are defined as non-Housing members.
- Limit entering of personal spaces of other residents, and ensure all occupancy maximums are met in personal or shared community spaces. Apartment units will have a total of 4 people max occupancy at all times.
- Engage in education and resources to reduce harm for self and others. Explore recommended effective ways to prevent illness during seasonal influenza season, such as flu vaccine.
- Make thoughtful decisions when spending time off campus and minimize social interactions that would put me and my community members at risk.
- Cooperate with directives to quarantine or self isolate as needed.
- Take responsibility to be informed with any updated notices and policies by the campus and Student Housing & Residence Life. I understand that policies may be subject to change to ensure the safety and security of the community. Changes may occur based on the state of emergencies that arise, and updated guidelines/policies may supersede any prior established documents
