

## Bay Area Physical Education-Health Project

Providing professional learning and technical assistance for districts, schools, leaders, and teachers of Bay Area schools.

### Institutes

Providing teachers of physical education and health education with professional learning experiences, networking opportunities, and community building around enhancing their content knowledge and pedagogical content knowledge so that they can positively impact the learning of their students.

### Programs and Partnerships with Schools and Districts

- High Quality, Standards-based Professional Learning for Physical Education and Health Education
- Professional Learning for Teachers and School Leaders
- Tailored programs that Meet the Needs of Local Students, Teachers and Leaders
- Providing Schools and Districts with an Extensive Network of Expert K-12 and University Educators

### Focus on Learning and Leadership

Developing teacher leadership, and equipping school leaders with the knowledge and skills they need to *lead for learning* is one of our hallmarks. California's new context provides significant opportunities for schools to look to effective leadership for physical education and health education. Our tailored programs, supports, and extensive network of experts can support this work in your schools.
