IN THE SHADOW OF MACHU PICCHU:

Andean Life Past and Present

"C.E. SMITH MUSEUM OF ANTHROPOLOGY"

CALIFORNIA STATE UNIVERSITY, HAYWARD

EXPLORE THE RUINS

The C.E. Smith Museum of Anthropology presents a Virtual Reality Tour of the ruins of Machu Picchu, the culmination of an eight year project. We invite you to explore the Lost City of the Incas.

In 1911 Hiram Bingham rediscovered Machu Picchu, a mysterious ruin of the Incas. Machu Picchu was just one piece of the great Empire built by the Incas. The Inca Empire spanned over 1800 miles along South America, and 23,100 feet in elevation. The achievements of the Inca Empire are remarkable especially considering it existed for less than 100 years. The Incas succeeded by drawing on over 5,000 years of cultural tradition in the Andean region. Not only is the success of the Incas apparent in the ruins that still stand today, but also in the rituals and traditions still practiced by contemporary Andean people.

Come to the C.E. Smith Museum and rediscover the world of the Incas, both past and present, for yourself!

EXHIBITION DATES:
February 24 - June 6, 2003
