# Self Evaluation Form For Post-Licensure Program On Website

Use this to help determine if you've met the prerequisites for the program.

# Self Evaluation Form For Post-Licensure Program

## POST-LICENSURE (RN-BSN) SELF EVALUATION INSTRUCTIONS

All prerequisite courses taken at campuses other than Cal State East Bay must be approved as equivalent. Candidates can check Transfer Evaluation System (TES) for course equivalencies between California State University, East Bay and other colleges and universities.

For any courses that do not appear on TES that you think might satisfy our Nursing program prerequisites, forward syllabi and copies of transcripts for review to [nursing@csueastbay.edu](mailto:nursing@csueastbay.edu).

Use the chart at the bottom of this page to aid with your self-evaluation.

We have 2 prerequisite GPA calculations. Both must be at least 3.00 average GPA to qualify for our program.

FOUR science prerequisite GPA

ALL EIGHT prerequisite GPA

-OR-

Have a 3.0 average cumulative GPA from the school where you completed your RN nursing program.

### GPA CALCULATION FORMULA

Our calculations are for prerequisite GPA, not cumulative GPA. Only classes taken by the deadline are considered in GPA calculations.

To be eligible for the Nursing program, both the four science prerequisite classes by themselves, and all eight prerequisites combined have to be above a 3.00 average GPA. If the GPA for the eight prerequisites is above 3.00, but the GPA for the four science prerequisites (calculated separately) is below 3.00, the GPA requirement is not met.

-OR-

If the cumulative GPA from your ADN school is at least 3.0, you can still qualify.

If you want to double-check GPA calculations on your prerequisite classes, here are the directions:

If you have a mixture of quarter system and semester system units, convert the quarter units to semester by dividing the quarter units by 1.5 in order to correctly calculate your prerequisite GPA.

1. Multiply each unit value of each prerequisite course x GPA points

#### GRADE POINTS

A or A+	4
A-	3.7
B+	3.3
B	3
B-	2.7
C+	2.3
C	2
C-	1.7
D+	1.3
D	1
F	0

Example: 5 unit course with a B, 3 unit course with an A-, 3 unit course with B-

5 units x 3 = 15

3 units x 3.7 = 11.1

3 units x 2.7 = 8.1

2. Take total points from above calculations and add them all together.

15 + 11.1 + 8.1 = 34.2

3. Add up total units for all classes.

5 units + 3 units + 3 units = 11 units

4. Divide points from #2 by points from #3

34.2 / 11 units = 3.11 GPA

Please see our website for more details: <http://www.csueastbay.edu/nursing/bsn-programs/prospective-students/m-bsn-program.html>

It is recommended to attend an information session before applying: <http://www.csueastbay.edu/nursing/bsn-programs/prospective-students/info-sessions.htm>

# Self Evaluation for Pre-Licensure Program on Website

Use this to help determine if you've met the prerequisites for the program

# Pre-Licensure Self-Evaluation Form

## PRE-LICENSEURE BSN SELF EVALUATION INSTRUCTIONS

All prerequisite courses taken at campuses other than Cal State East Bay must be approved as equivalent. Candidates can check Transfer Evaluation System (TES) for course equivalencies between California State University, East Bay and other colleges and universities.

For any courses that do not appear on [TES](#) that you think might satisfy our Nursing program prerequisites, forward syllabi and copies of transcripts for review to [nursing@csueastbay.edu](mailto:nursing@csueastbay.edu).

Use the chart at the bottom of this page to aid with your self-evaluation.

We have 2 prerequisite GPA calculations. Both must be at least 3.00 average GPA to qualify for our program.

FOUR science prerequisite GPA

ALL EIGHT prerequisite GPA

-OR-

Have a 3.0 average cumulative GPA from the school where you completed your RN nursing program.

### GPA CALCULATION FORMULA

Our calculations are for prerequisite GPA, not cumulative GPA. Only classes taken by the deadline are considered in GPA calculations.

To be eligible for the Nursing program, both the four science prerequisite classes by themselves, and all eight prerequisites combined have to be above a 3.00 average GPA. If the GPA for the eight prerequisites is above 3.00, but the GPA for the four science prerequisites (calculated separately) is below 3.00, the GPA requirement is not met.

If you want to double-check GPA calculations on your prerequisite classes, here are the directions:

If you have a mixture of quarter system and semester system units, convert the quarter units to semester by dividing the quarter units by 1.5 in order to correctly calculate your prerequisites GPA.

1. Multiply each unit value of each prerequisite course x GPA points

### GRADE POINTS

A or A+	4
A-	3.7
B+	3.3
B	3
B-	2.7
C+	2.3
C	2
C-	1.7
D+	1.3
D	1
F	0

Example: 5 unit course with a B, 3 unit course with an A-, 3 unit course with B-

5 units x 3 = 15

3 units x 3.7 = 11.1

3 units x 2.7 = 8.1

2. Take total points from above calculations and add them all together.

15 + 11.1 + 8.1 = 34.2

3. Add up total units for all classes.

5 units + 3 units + 3 units = 11 units

4. Divide points from #2 by points from #3

34.2 / 11 units = 3.11 GPA

Please see our website for more details: <https://www.csueastbay.edu/nursing/bsn-programs/prospective-students/pre-licensure-program.html>

It is recommended to attend an information session before applying: <http://www.csueastbay.edu/nursing/bsn-programs/prospective-students/info-sessions.html>
