Degree Requirements

Students must complete 120 total units for the degree, which includes General Education (GE) requirements, university requirements, and major requirements. In addition to the required courses, students may need **additional units** to reach 120 units. Students should meet with their assigned College of Health Academic Advisor to confirm how many actual units are needed based on overall academic history and to verify any pending unit/GE requirements. If additional units are needed, a list of recommended elective courses for SLHS majors can be found [here](#).
