

Jeanne Clery Campus Security Act

California State University, East Bay endeavors to provide a safe, secure and orderly campus environment conducive to the successful pursuit of educational opportunities and accomplishments. In accordance with this goal, The University Police Department prepares this report to comply with the Jeanne Clery Disclosure of Campus Security Policy and Crime Statistics Act.

As required by the Act, the UPD collects crime statistics from local police agencies for off-campus housing or off-campus property either owned or controlled by the University, and public property immediately adjacent to campus. All local police agencies, where CSU East Bay property is located or is nearby, provide automated statistics for the property and a radius around the property as requested. Information regarding how prospective CSU East Bay students may obtain this disclosure report is listed on all recruiting and enrollment information material.

In October of every year, a postcard is mailed to all enrolled students advising how they may obtain this disclosure report which contains University crime statistics and other relevant safety/security information. Faculty and staff members are provided this information each September via a statement that is printed at the bottom of their pay warrant. The Human Resources Department provides this information to all prospective CSU East Bay employees.
