"My experience at CSUEB was awesome! While in California, I learned a lot about education in the U.S. and I got the chance to meet amazing people from all over the world who allowed me to discover new cultures, new ways of life, and new horizons. I loved hanging around the campus, situated at the top of a hill, where we can feel the fresh air and be surrounded by nature. The campus life is really well organized and everybody can find something to be involved in."
