

Pioneer Data Warehouse Steering Committee

Approved by President's Cabinet, June 7, 2012; updated April 21, 2016

Charge

The Pioneer Data Warehouse Steering Committee is a university wide committee charged with making recommendations to the Cabinet regarding the scope, development, implementation, and maintenance of an integrated data warehouse designed to provide data and reports to serve the University's planning, decision-making and operational needs. The Steering Committee is also responsible for setting the strategic direction for the data warehouse, coordinating data warehouse priorities among the university's several divisions and making recommendations for resource allocation. The Steering Committee is charged further with assessing data needs of the university community and communicating with multiple stakeholders including data stewards and report users. The Steering Committee may establish regular committees or short-term task forces to address specific topics or time-sensitive issues, including assessment of system performance and reporting tools.
