

Memorandum

To: President's Cabinet

From: Edward S. Inch 
Provost & Vice President, Academic Affairs

Subject: Call for proposals, GI 2025 Base Funding and One-time Funding

Date: April 30, 2019

The Governor's January budget proposed an allocation of \$45M for Graduation Initiative 2025 (GI 2025) funding, a decrease from last year. While it may change in the May budget revision, it is important that we be prepared to allocate resources in a timely manner so that they can be used to support our students beginning in Fall 2019. My goal is to have these funds allocated and distributed within two weeks of receiving them.

A lot of work was done during this past year with input from COBRA, the GI 2025 Subcommittee of the Strategic Enrollment Management Plan as well as from other sources of input from faculty, students, and staff. I very much appreciate the level of engagement and input—it provided insight and an approach for allocations. The result of this engagement is this call for proposals that further our efforts to support student success on our campus.

Eligibility

All Cabinet members, Deans, and Academic Affairs Associate Vice Presidents are eligible to apply.

Proposal packet

The proposal packet can be found at <http://www.csueastbay.edu/oa>. The packet includes directions for submissions and the proposal timeline.
