# OMI CPP

OMI Cultural Participation Project is committed to artistic & cultural excellence in San Francisco District 11, and providing resources to those in need.

With the high cost of living pushing many vulnerable individuals & families to the brink and onto the streets, we recognize the need for safe & secure housing, and basic necessities to help stabilize our community.

As homelessness continues to rise citywide in San Francisco, and especially in our community, our goal is to create a network foundation of support and compassion with our community partners, providing hope and a new start for those who have fallen on hard times.

Together we can create a ripple effect of compassion and generosity that reaches far beyond what we can imagine. By joining forces and rallying support for this cause, we're not just offering temporary relief; we're planting seeds of hope and empowerment.
