

# ON-CAMPUS LIVING **COVID PRECAUTIONS**

---

**TO: OUT OF STATE RESIDENTS**

**SUBJECT: URGENT - REQUIRED COVID-19 ACTION ITEMS**

**Dear Housing Residents,**

As you may know, California Public Health issued guidance that includes regional stay at home orders which Alameda County is currently under. As cases continue to rise across the state we are adapting our return to housing guidelines and expectations to best protect our community.

As you prepare to move-in or return to on-campus housing, we want to reiterate the expectation that you are responsible for adhering to the housing license contract. This includes informing Student Housing if you meet the definition of COVID-exposed or COVID-positive. It is a priority to adhere to these expectations to support the safety of our community. These definitions include:

- **COVID-19 EXPOSED:** Individual who stayed within 6 feet of a COVID-19 infected person for more than 15 minutes after that person was diagnosed or up to two days before they first developed symptoms. This applies even if both people are wearing a face covering, mask, or an N95 respirator. Also, individuals who were contacted by any public health department that there were recently exposed to COVID-19.
- **COVID-19 POSITIVE:** Person who has been diagnosed with COVID; received COVID positive test result.

Should you meet either definition, please immediately contact the Student Housing office by [clicking here](#) and submitting the COVID Disclosure Form. If you are currently living off-campus, we strongly encourage you to begin your self-quarantine period at your current location until you have reached medical clearance or have completed a minimum 14 day quarantine. Please consult with your medical professional for further guidance. If you are unable to stay off-campus, Student Housing will discuss available accommodations with you.

# ON-CAMPUS LIVING COVID PRECAUTIONS

---

## BEFORE ARRIVING FROM OUT-OF-STATE/COUNTRY

- Quarantine with your household for 7 days prior to arrival to campus.
- Get the COVID-19 viral test. Please schedule a test 3 days prior to traveling to campus. For free community COVID testing sites throughout California, [click here](#).
- If you meet any definition listed, please ensure you disclose in your pre-questionnaire as soon as you have updated status about your health.
- Please complete the [pre-questionnaire](#) within 72 hours before your return to campus or new move-in date. If your conditions change on the day of travel please contact Housing to delay return/move-in date.
- Plan to quarantine for 10 days upon checking into Housing which means you will be by yourself. During quarantine your meals will be brought to your apartment and trash removed for you. You are not allowed to leave the apartment unless a medical emergency or clearance is provided by Housing.

## AFTER ARRIVING TO CAMPUS

- Quarantine in your apartment for 10 days meaning you will not be able to leave your apartment.
- Following quarantine, all residents are required to continue following the Stay-at-Home guidelines. These guidelines apply to all students even if you do not meet one of the definitions above. All guidelines will be in place at minimum through January 31, 2021.
- Student Housing will also continue to enforce requirements for facial coverings at all times, no social gatherings, no guest policy, and proper social distancing.
- If you are feeling ill or hear of someone in your household becoming ill after you arrive on campus, we ask that you begin self-quarantine and contact Housing immediately.

We appreciate your dedication to reducing the spread of COVID-19 and keeping our community safe. We are all part of the solution to ending this pandemic.
