

Full Time Grad Status

Full-time status for a graduate student is defined as:

- a. having been admitted to a CSUH program leading to a degree or credential, and
- b. being enrolled in a minimum of 8 weighted units of courses leading to a degree, and
- c. being enrolled through regular matriculation, Extension Special Session, or a combination thereof.

CONTINUING STATUS, GRADUATE STUDENTS

Continuing eligibility for graduate students to enroll may be maintained by enrolling as a regularly matriculated university student and/or Extension Special Session student without a break exceeding two quarters. If the break is three or more quarters, the student must reapply for admission both to the University and the Master's Degree program.
