Self Evaluation Form For Post- Licensure Program On Website

Use this to help determine if you've met the prerequisites for the program.

Self Evaluation Form For Post-Licensure Program

POST-LICENSURE (RN-BSN) SELF EVALUATION INSTRUCTIONS

All prerequisite courses taken at campuses other than Cal State East Bay must be approved as equivalent. Candidates can check [Transfer Evaluation System](#) (TES) for course equivalencies between California State University, East Bay and other colleges and universities.

For any courses that do not appear on [TES](#) that you think might satisfy our Nursing program prerequisites, forward syllabi and copies of transcripts for review to nursing@csueastbay.edu.

Use the chart at the bottom of this page to aid with your self-evaluation.

We have 2 prerequisite GPA calculations. Both must be at least 3.00 average GPA to qualify for our program.

FOUR science prerequisite GPA

ALL EIGHT prerequisite GPA

-OR-

Have a 3.0 average cumulative GPA from the school where you completed your RN nursing program.

GPA CALCULATION FORMULA

Our calculations are for prerequisite GPA, not cumulative GPA. Only classes taken by the deadline are considered in GPA calculations.

To be eligible for the Nursing program, both the four science prerequisite classes by themselves, and all eight prerequisites combined have to be above a 3.00 average GPA. If the GPA for the eight prerequisites is above 3.00, but the GPA for the four science prerequisites (calculated separately) is below 3.00, the GPA requirement is not met.

-OR-

If the cumulative GPA from your ADN school is at least 3.0, you can still qualify.

If you want to double-check GPA calculations on your prerequisite classes, here are the directions:

If you have a mixture of quarter system and semester system units, convert the quarter units to semester by dividing the quarter units by 1.5 in order to correctly calculate your prerequisite GPA.

1. Multiply each unit value of each prerequisite course x GPA points

GRADE POINTS

A or A+	4	
A-	3.7	
B+	3.3	
B	3	
B-	2.7	
C+	2.3	
C	2	
C-	1.7	too low
D+	1.3	too low
D	1	too low
F	0	too low

Example: 5 unit course with a B, 3 unit course with an A-, 3 unit course with B-

5 units x 3 = 15

3 units x 3.7 = 11.1

3 units x 2.7 = 8.1

2. Take total points from above calculations and add them all together.

15 + 11.1 + 8.1 = 34.2

3. Add up total units for all classes.

5 units + 3 units + 3 units = 11 units

4. Divide points from #2 by points from #3

34.2 / 11 units = 3.11 GPA

Please see our website for more details: <http://www.csueastbay.edu/nursing/bsn-programs/prospective-students/rn-bsn-program.html>

It is recommended to attend an information session before applying: <http://www.csueastbay.edu/nursing/bsn-programs/prospective-students/info-sessions.html>

Additional Post-Licensure Program Information

- ▶ Program Formats
 - ▶ Fall start Full Time Program (Fall Semester, Spring Semester, Summer Term)
 - ▶ Fall start Part Time Program (4 semesters)
 - ▶ Spring start Full time program (Spring Semester, Summer Term, Fall Semester)
 - ▶ Spring start Part Time Program (4 semesters)
- ▶ Can change from Full Time to Part Time program if needed
- ▶ This program is not impacted. If you qualify we welcome you.
- ▶ Tuition and Fee Amounts are Updated Each Semester and are subject to change
 - ▶ For Fall 2026, full time (more than 6 units), California resident students pay approximately:
 - ▶ \$4,210.50/Semester for students obtaining their first Bachelor's Degree
 - ▶ \$5065.50/Semester for students obtaining their second Bachelor's Degree

What happens after I apply to the Post-Licensure Program

- ▶ Fall Admissions
 - ▶ You will find out by April if you've been accepted
- ▶ Spring Admissions
 - ▶ You will find out by November if you've been accepted
- ▶ After you have been accepted
 - ▶ Pass Criminal Background Check and Drug Screening
 - ▶ Attend One Day Nursing Orientation
 - ▶ Mid/Late June for Fall Start
 - ▶ Early December for Spring Start
 - ▶ Be ready to submit your [Health Documents](#)

Required Health Documents

DRUG SCREENING **MUST use Nursing Department Drug Screening Agency ONLY											
TITERS = blood tests (not shots). **Even if you have immunization/shot records, we still require proof of immunity through a blood test for surface antibodies (titer) for #1-3.											
1. RUBELLA (German Measles), RUBEOLA (Regular Measles) <u>AND</u> MUMPS Positive titer (immune) required for ALL THREE SEPARATELY . Test for IgG antibody. <u>If titer is negative</u> , provide proof of two live virus MMR vaccinations at least one month apart . **Must get another titer after shot series is complete.											
2. VARICELLA Positive titer (immune) required. Test for IgG antibody. <u>If titer is negative</u> , provide proof of two doses of live virus at least one month apart . **Must get another titer after shot series is complete.											
3. HEPATITIS B Positive titer (immune or "reactive") required. Test for <u>Hep B surface antibody</u> . <u>If titer is negative</u> , provide proof of three doses of live vaccination series received after the date of the negative titer. (Second shot must be 1 month after first shot and third shot must be 5-6 months after second shot). **One-two months after 3rd shot in series – must get another titer as proof of immunity.											
4. FLU VACCINE Please get flu vaccine (influenza) between September 1 and October 20. Due October 20.											
5. DIPHTHERIA-TETANUS-PERTUSSIS (Tdap) shot within ten years. **This is an "adult" shot, not DTaP or DTP (childhood versions). **A Td shot (Tetanus-Diphtheria only) does NOT cover this requirement.											
6. PPD (Tuberculosis Skin Test) - 2 NEGATIVE results satisfy this requirement. If you have NOT had a TB skin test within the last 12 months: Submit a Negative <u>two-step</u> within 3 weeks of each other (4 doctor visits total) –OR– Submit 1 negative Quantiferon Gold blood test or T Spot test within 1 year. If you have ONE TB skin test result within the last 12 months Submit it plus ONE MORE TB test result within 12 months of your most recent one (one-step result). If you have TWO TB skin test results within the past 2 years Submit both PPD results. The 2nd result must be within 12 months of submission date. The 1st result must be no more than 12 months before your 2nd result. If MORE THAN 12 months passed between your first and second results, you need to get ONE MORE TB test (one-step). <u>PPD Results last for 12 months – they must NOT during your community health rotation.</u> If POSITIVE PPD , then a Chest X-Ray <u>REPORT</u> within 3 years is required AND negative symptom screen. (Use Nursing Department Annual TB Symptom Screen Form if your PPD is positive).											
7. COVID-19 Vaccine Submit proof of a complete COVID-19 vaccine series of 2 shots at least 21 days apart or as recommended depending on the vaccine type received. Proof must include manufacturer and vaccination date/s. Appropriate booster will also be required.											
8. Self Evaluation for Pre-Licensure Program on Website

Use this to help determine if you've met the prerequisites for the program

Pre-Licensure Self-Evaluation Form

PRE-LICENSURE BSN SELF EVALUATION INSTRUCTIONS

All prerequisite courses taken at campuses other than Cal State East Bay must be approved as equivalent. Candidates can check [Transfer Evaluation System](#) (TES) for course equivalencies between California State University, East Bay and other colleges and universities.

For any courses that do not appear on [TES](#) that you think might satisfy our Nursing program prerequisites, forward syllabi and copies of transcripts for review to nursing@csueastbay.edu.

Use the chart at the bottom of this page to aid with your self-evaluation.

We have 2 prerequisite GPA calculations. Both must be at least 3.00 average GPA to qualify for our program.

FOUR science prerequisite GPA

ALL EIGHT prerequisite GPA

-OR-

Have a 3.0 average cumulative GPA from the school where you completed your RN nursing program.

GPA CALCULATION FORMULA

Our calculations are for prerequisite GPA, not cumulative GPA. Only classes taken by the deadline are considered in GPA calculations.

To be eligible for the Nursing program, both the four science prerequisite classes by themselves, and all eight prerequisites combined have to be above a 3.00 average GPA. If the GPA for the eight prerequisites is above 3.00, but the GPA for the four science prerequisites (calculated separately) is below 3.00, the GPA requirement is not met.

If you want to double-check GPA calculations on your prerequisite classes, here are the directions:

If you have a mixture of quarter system and semester system units, convert the quarter units to semester by dividing the quarter units by 1.5 in order to correctly calculate your prerequisite GPA.

1. Multiply each unit value of each prerequisite course x GPA points

GRADE POINTS

A or A+ 4

A- 3.7

B+ 3.3

B 3

B- 2.7

C+ 2.3

C 2

C- 1.7

D+ 1.3

D 1

F 0

Example: 5 unit course with a B, 3 unit course with an A-, 3 unit course with B-

5 units x 3 = 15

3 units x 3.7 = 11.1

3 units x 2.7 = 8.1

2. Take total points from above calculations and add them all together.

15 + 11.1 + 8.1 = 34.2

3. Add up total units for all classes.

5 units + 3 units + 3 units = 11 units

4. Divide points from #2 by points from #3

34.2 / 11 units = 3.11 GPA

Ties in Points for Pre-Licensure Program

- ▶ In cases of equal point ranking of applicants tie-breakers will be:
 - ▶ 1. Science score on the TEAS exam
 - ▶ 2. Cumulative GPA in all baccalaureate level coursework
 - ▶ 3. California residency status

LVN – BSN Pathway for Pre-Licensure Program

- ▶ If you have your LVN License you will want to apply for the Pre-Licensure program
- ▶ You may be able to challenge a few first year classes, however the program will still take 2.5 years to complete (5 semesters)

What Happens After I Apply for the Pre-Licensure Program?

- ▶ For Fall Admission applicants are notified of decisions by April
- ▶ For Spring Admission applicants are notified of decisions by November
- ▶ 48 students are selected for the program each Fall and Spring Semester
- ▶ Approximately 40-45 students are waitlisted each Fall and Spring Semester
 - ▶ Often many students who are waitlisted are ultimately accepted into the program
 - ▶ Once the semester begins the waitlist goes away and any applicants remaining on the waitlist would need to reapply to be admitted in the future
- ▶ What to do if you think there's been an error?
 - ▶ Notify Nursing Admissions at nursing@csueastbay.edu within 15 calendar days

What Happens After I am Accepted into the Pre-Licensure Program?

- ▶ Tuition and Fee Amounts are Updated Each Semester and are subject to change
 - ▶ For Fall 2026, full time (more than 6 units), California resident students pay approximately:
 - ▶ \$4,210.50/Semester for students obtaining their first Bachelor's Degree
 - ▶ \$5,065.50/Semester for students obtaining their second Bachelor's Degree
- ▶ After you have been accepted
 - ▶ Pass Criminal Background Check and Drug Screening
 - ▶ Attend One Day Nursing Orientation
 - ▶ Usually in mid/late June for Fall Semester Students
 - ▶ Usually in early December for Spring Semester Students
 - ▶ Be ready to submit your [Health Documents](#)

Required Health Documents

DRUG SCREENING		**MUST use Nursing Department Drug Screening Agency ONLY	
TITERS = blood tests (not shots). **Even if you have immunization/shot records, we still require proof of immunity through a blood test for surface antibodies (titer) for #1-3.			
1. RUBELLA (German Measles), RUBEOLA (Regular Measles) <u>AND</u> MUMPS Positive titer (immune) required for ALL THREE SEPARATELY . Test for IgG antibody. <u>If titer is negative</u> , provide proof of two live virus MMR vaccinations at least one month apart . **Must get another titer after shot series is complete.			
2. VARICELLA Positive titer (immune) required. Test for IgG antibody. <u>If titer is negative</u> , provide proof of two doses of live virus at least one month apart . **Must get another titer after shot series is complete.			
3. HEPATITIS B Positive titer (immune or "reactive") required. Test for <u>Hep B surface antibody</u> . <u>If titer is negative</u> , provide proof of three doses of live vaccination series received after the date of the negative titer. (Second shot must be 1 month after first shot and third shot must be 5-6 months after second shot). **One-two months after 3rd shot in series – must get another titer as proof of immunity.			
4. FLU VACCINE Please get flu vaccine (influenza) between September 1 and October 20. Due October 20.			
5. DIPHTHERIA-TETANUS-PERTUSSIS (Tdap) shot within ten years. **This is an "adult" shot, not DTaP or DTP (childhood versions). **A Td shot (Tetanus-Diphtheria only) does NOT cover this requirement.			
6. PPD (Tuberculosis Skin Test) - 2 NEGATIVE results satisfy this requirement. If you have NOT had a TB skin test within the last 12 months: Submit a Negative <u>two-step</u> within 3 weeks of each other (4 doctor visits total) –OR– Submit 1 negative QuantiFERON Gold blood test or T Spot test within 1 year. If you have <u>ONE TB skin test result within the last 12 months</u> Submit it plus ONE MORE TB test result within 12 months of your most recent one (one-step result). If you have <u>TWO TB skin test results within the past 2 years</u> Submit both PPD results. The 2nd result must be within 12 months of submission date. The 1st result must be no more than 12 months before your 2nd result. If MORE THAN 12 months passed between your first and second results, you need to get ONE MORE TB test (one-step). <u>PPD Results last for 12 months – they must NOT during your community health rotation.</u> If POSITIVE PPD , then a Chest X-Ray <u>REPORT</u> within 3 years is required AND negative symptom screen. (Use Nursing Department Annual TB Symptom Screen Form if your PPD is positive).			
7. COVID-19 Vaccine Submit proof of a complete COVID-19 vaccine series of 2 shots at least 21 days apart or as recommended depending on the vaccine type received. Proof must include manufacturer and vaccination date/s. Appropriate booster will also be required.
